# 1 OVERVIEW

---

Per ACIN No. I-67-19, the Social Security Administration (SSA) increased to 1.6% percent for 2020.

Per ACWDL No. 19-24, the monthly Medicare Part B Supplemental Medical Insurance Base premium increased to \$144.60. The information for the Effective SSI/SSP Cash Grant Levels for Determining Pickle Eligibility from January 1, through December 31, 2020, and the 2020 Pickle Disregard Computation Chart were provided.

## 1.1 Current Design

**The Systems** store the income information of the customers and use the income information to evaluate the eligibility for any program.

Customer's Social Security Administration (SSA) income is updated every year based on the new SSA income increase rate effective the month of January of that year. As Federal Poverty Level (FPL)-related budgets also use this updated SSA income information and the new FPL increase rate is not effective until the month of April for FPL budgets, The Systems use a 'Backout Multiplier' to account for the difference. The Backout Multiplier holds the current year's SSA income increase rate value. When handling FPL budgets, The Systems take the current SSA income amount and divides it with the Backout Multiplier (CT335\_A2\_SSA\_INCOME\_INCREASE\_MULTIPLIER) which results in the SSA income amount being equal to the previous SSA income amount. It undoes the updated SSA rates for FPL-related budgets for benefit months January, February, and March.

DHCS provides the 'Pickle Disregard Computation Chart'. The Systems use this chart to determine the disregard amount for Pickle applicants and eligible persons.

EDBC compares the customer's income to the SSI/SSP payment standard amounts to evaluate the eligibility for certain budgets like '250% Working Disabled'.

Most beneficial logic is applied when CalFresh (CF), CalWORKs (CW), Immediate Need (IN), or Refugee Cash Assistance (RCA) EDBC is run for a mid-period month. As part of the most beneficial logic, if the countable amount of an existing income has increased, the system will instead use the previously counted, lower income value.

If a customer is paying the Medicare Part B premium, EDBC uses this amount as a deduction for certain budgets.

## 1.2 Requests

1. With the 2020 SSA Cost of Living Adjustment (COLA), SSA has approved a 1.6 percent increase for SSA benefits. This causes an increase in the income for a customer who is currently receiving the SSA benefits. Income information stored in The Systems for these customers will be updated to address the increase.
2. The 2020 SSA COLA published SSA income increase rate is 1.6%. The current value of the 'Backout Multiplier' does not match with the updated rate increase and needs to be updated.
3. With the 2020 SSA COLA information, DHCS provided the updated The 2019 Pickle Disregard Computation Chart effective 1/1/2020. The Systems Pickle values will be updated to match the new chart.
4. With the 2020 SSA COLA, SSI/SSP payment standards are updated. The Systems will be updated to match the new SSI/SSP payment standards.
5. With the 2020 SSA COLA, income would increase for the customer who is currently receiving SSA. As this income increase is predicted, most beneficial logic will not be triggered.
6. The 2020 Medicare Part B Premium changed from \$135.50 to \$144.60. Medicare Part B Premium amounts stored in The Systems for these customers will be updated to address the increase.
7. Per CDSS directive, CalSAWS will not apply data change to add the new OPA detail SSI amount effective 1/1/2020 for a person receiving SSI income for Cal Fresh (CF) program.

CIV-105832 will reverse the applied data changes on person receiving SSI income for CF program for C-IV cases.

## 1.3 Overview of Recommendations

1. Apply a data change to add the new SSA income and SSI income amount effective 1/1/2020 for a person receiving SSA and SSI income in continuing EDBC-based programs.
2. The 2020 SSA COLA published SSA income increase rate is 1.6%. Update the value of the 'Backout Multiplier' to match the rate increase.
3. Update The Systems Pickle values to match the 'Pickle Disregard Computation Chart' effective 1/1/2020.
4. Update The Systems to match the new SSI/SSP payment standards.

5. Income would increase for the customer who is currently receiving SSA. As this income increase is predicted, most beneficial logic will not be triggered.
6. Update Medicare Part B Premium amounts stored in The Systems for these customers to \$144.60 to address the increase.
7. Create a Journal entry to document the data changes for SSA Income and Medicare Part B Premium amounts.

## 1.4 Assumptions

1. The Systems do not maintain the Pickle In-kind and Support Maintenance (ISM) values.
2. The resource limit for both Medi-Cal and Pickle eligibility will remain the same (\$2,000 for one person and \$3,000 for two persons).
3. Medicare Part A premium amount is not relevant to SSA COLA. Existing Medicare Part A records in the database are entered by the user and will not be updated by this data change.
4. Other than what is referenced in this document, all EDBC-based program eligibility determination logic remains unchanged.
5. For Mixed Households (MAGI/Non-MAGI), when EDBC runs on Medi-Cal, it will run against the latest MAGI eligibility.
6. There are no changes to Forms or NOAs as a result of this SCR. If the SSA COLA adjustment results in a decrease or loss of benefits, the system will leverage existing negative change NOA logic to notify participants.

## 2 RECOMMENDATIONS

---

### 2.1 Data Change to Apply the New SSA Income Amount

#### 2.1.1 Overview

The new SSA income amount has increased by 1.6% effective 1/1/2020. Apply a data change to add the new SSA income amount effective 1/1/2020 for a person receiving SSA income in continuing EDBC-based programs.

#### 2.1.2 Description of Changes

1. Identify SSA income records with all of the following:
  - a. The income category is Social Security
  - b. The income amount detail has a begin date on or after 1/1/2019 but before 1/1/2020
  - c. The income amount is not \$0
  - d. The income amount detail has no end date (high-dated)

e. The income record has either \$0 or no value in both the "Income Adjustment" and "Unreported Amount" field

**And** either of the following:

a. The participant with the eligible income record is Active on an EDBC-based program\* on or after 01/01/2020

**Or**

b. The participant Is Denied or Discontinued on an eligible EDBC-based program\* within the rescission period

Program	Rescission Period
Medi-Cal	90
CalFresh	30
Homeless – Temp	30
Immediate Need	30
Homeless – Perm	30
Diversion	30
CalWORKs	30
CAPI	30
General Assistance/General Relief	30

Note: The rescission period is the amount of time the user normally rescinds a denied or discontinued case instead of a reapplication.

\* For reference, these are the EDBC-based programs: Adoption Assistance Program (AAP), Cash Assistance Program for Immigrants (CAPI), CF, Nutrition Benefit (NB), CW, Diversion, Foster Care (FC), Homeless - Perm, Homeless - Temp, IN, Kin-GAP (KG), Medi-Cal (MC), RCA, General Assistance/General Relief (GA/GR), Approved Relative Caregiver (ARC), Transitional CalFresh (TCF)

2. End date the identified high-dated SSA income record effective 12/31/2019.
3. Create a new SSA income record for the person identified in #1 with a copy of the 2019 record and update the following values:
  - a. Begin date: 1/1/2020
  - b. Amount: increase the identified 2019 amount by 1.6% (multiplying by 1.016) and round down to the nearest whole dollar.
  - c. Change Reason: COLA
  - d. Reported Date: Implementation Date of the SCR

Note: The verification status will be the same as the verification status of the identified 2019 record.

### 2.1.3 Programs Impacted

EDBC-based programs: AAP, CAPI, CF, NB, CW, Diversion, FC, Homeless - Perm, Homeless - Temp, IN, KG, MC, RCA, GA/GR, ARC, TCF

### 2.1.4 Estimated Number of Records Impacted/Performance

~350,000 income records impacted in CalSAWS and ~430,000 income records impacted in C-IV.

## 2.2 **C-IV only**: Data Change to Apply the New OPA Detail SSI Amount

### 2.2.1 Overview

The new SSI amounts have increased by Standard amounts effective 1/1/2020. Apply a data change to add the new OPA detail SSI amount effective 1/1/2020 for a person receiving SSI income for Cal Fresh (CF) program. The SSI/SSP Payment Amount for the 'SSI/SSP' OPA records are updated when the page is saved.

### 2.2.2 Description of Changes

1. Identify the Other Program Assistance (OPA) detail SSI record with all of the following:
  - a. The 'Type of Assistance' category is "SSI Only" or 'SSI/SSP'
  - b. The OPA record has a begin date on or after 1/1/2019 but before 1/1/2020
  - c. The 'SSI Payment' and/or 'Amount or Value of Services' is \$771 or \$578.50
  - d. The amount detail has no end date (high-dated)

**And** either of the following:

  - a. The participant with the eligible OPA record is Active on a CF program on or after 01/01/2020
  - Or**
  - b. The participant Is Denied or Discontinued on a CF program within the rescission period of 30 days.
2. End date the identified high-dated OPA record effective 12/31/2019.
3. Create a new OPA detail record for the person identified in #1 with a copy of the 2019 record and update the following values:
  - a. Begin date: 1/1/2020
  - b. 'SSI Payment' and/or 'Amount or Value of Services': Update
    - i. \$771 to \$783

- ii. \$578.50 to \$587.50
- c. Do not update SSP Payment amounts for 'Type of Assistance': "SSI/SSP"
- d. 'SSI/SSP Payment Total': For 'Type of Assistance': "SSI/SSP", update the 'SSI/SSP Payment Total' to be a total of the updated 'SSI Payment' amount from 3.b above plus the existing 'SSP Payment'

Note: The verification status will be the same as the verification status of the identified 2019 record.

### **2.2.3 Programs Impacted**

CF person for EDBC-based programs: AAP, CAPI, CF, NB, CW, Diversion, FC, Homeless - Perm, Homeless - Temp, IN, KG, MC, RCA, GA/GR, ARC, TCF.

### **2.2.4 Estimated Number of Records Impacted/Performance**

~48,000 number of OPA records impacted in **C-IV** with SSI amount of \$771 and \$578.50.

## 2.3 Backout Multiplier

### 2.3.1 Overview

The SSA COLA will not be applied to certain Medi-Cal programs until the 2020 Federal poverty levels (FPLs) are updated, typically in April. The Federal Poverty Level (FPL) related budgets use the updated SSA income information and the new FPL increase rate is not effective until the month of April for FPL budgets, The System uses a 'Backout Multiplier' to account for the difference.

The following categories will trigger the backout logic:

- a) FPL Percent Programs
- b) Aged and Disabled
- c) Medicare Premium Payment Programs

### 2.3.2 Description of Changes

1. Update the 'Backout Multiplier'(CT335\_A2)
  - a. Set the 'Backout Multiplier'(CT335\_A2) value to 1.016 for year 2020.
  - b. Set the 'Backout Multiplier'(CT335\_A2) value to 1.00 for year 2021 and after. EDBC will use this value effective 01/01/2021 until the next SSA COLA changes are applied.
2. Update the "SSA COLA Adjustment End Month Number"(CT335\_A5) and the "SSA MPPP COLA Adjustment End Month Number"(CT335\_A6) in the code tables as below
  - a. End date the current records of CT335\_A5 and CT335\_A6 to '12/31/2019'.
  - b. Add new high-dated records for CT335\_A5 and CT335\_A6 with begin date of '01/01/2020' and value of '12' (December). This will allow the 'Backout Multiplier' from Recommendation 2.1 to be applied until the 2020 FPL limits are updated in the system.

Note: According to ACWDL 19-24, the SSA COLA will not be applied to certain Medi-Cal programs until the Federal Poverty Levels are updated, typically in April. The values, CT335\_A5 and CT335\_A6 will be updated to '3' (March) once the 2020 FPL limits are updated in the system. Changing this value back to 3 will allow the full SSA Income amount to be applied beginning in the 04/2020 Benefit month, without the 'Backout Multiplier'.

# 1 OVERVIEW

---

Adoptions Assistance Program (AAP) eligibility workers currently manually track adoptive child's birthdates and run EDBC to discontinue at age 18 and/or 21. CalSAWS will develop batch sweeps to discontinue AAP programs for Non-Minor Dependents (NMDs) effective the first of the month after the month the NMDs turns 18 and/or 21. CalSAWS will also generate a NA 791 NOA seventy calendar days before the end of the NMDs 18<sup>th</sup> and 21<sup>st</sup> birthday month.

An exception to AAP program discontinuance is when the NMDs are turning Age 18 but their AAP benefits are extended to Age 21. These individuals will not be included in the batch sweep and instead will be discontinued by the batch job at Age 21.

## 1.1 Current Design

AAP eligibility workers perform the following actions manually:

- Evaluate adoptive child's birthdates for when they turn 18 and 21.
- Run EDBC to discontinue the AAP program when the NMD turns of age 18 and are not eligible for an extension of AAP benefits.
- Run EDBC to discontinue the AAP program when the NMD turns of age 21 who had extended benefits.
- The NA 791 (version 11/16) was available to manually generate from Template Repository.

## 1.2 Requests

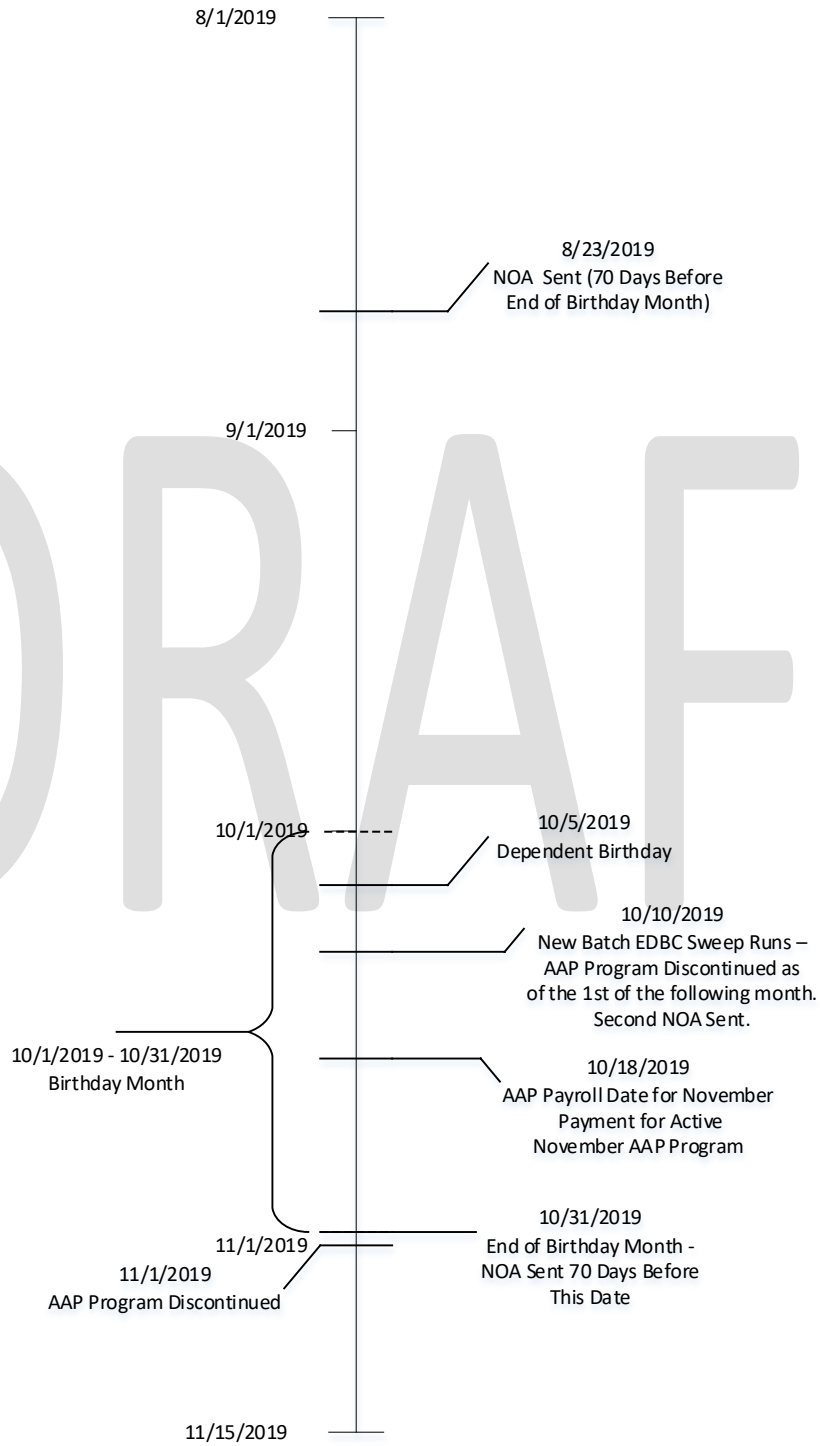

- Create new batch sweeps to evaluate NMD birthdates and run EDBC to re-evaluate the AAP program when a NMD turns age 18 and/or 21.
- Update the NA 791 to the newest State version (version 9/18).
- Automate sending NA 791 NOA seventy calendar days before the end of the month of the NMD 18<sup>th</sup> birthdate and 21<sup>st</sup> birthdate month and when the child is discontinued.

## 1.3 Overview of Recommendations

- Update the NA 791 to the newest 9/18 version.
- CalSAWS only: Automate sending the NA 791 seventy calendar days before the end of the month of the NMD 18<sup>th</sup> birthdate and 21<sup>st</sup> birthdate month and when the NMD is discontinued.
- Create new EDBC batch sweeps to evaluate NMD birthdates and run the batch sweeps on the 10<sup>th</sup> of the month of each month. When the NMDs turn 18 or 21 during the month the Batch EDBC is evaluating, Batch EDBC will discontinue the AAP program. If the NMD is turning 18, a check will also be done to confirm the NMD does not have an extension to stay on the program until age 21.
- Create a journal entry for each AAP program discontinued by the EDBC run.

Example Timeline:

## 1.4 Assumptions

1. The NA 791 is only currently available in English in CalSAWS and available in English and Spanish in C-IV. This effort will only update/add English and Spanish. Threshold will be included in a separate SCR (SCR CA-210572/CIV-105082).
2. The NA 791 form has a Variable named <DATA006> that at the moment only populates the one LA County specific phone number. DDCR 1065 will address the phone numbers required for other counties.

## 2 RECOMMENDATIONS

---

Automate sending NA 791 NOA seventy calendar days before the end of the month of the NMD 18<sup>th</sup> birthdate and 21<sup>st</sup> birthdate month and when the NMD is discontinued.

Create new batch jobs for the AAP program to evaluate NMD birthdates and run EDBC to re-evaluate the AAP program as of the 1<sup>st</sup> of the next month after the birthday month when a NMD turns of age 18 and 21.

### 2.1 Updates to the NA 791 NOA

#### 2.1.1 Overview

Update the NA 791 to the newest State version (version 9/18). Update the NA 791 to generate the age 21 verbiage or age 18 verbiage based upon EDBC results. This notice will be generated 70 days before the last day of the month for the child's birthday month and when the child is discontinued via EDBC.

#### 2.1.2 Description of Change

The AAP NOA (NA 791) will be updated in Template Repository. The NOA will be updated to generate the applicable age 18 or age 21 verbiage when EDBC (see Recommendations 2.1.2.2 and 2.1.2.3) runs and fails the person for these reasons.

##### 2.1.2.1 Update the NA 791 to the newest State Version (9/18)

Update the NA 791 to the newest version available from the State (version 9/18). This NOA will be updated in English in The Systems. It will also be added in Spanish for CalSAWS and the existing Spanish version will be updated for C-IV. This will update both the version generated in CalSAWS from EDBC and the one available in Template Repository in The Systems.

Note: The NA 791 currently has a NA Back 9.

See Supporting Documents section for Mockup and FDD.

### 2.1.2.2 CalSAWS Only: Add Section Generation logic for AAP NOA (NA 791) for age 18

#### For EDBC:

Add this new Fragment on a AAP NOA for the program when all of the following are true:

- The AAP Program is failing in the newly run EDBC for the status reason of 'Disc NMD turned 18'.
- there is at least one existing AAP EDBC for the current Benefit month and in the most recent saved AAP EDBC of the existing AAP EDBCs for that month the program had an active status

or

there is not a previously existing AAP EDBC for the current Benefit month and there is at least one AAP EDBC for the previous month and in the most recent saved AAP EDBC for the previous month the program had an active status

#### For Batch:

Generate this Section on the AAP NOA (NA 791) when the NA 791 Form Sweep (See Recommendation 2.2) generates the NA 791 form and the child will be turning 18 in 70 or less days.

### 2.1.2.3 CalSAWS Only: Add Section Generation logic for AAP NOA (NA 791) for age 21

#### For EDBC:

Add this new Fragment on a AAP NOA for the program when all of the following are true:

- The AAP Program is failing in the newly run EDBC for the status reason of 'Disc NMD turned 21'.
- there is at least one existing AAP EDBC for the current Benefit month and in the most recent saved AAP EDBC of the existing AAP EDBCs for that month the program had an active status

or

there is not a previously existing AAP EDBC for the current Benefit month and there is at least one AAP EDBC for the previous month and in the most recent saved AAP EDBC for the previous month the program had an active status

#### For Batch:

Generate this Section on the AAP NOA (NA 791) when the NA 791 Form Sweep (See Recommendation 2.2) generates the NA 791 form and the child will be turning 21 in 70 or less days.

## 2.2 CalSAWS only: Create NA 791 Form Sweep

### 2.2.1 Overview

A nightly batch will be created to check for cases with active AAP that contain the following:

- There is a NMD on the case turning 18 years of age in 70 or less calendar days
- NA 791 with the over 18 years of age reason has not been sent out in the 71 days prior to the NMD turning 18 years of age.
- NMD does not have an AAP program extension to Age 21.
- The NMD has an AAP program extension if the following exist on the AAP Summary Page > Extended Benefits section.
  - a. For a Participation Extension the following requirements must be met:
    1. Was the Initial AAP Agreement signed on or after the youth's 16th birthday?" = Yes
    2. "Is the AAP youth meeting participation requirements for extended benefits?" = Yes
    3. At least one of the following check boxes are checked:
      - "Completing secondary education"
      - "Completing post-secondary or vocational education"
      - "Participating in a program or activity to remove barriers to employment"
      - "Employed for at least 80 hours per month"
      - "Incapable of doing any of the above activities due to a mental or medical condition?"
  - b. For a Medical Extension the following requirements must be met:
    1. "Does the AAP youth have a mental or physical disability that meets the requirements for extended benefits?" = Yes

OR

- There is a NMD on the case turning 21 years of age in 70 or less calendar days
- NA 791 with the over 21 years of age reason has not been sent out in the 71 days prior to the NMD turning 21 years of age.

### 2.2.2 Description of Change

For each record returned in the driving query, a record will be inserted into the batch transaction table to generate a NA791 during forms processing.

Transaction values:

- Case ID: Case associated to the AAP program
- Program ID: Active AAP Program
- Person ID: Primary Applicant of Active AAP Program
- Type Code: FR
- Sub Type Code: TBD
- Eff Date: The Batch Run Date
- Created By: Batch
- Updated By: Batch

### 2.2.3 Execution Frequency

This Batch Job will run every business day (Monday – Saturday).

### 2.2.4 Key Scheduling Dependencies

This job will run before forms balancers.

### 2.2.5 Counties Impacted

19 - Los Angeles

### 2.2.6 Data Volume/Performance

N/A

### 2.2.7 Failure Procedure/Operational Instructions

Batch Support/Operations staff will diagnose the nature of the failure and determine the appropriate action.

## 2.3 CalSAWS Only: Re-evaluate AAP Program for NMDs Turning 18 and 21

### 2.3.1 Overview

Create new Batch EDBC Sweep jobs to trigger Batch EDBC to re-evaluate NMD's (any person active on AAP) turning 18 and/or 21. These new batch sweep jobs will run on the 10<sup>th</sup> calendar day of each month. The batches will evaluate if and when the NMDs turn 18 or 21 during the month the batch is running for. If the NMD is turning 18 or 21 the EDBC batch sweep will trigger EDBC to re-evaluate the AAP program. When the NMD is turning 18, a check will also be done to confirm the NMD does not have an extension to stay on the program until age 21.

### 2.3.2 Description of Change

1. Create a CTCR to add new Batch Eligibility Sweep codes for the journal entry Category 942 (Batch Eligibility Sweep Codes).

Batch EDBC Sweep Code	Description
New/Update	New
Category Id	942
Short Decode Name	NMD turned 18
Long Decode Name	NMD turned 18
Begin date	Default / System Min Date / 01-JAN-00 00:00:00
End date	Default / System High Date /31-DEC-99 00:00:00

Batch EDBC Sweep Code	Description
New/Update	New
Category Id	942
Short Decode Name	NMD turned 21
Long Decode Name	NMD turned 21
Begin date	Default / System Min Date / 01-JAN-00 00:00:00
End date	Default / System High Date /31-DEC-99 00:00:00

2. Add new monthly batch sweep jobs to trigger Batch EDBC when the following conditions are met:
  - i. Program Type = Adoptions Assistance Program (AAP)
  - ii. Program Status is Active on the 1<sup>st</sup> of the month following the batch month.
    1. Example: Birthday is August 15<sup>th</sup>. Batch is ran on August 10<sup>th</sup> for the month of August birthdays. If a birthday is in August, batch will evaluate that the program is active effective September 1st.
  - iii. First Batch Sweep: If NMD (Any Person Active on AAP) is turning 18:

1. Birthdate is during the batch month.
2. NMD does not have an AAP program extension to Age 21.
3. The NMD has an AAP program extension if the following exist on the AAP Summary Page > Extended Benefits section.
  - a. For a Participation Extension the following requirements must be met:
    - i. "Was the Initial AAP Agreement signed on or after the youth's 16<sup>th</sup> birthday?" = Yes
    - ii. "Is the AAP youth meeting participation requirements for extended benefits?" = Yes
    - iii. At least one of the following check boxes are checked:
      1. "Completing secondary education"
      2. "Completing post-secondary or vocational education"
      3. "Participating in a program or activity to remove barriers to employment"
      4. "Employed for at least 80 hours per month"
      5. "Incapable of doing any of the above activities due to a mental or medical condition"
  - b. For a Medical Extension the following requirements must be met:
    - i. "Does the AAP youth have a mental or physical disability that meets the requirements for extended benefits?" = Yes

**Extended Benefits**

Completing post-secondary or vocational education.

Participating in a program or activity to remove barriers to employment.

Employed for at least 80 hours per month.

Incapable of doing any of the above activities due to a mental or medical condition.

- iv. Second Batch Sweep: If NMD is turning 21:
  1. Birthdate is during the batch month.
3. The new monthly batch sweep jobs will perform the following actions:
  - i. Trigger Batch EDBC with the following parameters:

1. Run Type Code = Single Program Mode
2. Effective Date = The month following the batch month
3. Sub Type Code = If 18 Years Old (NMD turned 18); If 21 Years Old (NMD turned 21)

### 2.3.3 Execution Frequency

The jobs will be ran on the 10<sup>th</sup> calendar day monthly in order to trigger EDBC prior to the monthly AAP payroll process. If the 10<sup>th</sup> falls on a Sunday or holiday, the batches will run on the prior business day.

### 2.3.4 Key Scheduling Dependencies

The batches will run before the existing Batch EDBC processing job.

### 2.3.5 Counties Impacted

### 2.3.6 Data Volume/Performance

No measurable amount of data volume or performance change.

### 2.3.7 Failure Procedure/Operational Instructions

Batch Support Operations staff will evaluate transmission errors and failures and determine the appropriate resolution (i.e., manually retrieving the file from the directory and contacting the external partner if there is an account or password issue, etc...)

This SCR is only for CalSAWS which creates a gap with C-IV. For migration, this automation will be evaluated to determine if this should be made available for C-IV counties or if this will stay a Los Angeles County only functionality.

# 1 OVERVIEW

---

These SCRs for C-IV and LRS are requests for improvements to the current reports that will assist in providing information to aid in, and more easily complete, county required state reports.

## 1.1 Current Design

The current Integrated Service Payment/Valuable Detail Claiming Report (Daily and Monthly) includes multiple total columns for the different data elements. However, the report does not include a total for a single transaction (row) on the Summary Tab. Also, the report does not include the state PIN and, does not include EBT expungements.

## 1.2 Requests

Requests from the SCR are divided into three areas;

- a) Add transaction total on the Summary Page.
- b) For claiming on the County Expense Claim (CEC), the counties use the state PINS. The reports include a pay code and fund code that the workers use to decrypt the state PINS that will be used. The pay code and fund code in this regard are not used for anything besides decrypting into the state PINS for completion of the CEC.
- c) Include EBT expungements in both the Daily and Monthly Integrated Service Payment/Valuable Detail Claiming Report.

## 1.3 Overview of Recommendations

Modify the Integrated Service Payment/Valuable Detail Claiming Reports (Daily and Monthly) to include additional data columns, added EBT expungement transactions and adjust summary totals for ease of use and include expungement information.

## 1.4 Assumptions

1. No Impact to other Fiscal Reports.
2. The data set size of Excel report worksheets will not exceed 65,500 rows.
3. Excel reports implemented via RTF Data can exceed 65,500 rows under presentation restrictions but not exceed 1.2 million rows.
4. Development will include accommodation for update of State PINs to 8 digits per SCRs CA-210119 and CIV-104879 in the future.

**\*Note:** C-IV version of a Report will display the C-IV logo in the worksheets and LRS logo will display in the LA County version as required.

# 1 OVERVIEW

---

Per ACIN No. I-67-19, the Social Security Administration (SSA) income increased to 1.6% percent for 2020.

Per ACWDL No. 19-24, the monthly Medicare Part B Supplemental Medical Insurance Base premium increased to \$144.60.

Run Batch EDBC to correctly apply the 2020 SSA COLA values.

## 1.1 Current Design

**The Systems** stores the customers SSA income and uses the information to evaluate the eligibility for any program.

If a customer is paying the Medicare Part B premium, EDBC uses this amount as a deduction for certain budgets.

CA-200824/CIV-100451 updated the SSA income and Medicare Part B Premium records as per the 2020 SSA COLA ACWDL 19-24 and ACIN I-67-19.

## 1.2 Requests

CA-200824/CIV-100451 updated the SSA income and Medicare Part B Premium records as per the 2020 SSA COLA ACWDL 19-24 and ACIN I-67-19. Any 2020 EDBC run prior to the update used the previous 2019 values in the EDBC budget. Run Batch EDBC to correctly apply the 2020 SSA COLA values.

## 1.3 Overview of Recommendations

1. Run Batch EDBC for the targeted Populations on 12/14/2019.
2. Generate lists to aid the counties after Batch EDBC completes.

## 1.4 Assumptions

1. In CalSAWS, a standard Journal Entry will be created automatically based on the Sub Type code = 'CT942-SA' – Annual SSA COLAs and Related Changes when the batch is run. In CIV, a standard journal will not be created; CIV-100452 was created to address the functionality. The SCR has not yet been prioritized.
2. In CalSAWS, when records are inserted in SYS\_TRANSACT in 'All Programs' mode with same Run Reason during Batch Run, 'SSA COLA' Run Reason will display only for one program record instead of all the program records.

## 2 RECOMMENDATIONS

---

### 2.1 Batch EDBC

#### 2.1.1 Overview

CA-200824/CIV-100451 updated the SSA income and Medicare Part B Premium records as per the 2020 SSA COLA ACWDL 19-24 and ACIN I-67-19. Run Batch EDBC to correctly apply the 2020 SSA COLA values.

#### 2.1.2 Description of Change

1. Run Batch EDBC for the targeted Populations on 12/14/2019
  - a. Run Batch EDBC for January 2020 with 'SSA COLA' Run Reason for SSA COLA cases affected by CA-200824/CIV-100451, defined as follows:
    - i. The program type is CalFresh (CF), CalWORKs (CW), General Relief (GR), CAPI, Kin-GAP (KG), Medi-Cal (MC) (Non-MAGI or Mixed MAGI/Non-MAGI), Refugee Cash Aid (RCA)  
Note: Batch EDBC will not be run on AAP, Diversion, Homeless – Perm, Homeless – Temp, and Immediate Need programs, even if the SSA income only data change has been applied. But, Batch EDBC may run these programs due to batch running in All Programs mode (EDBC will be triggered for all the programs in the case).
    - ii. The program contains an active person whose SSA income and/or Medicare Part B Premium amount was modified by CA-200824/CIV-100451.
  - b. Run Batch EDBC for January 2020 with 'SSA COLA' Run Reason for Foster Care cases which are active in that benefit month with a person who had an SSA income modified by CA-200824/CIV-100451.
2. Batch EDBC Exceptions:
  - a. EDBC has been processed since 2020 SSA COLA rate changes with CA-200824 went live with the 19.12.12 release on 12/12/2019 and CIV-100451 went live with 19.12.05 release on 12/05/2019.
  - b. Transitional CalFresh (TCF) programs. However, if another program on the same case is targeted, TCF may be processed as well due to 'All Programs' mode but existing rules preventing changes to TCF will still apply.
  - c. MAGI-only Medi-Cal programs. However, if another program on the same case is targeted, Medi-Cal EDBC may get processed on the MAGI-only Medi-Cal program due to 'All Programs'

mode. If Medi-Cal EDBC gets processed, it will use the existing MAGI determination response which is relevant to that benefit month and will not trigger the new Eligibility Determination Request(EDR) to CalHEERS.

- d. The program is MC, CW, CF, RCA, FC, KG, or GR (Annual Agreement) and the RE for the program is due prior to January 01, 2020.
- e. The case has a Semi Annual Reporting (SAR7) packet **due in December, 2019** which has a status of 'Generated', 'Sent', 'Received' or 'Incomplete'. For GR, the case has a QR7 **due in December, 2019**.

Note: Cases with missing or incomplete SAR7s or RE packets will have EDBC run by the worker or the existing SAR7 Discontinuance or Redetermination Discontinuance batch processes.

- 3. C-IV Only Batch EDBC Exceptions:
  - a. FC programs with a Non-Related Legal Guardianship placement authority with a Probate court established guardianship and the rate level is set to a value other than Schedule A, Schedule B, Age-Based, or Basic.
  - b. FC programs with a Non-Related Legal Guardianship placement authority with a Juvenile court established guardianship and the rate level is set to a value other than Schedule A, Schedule B, Age-Based, Basic, Level Of Care (LOC) 2, LOC 3, or LOC 4.
  - c. FC programs with an Intensive Services Foster Care (ISFC) rate with no Approved or Licensed ISFC License for the duration of the rate within the placement and benefit month.
  - d. FC programs with a Short Term Residential Therapeutic Program (STRTP) rate with no Approved or Licensed STRTP License for the duration of the rate within the placement and benefit month.
  - e. FC programs with a Foster Family Agency (FFA), FFA Treatment, FFA Intensive Programs, Multidimensional Treatment, or FFA Non-Treatment placement with a 'County or FFA ISFC' Standard State Rate and no ISFC State Program Number.
- 4. Generate lists to aid the counties after batch EDBC completes. Refer to section 5 'Outreach' for further details.

### **2.1.3 Execution Frequency**

One Time Change Only.

### **2.1.4 Key Scheduling Dependencies**

No Dependencies.

### 2.1.5 Data Volume/Performance

There will be approximately 350,000 programs processed in each system. The exceptions from the batch run will be available online through the 'On Request' "Batch Eligibility Report". Users can run the "Batch Eligibility Report" to see list of cases processed by batch EDBC the previous night.

### 2.1.6 Operational Instructions

1. Run the Data Change Request (DCR) to insert into SYS\_TRANSACT records from recommendation 1a and 1b for January 2020. These records will have a run type code of 'All Programs'.
2. Run the driving query for 2020 State Minimum Wage from CA-206224/CIV-103088.
3. Run Batch EDBC.  
*Operational Note: The Order of the steps mentioned above matters. Allow each step to complete before moving to the next step.*
4. **C-IV only:** Run Batch job PBXXP298 after SSA COLA to release the NOAs from 'Batch Hold' status to be printed and mailed the same night.

## 5 OUTREACH

### 5.1 Lists

Generate lists to aid the counties after batch EDBC completes.

All lists will have the standard list columns to display on the listings.

**Standard Columns:**

- Case Name
- Case Number
- County
- Unit
- Unit Name
- Office Name

- Worker

1. **List Name:** Cases with Program Closed by Batch  
**List Criteria:** Cases where this Batch EDBC process closed a program.  
**Additional Column(s):** Program Type, Program Closure Reason  
**County Action:** These are likely the result of household changes or ongoing data collection which was not yet processed through EDBC by the user. Since the purpose of this Batch EDBC process was not to close households, review these cases to verify the closure was accurate.
2. **List Name:** Cases with Person Closed by Batch  
**List Criteria:** Cases where this Batch EDBC process with Active program and closed person.  
**Additional Column(s):** CIN#, Program Type, Person Closure Reason  
**County Action:** These are likely the result of household changes or ongoing data collection which was not yet processed through EDBC by the user. Since the purpose of this Batch EDBC process was not to close persons, review these cases to verify the closure was accurate.
3. **List Name:** Cases with Read-Only EDBCs by Batch  
**List Criteria:** Cases where this Batch EDBC resulted in a Read-Only EDBC.  
**Additional Column(s):** Program Type, Read-Only Reason  
**County Action:** Since Batch EDBC could not automatically apply the intended change to these cases, users may process EDBC to apply intended changes, if applicable.
4. **List Name:** Medi-Cal Cases with FPL \$1 under Limit  
**List Criteria:** Cases which have a passed Medi-Cal FPL program with a person receiving SSA, and have a net income that is one dollar under the limit.  
**County Action:** These cases could have passed the FPL program in error due to rounding in the 'Back out' process. Counties can use this list to verify that the income test results are correct, and take action if needed.
5. **List Name:** Cases Skipped by Batch  
**List Criteria:** Cases skipped in the Batch EDBC run.  
**Additional Column(s):** Program Type, Skip Reason  
**County Action:** Since Batch EDBC did not automatically apply the intended change to these cases, users may process EDBC to apply intended changes, if applicable.

The lists will be posted on December 16<sup>th</sup> after the Batch EDBC process is completed to the following locations:

# 1 OVERVIEW

---

With this design the FNS 209 and the FNS 209 Line 3b Backup Report will be updated to exclude CalFresh recovery accounts that have not been established due to being set to 'Discharged' status then later set to 'Void'.

## 1.1 Current Design

With SCR CA-208685 CIV-104217 a new CalFresh recovery account status of 'Discharged' will be introduced to system per state instructions outlined in ACL 19-50. In the same SCR the FNS 209 will be updated to exclude recovery accounts in 'Discharged' status per ACL 19-50 instruction. It is the case that a recovery account in 'Discharged' status can then be set to 'Void'. If a recovery account goes from 'Discharged' status at the beginning of a reporting quarter to 'Void' in the current quarter, the recovery account will incorrectly appear on the FNS 209 and the FNS 209 Line 3b Backup Report.

## 1.2 Requests

1. Update the FNS 209 and the FNS 209 Line 3b Backup Report to exclude recovery accounts that go from 'Discharged' status to 'Void' status.

## 1.3 Overview of Recommendations

1. Update the FNS 209 report to exclude recovery accounts that go from 'Discharged' status to 'Void'.
2. Update the FNS 209 Line 3b Backup Report to exclude recovery accounts that go from 'Discharged' status to 'Void' and the related posted 'Void' transaction.

## 1.4 Assumptions

1. A recovery account that was ever in 'Discharged' status can only be set to 'Void' and no later status change can be made.
2. A recovery account that was ever in 'Discharged' status cannot have a cash or non-cash transactions posted to it.
3. A Recovery account that was in 'Discharged' status that was later set to 'Void' will have a zero balance.

## 2 RECOMMENDATIONS

The FNS 209 and the FNS 209 Line 3b Backup Report will be updated to exclude recovery accounts that go from 'Discharged' to 'Void'.

### 2.1 FNS 209

#### 2.1.1 Overview

The FNS 209 will be updated to exclude recovery accounts that go from 'Discharged' status at the beginning of the reporting quarter to 'Void' at the end of the reporting quarter. By current functionality, the FNS 209 will correctly exclude recovery accounts that go from a pending status at the beginning of the reporting quarter to 'Discharged' to 'Void' by the end of the same report quarter.

### 1. Example Case Scenarios

Recovery Account	Prior Quarter		Current Quarter	
	Beginning 04/01/19 12AM	End 06/30/19 11:59PM	Beginning 07/01/19 12AM	End 09/30/19 11:59 PM
1		Pending	Pending	Discharged
2		Pending	Pending	Void (Was Discharged Previously)
3	Discharged	Discharged	Discharged	Void

1. The recovery account was created and pending in the prior quarter and was 'Discharged' in the current reporting quarter. This recovery account will not appear on the report by the changes implemented with SCR CA-208685 CIV-104217 which excluded 'Discharged' recovery accounts from the FNS 209.
2. The recovery account was created and pending last quarter, which means it is pending at the beginning of the current quarter and is set to 'Discharged' sometime in the current quarter. The FNS 209 is already set up to treat this scenario as a same quarter void recovery account and will exclude it from the FNS 209. This is the correct functionality and no code change is required.
3. The recovery account is 'Discharged' in the prior quarter, which means it is 'Discharged' at the beginning of the current quarter and sometime within the current quarter is set to 'Void' status. This recovery account should not appear on the FNS 209 or the FNS 209 Line 3b Backup with the changes outlined in this SCR.
