Request:

Currently when processing a CF OI on a case with an active CW Overpayment (OP) in the same month, C-IV utilizes the CW amount of income in the CF budget that the recipient received, rather than what they were actually eligible to receive.

While this is consistent with previous guidance issued by California Department of Social Services (CDSS), All County Letter 03-18 to be exact, it has more recently been clarified via guidance received on State Hearings Division (SHD) E-Note #146 and All County Informing Notice (ACIN) #I-16-05.

Currently ALL state hearing decisions rendered by Administrative Law Judges (ALJs) on CF OIs where CW OPs are involved are referring to E-Note #146, but State hearings cases only represent a small fraction of the cases for which this would have import, and this would be a significant beneficial change for the recipient. In addition, a small change in programming would reduce the workload burden of Counties significantly as all Counties following E-Note #146 guidance would need to process a CF manual budget any time they are processing a CW OP in the same month.

A copy of E-Note #146 will be attached to the email with this CER.

Recommendation:

CalSAWS programming should be changed to have CF OI computation use the CW amount the recipient was eligible to receive, instead of the amount of CW that was actually received.
