<b>Current Design:</b>	Currently when a FC placement is discontinued, LRS auto-tests for Medi-Cal and opens a Medi-Cal program under the FC case with a 7J or 38 aid code. DCFS provides a hard-copy list of cases to DPSS to initiate the opening of the Medi-Cal program under a new DPSS case number and administer the (4M) Medi-Cal program. DCFS then discontinues the 7J/38 Medi-Cal only program. During CalWINS requirements session, the counties voted and received approval to have the auto-test for the FC case result in a 4M Medi-Cal only program, instead of a 7J or 38 aid code.
<b>Request:</b>	Streamline FCC process by changing EDBC logic to auto-test for 4M when youth 18 years or older exits FC in order to ensure uninterrupted Medi-Cal benefits for youth transitioning out of Foster Care. The recommendations noted below represent a joint DCFS/DPSS solution as discussed at the 7/31/18 meeting.
<b>Recommendation:</b>	1. Update EDBC logic to auto-test for Former Foster Care Child (4M) when a FC program is discontinued for a child 18 years or above a. The new Medi-Cal program block will be created with a separate case number Rest of the Recommendations will be covered with SCR <a href="#">CA-220233</a> as part of Phase II Changes.

Changing project phase to Migration to address differences between C-IV and CalSAWS for treatment of FFY RE Date and FFY Packet. These differences need to be addressed prior to C-IV Migration.
