Current Design:

Determination of eligibility to exempt MAP is a multi-step process;
1. Finds every person in the AU who is currently either pending or Active, and also one of the following;
a. has a role of MEM, FRI, FRE, FSO, MMO, or UP and has a biological/adoptive parent relationship to a child with an Active status,
b. has a role of MEM, FRI, FRE, FSO, MMO, or UP and is pregnant,
c. is an Non-Parental Caretaker Relative (NPCR) or stepparent.
2. If there is at least one person identified during the step one, and each of the person identified has at least one of the following incomes or OPA records then the AU qualifies for exempt MAP;
a. Disability SDI Income
b. Workers Comp temporary Income
c. IHSS Other ProgramAssistance (OPA)
d. SSI Only OPA
e. SSI/SSP OPA
3. If there are no program person found in step one, and at least one child who has a Member role in the AU has an unaided NPCR or stepparent then the AU is eligible for Exempt MAP.

Request:

When there is an AU consisting of a parent and child, where the child is pregnant. If the parent has one of the qualifying incomes or OPAs, but the child does not; the household will be determined to be eligible to exempt MAP.

Recommendation:

Update the exempt MAP determination logic to determine the AU with a parent and a pregnant child as exempt MAP when the parent has atleast one of the qualifying income or OPAs.
