

5 Things To Know About CalSAWS

What is CalSAWS?

CalSAWS stands for the **California Statewide Automated Welfare System**. It will house all 58 California Counties and replace the existing C-IV, LRS, and CalWIN systems.

Who is building this?

CalSAWS is being built by the CalSAWS Consortium and vendor partners working hand-in-hand with Counties. There are 700+ staff on the CalSAWS project, including County representatives.

Why?

Per federal mandate, CalSAWS unites all of California's 58 counties under one roof. It streamlines functions and provides users with a seamless experience that is secure and easily accessible.

How?

LRS is being transformed into CalSAWS, which has the look and feel of the C-IV system but with more robust automation. The CalSAWS Project is preparing a set of key Implementation Readiness activities, including User Acceptance Testing (UAT), Data Conversion Clean-up, and Web-based Trainings (WBTs).

When?

CalSAWS is coming to C-IV Counties in **September 2021!** Check the CalSAWS Implementation News Blast (coming October 2020) for more Timelines.
