1 OVERVIEW

1.1 Current Design

The Authorized Representative Detail page captures information regarding the assigned Authorized Representative and/or Additional Correspondent.

1.2 Requests

Applicants and beneficiaries for insurance affordability programs have increased options for choosing roles and responsibilities of the individual or organization they designate as their authorized representative. Counties must accept and use the information completed by the applicant or beneficiary to designate an authorized representative listed on the existing paper Single Streamlined Application (SSApp), on-line SSApp, Statewide Automated Welfare System (SAWS) 2 Plus, MC 306 form, MC 382 form, or another form or written designation.

1.3 Overview of Recommendations

1. Add a tooltip to the Program Column of the Authorized Representative List page when the value is 'Medi-Cal'.
2. Add an 'Additional Contact' table to the Authorized Representative Detail page.
3. Add an 'Authority' field to the Authorized Representative Program Detail page.
4. Add an 'Authority' field to the Effective Dating Confirmation List page when saving an Authorized Representative record for a Medi-Cal program.
5. Remove the reference to the 'Authorized Representative Contact Name' from the Correspondence query GET_ALL_PGM_AUTH_REPS.

2 RECOMMENDATIONS

2.1 Authorized Representative List

2.1.1 Overview

The Authorized Representative List page provides links to the Authorized Representative Detail page for all Authorized Representatives associated to a given case. In order to make Authority information more readily available when the Program is 'Medi-Cal', a hover tooltip will be added to provide the Authority details.

2.5 Contact Name Data Change

2.5.1 Overview

The Contact Name field currently only holds a single value, the name itself. With the changes in section 2.2 this name field will be replaced with a table holding a name, phone number, phone number extension, and email address. In order to align existing values with this new table current 'Contact Name' values will be remapped to the 'Additional Contact Name' field in the new child table.

2.5.2 Description of Change

1. Update the Authorized Representative Data Model to support multiple contacts for a resource. Update the existing contacts information to respect the updated data model.

Note: The currently existing value in the 'Contact Name' field will be mapped to the Additional Contact Name column in the first record of the new Contact Name table regardless of what data is contained in the existing 'Contact Name' field.

2.5.3 Estimated Number of Records Impacted

10000

2.6 Correspondence: Update Authorized Representative Query to remove Contact Name

2.6.1 Overview

An existing Correspondence query looks for Authorized Representative Contact name; However, that information is not populated on any existing Forms or NOAs. This query will be updated to remove its reference to Authorized Representative Contact Name.

2.6.2 Description of Change

Update Correspondence query GET_ALL_PGM_AUTH_REPS to no longer select Authorized Representative's Contact Name.

1 OVERVIEW

As part of SCR CA-207467, the Rush Warrant templates for the 39 C-IV Counties were migrated to CalSAWS and the Rush Warrant functionality was enabled to generate the Rush Warrant templates from the Issuance Detail page.

1.1 Current Design

The Rush Warrant templates for the CalWIN Migration Counties do not exist in CalSAWS.

1.2 Requests

Add the Rush Warrant templates for the CalWIN Migration Counties.

1.3 Overview of Recommendations

1. Create the Rush Warrant templates for the 10 CalWIN Migration Counties.
2. Add population logic for the Rush Warrant templates.

1.4 Assumptions

1. Currently, San Mateo County does not issue out rush (same-day) warrants.
2. The rush warrant templates for the following CalWIN counties will be implemented with SCR **CA-229976**: San Diego, San Luis Obispo, Santa Cruz, Solano, Sonoma, Tulare, and Yolo.
3. The rush warrant alignment testing with the CalWIN counties will be conducted with SCR **CA-212167**.
4. References to 'Payment Amount' variable will populate the amount without a '\$' beforehand (For example: 1234.56). This will account for county check stocks that already have a '\$' pre-printed. References to 'Payment Amount Formatted' will populate the Payment Amount with a '\$' (For example: \$1234.56).

1 OVERVIEW

This design outlines modifications to the CalSAWS System that will allow bulk uploading of Tasks to the CalSAWS System from an external file.

1.1 Current Design

The CalSAWS System includes functionality to automatically create Tasks in specific scenarios and allows users to manually create Tasks.

There is no functionality within the CalSAWS System that allows a user to create Tasks in bulk.

1.2 Requests

Modify the CalSAWS Task Management solution to allow authorized users to create Tasks in bulk by uploading a spreadsheet with specific Task information. The functionality will include:

- A pre-defined template available for download and modification to be used for Task creation.
- The ability to specify Task assignment directly to a Worker, Bank or both, or to use automated Task assignment methods.
- The ability to create various types of Tasks in a single upload instruction.
- The ability to specify a due date for each Task.
- Online pages to preview Task distribution and identified data validation errors.

1.3 Overview of Recommendations

1. Add functionality to allow configuration of a Task Upload instruction by implementing a Task Upload List and Detail page.
2. Add functionality allowing a user to download a pre-defined template by implementing a Templates page.
3. Implement processing to evaluate the validity of information within the uploaded file prior to Task creation.
4. Implement processing to provide a preview of the Task assignment distribution.
5. Add functionality allowing a user to Void Tasks that result from a Task Upload instruction.

1.4 Assumptions

1. Data errors identified during preview processing can only be addressed/modified by modifying the template locally and re-executing the preview processing. Errors are not resolvable directly on the online pages.

2. Rows within the template that have one or more errors identified during preview processing will not create Tasks if the generated preview is Approved for Task creation.
3. An uploaded template will not contain more than 10 thousand rows.
4. Task information in an uploaded template will all be within a single worksheet.
5. This design does not include modifications to Task reporting. DDID 2390 will incorporate an adjustment to the Task Creation report to identify Tasks resulting from a Task Upload instruction in a later release.
6. This design will only introduce a single "Standard" template to be used for Task Upload instructions. Additional templates will be introduced with a later enhancement per DDID 2230.
7. The "Standard" template available on the Templates page is what the user will use to input information for the Task Upload instruction.
8. Task creation from a Task Upload instruction will not evaluate Task Type append configurations. Append processing does not apply to Task Upload processing.
9. An uploaded template will include at least one row of Task information.
10. Information within the uploaded template will not include empty rows between rows with information. Processing assumes consecutive rows of information in the template. (Reference Section 2.14.5).
11. The Task Upload Pop-Up window has no impact to the existing Task Pop-Up pages (Task Search, My Tasks and My Banks). These pop up windows operate independently of each other.

2 RECOMMENDATIONS

This section outlines recommendations to introduce Task Management functionality for an upload of Tasks to the CalSAWS System based on an input file.

2.1 Task Upload General Information

A Task Upload instruction via the new Online pages described in the lower sections will allow a User to upload a data file that will be translated into Tasks in the CalSAWS System. Once a user initiates a new Task Upload instruction, the information presented on the Task Upload Detail page (Sections 2.4 through 2.10) is driven by the Status of the Task Upload instruction. As a Task Upload progresses through the statuses in the lifecycle, information relevant to the current state will be presented on the Task Upload Detail page.

The following diagram depicts the Status progression of a Task Upload from New through Upload Complete:

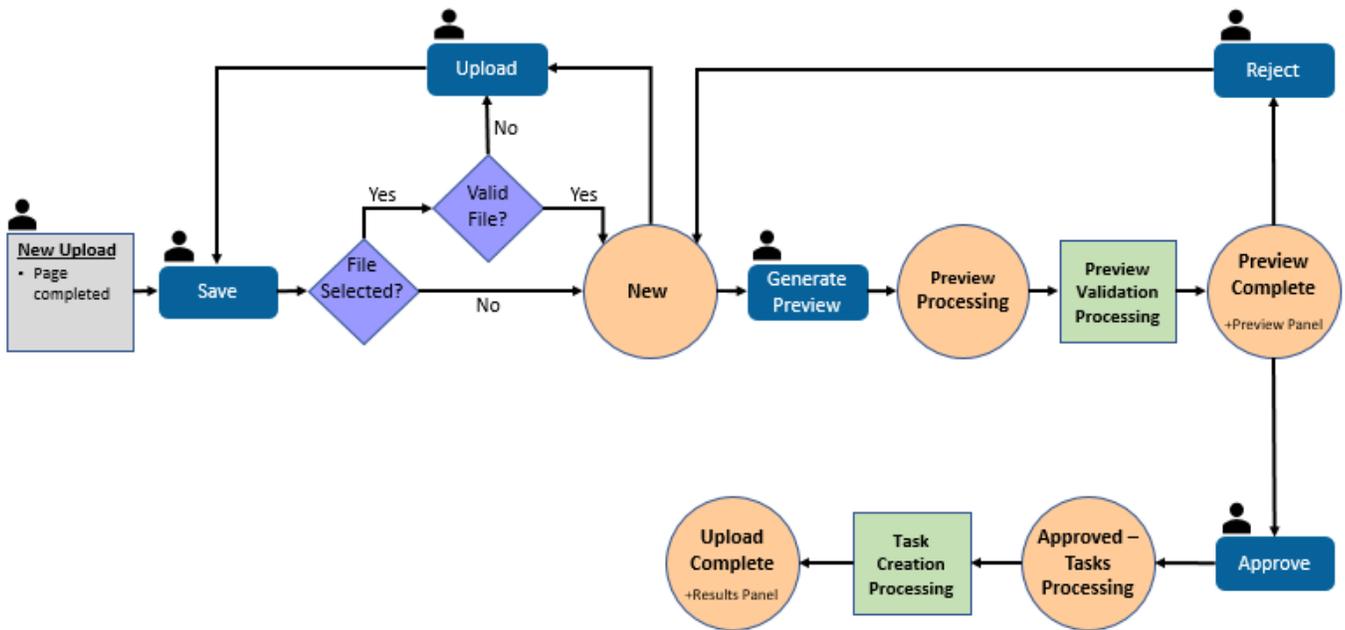

Figure 2.1.1 – Primary Task Upload Lifecycle

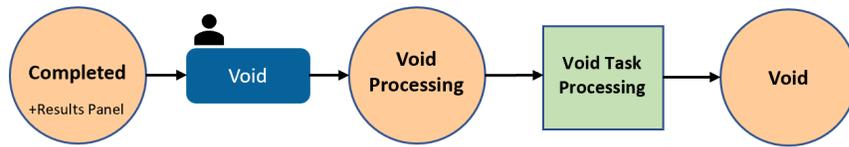

Figure 2.1.2 – Task Upload Void

The orange circles indicate the Status of the Task Upload. The green boxes indicate a step where automated processing is running. The dark blue buttons align with buttons on the Task Upload Detail page to control transitions between statuses.

To summarize the general progression of a Task Upload:

1. A user will create a new Task Upload instruction, complete the necessary fields, and upload a complete template file to generate Tasks. On save of the Task Upload instruction, the status will initially be “New”.
2. When the user is ready to proceed to the next step, the Generate Preview button will transition the Task Upload into a Status of “Preview Processing”. This Status signifies to the CalSAWS System to begin evaluating the validity of information within the template. (See [Section 2.14](#) for the specifics of this processing).

3. Once the preview processing is completed, the Task Upload Status will be set to "Preview Complete". At this state the Task Upload Detail page will include an additional panel allowing access to the results of the preview processing (See [Section 2.6](#))
4. From this point, a user may Reject the generated preview and re-upload a corrected template, which moves the Task Upload back to New Status, or they can Approve the generated preview which moves the Task Upload into a Status of "Approved – Tasks Processing".
5. A Task Upload Status of "Approved – Tasks Processing" signifies to the CalSAWS System to begin Task creation processing based on information that was determined to be valid during the "Preview Processing" step.
6. Once the Task processing is completed, the Task Upload Status will be set to "Upload Complete". At this stage, the Task Upload Detail page will include an additional panel containing resulting statistics of the Task creation processing (See Figure 2.1.2 and [Section 2.8](#)).

2.2 Task Upload List Page

2.2.1 Overview

The Task Upload List page will open within a dedicated Task Upload Pop-Up window that will display Task Upload instructions that are available in the CalSAWS System. Users can navigate to the detailed information for each Task Upload from this page and add/edit Task Uploads.

Figure 2.2.2.1 – Task Upload Task Navigation Mockup

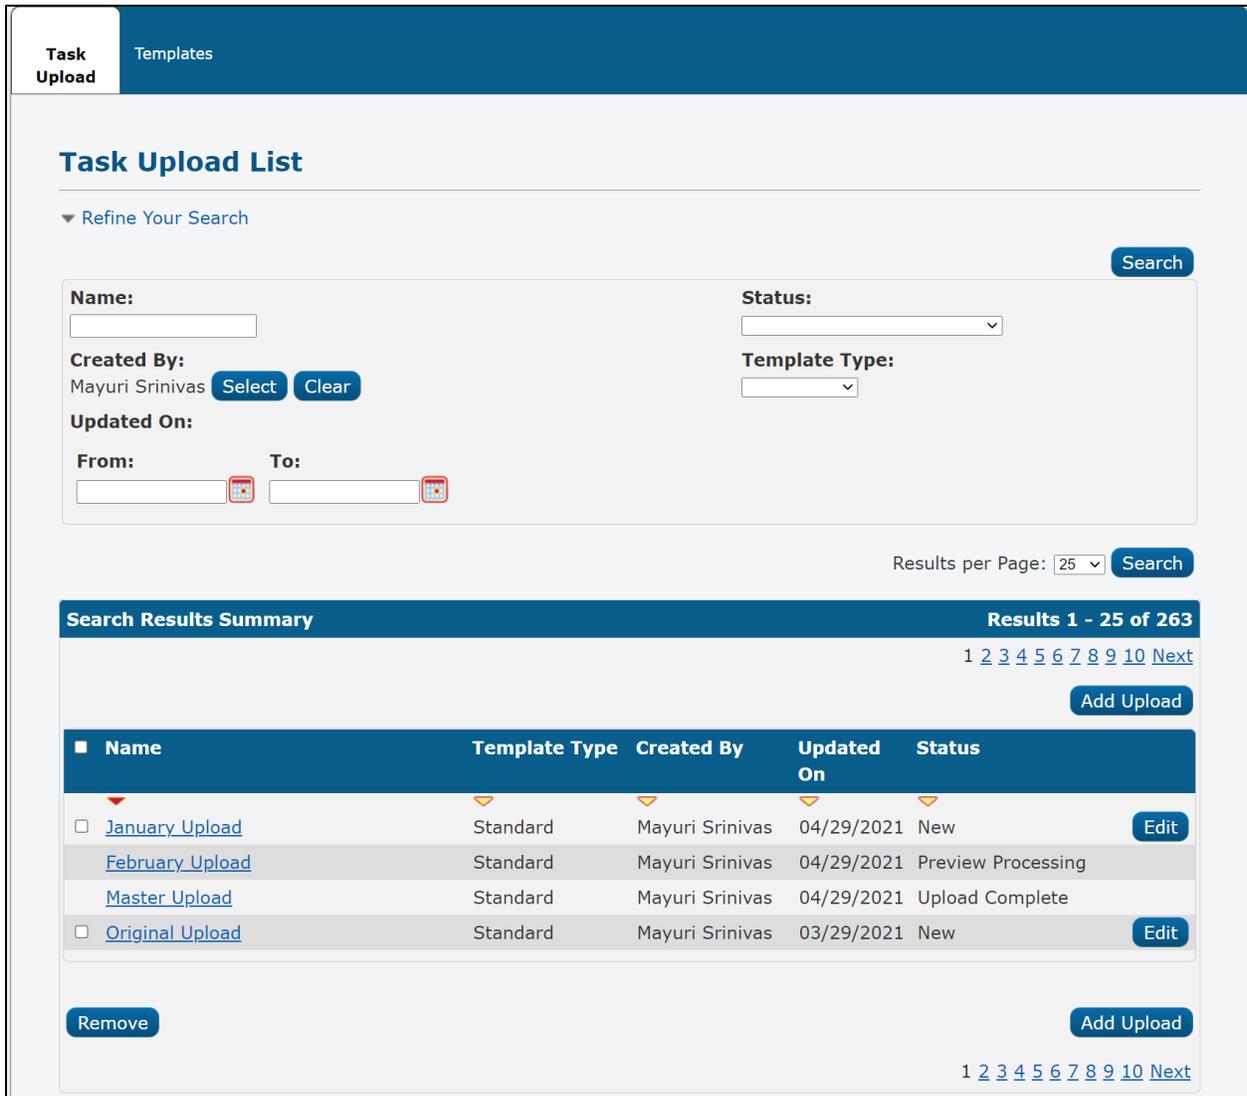

Figure 2.2.2.2 – Task Upload List Page Mockup

2.2.3 Description of Changes

Add a Task Upload List page to the CalSAWS System.

1. A "Task Upload" task navigation option will launch the Task Upload Pop-Up window. This task navigation option will display if the User's security profile contains the "TaskUploadView" security right. When the "Task Upload" link is clicked, a 1480 x 1024 pop-up window will open to display the Task Upload List page. There can only be one instance of the Task Upload pop-up window open. If the "Tasks Upload" navigation button is clicked multiple times, the single window will refresh as appropriate. For example, if a worker logs into the CalSAWS System and immediately clicks the "Task Upload" link, the Task pop-up will open to display the "Task Upload List" page.

2. Refine Your Search

This is an expandable section toward the top of the page that displays parameters which can be used to filter the Task Uploads displayed on the page. On load of the Task Upload List page, the Created By search parameter will default to the Staff Name of the logged in User.

a. **BUTTON:** Search – This button will refresh the information on the list page based on the search parameter values. If this button is clicked without filling in any parameters, all Task Upload records will be returned. If this button is clicked and no records satisfy the search criteria, a “No Data Found” message displays in the Search Results Summary Section.

b. Name – A text field which will filter Task Upload results if the Name of the Task Upload includes the text within this field (upper/lower case does not matter).

Example: If an “Upload of December Tasks” Task Upload exists, searching with any of the following text strings in the Name field will return the “Upload of December Tasks” Task Upload in the results:

1. “DEC”
2. “Upload of”
3. “Of Dec”
4. “Upload of December Tasks”

c. Status – A dropdown field that will filter Task Uploads by the status selected. The dropdown list will display the following options (in the listed order):

1. New
2. Preview Processing
3. Preview Complete
4. Approved – Tasks Processing
5. Upload Complete
6. Void Processing
7. Void

d. Created By – A field that will filter Task Uploads created by a specific Staff. A “Select” **BUTTON** displays to the right of this field that will navigate to the Select Staff page allowing the user to search for a specific Staff. A “Clear” **BUTTON** displays to the right of the “Select” button allowing the user to clear this attribute to widen the search.

e. Template Type – A dropdown that will filter Task Upload results by the Template Type. The dropdown list will only include the value “Standard”.

- f. Updated On – Displays two date fields allowing a user to filter Task Uploads by the date that the Task Upload was last updated. The optional date fields included are:
 - 1. From – A date field specifying the beginning of the date range to search by Task Upload Updated On dates.
 - 2. To – A date field specifying the end of the date range to search by Task Upload Updated On dates.

3. Search Results Summary

This section will be displayed when there is at least one Task Upload record found. The results will be paginated within 25 results per page. Initial load of the page will display all Task Uploads for the county created by the logged in User. The order of the results will be sorted by the Name attribute.

- a. **BUTTON:** Add Upload – This button will navigate to the Task Upload Detail page in create mode. The button will display if the User's security profile contains the "TaskUploadEdit" security right.
 - b. Selectable checkbox – For each result displayed, a selectable checkbox may or may not display at the beginning of the row. If a checkbox displays, this is an indication that the Task Upload has a Status of "New" or "Preview Complete" meaning it can be removed via the "Remove" button.
 - c. Name – This column will display the Name attribute of the Task Upload. The Name will display as a hyperlink which will navigate to the Task Upload Detail page in View mode for the Task Upload. The hyperlink is not based on a specific security configuration. User accounts with the appropriate security to view the Task Upload List page by default have the ability to view the Task Upload Detail page.
 - d. Template Type – This column will display the Template Type of the Task Upload.
 - e. Created By – This column will display information for the Worker who created the Task Upload. This column will be formatted with the Staff first and last names followed by the Worker ID in parenthesis that was used to create the Task Upload. For Example: "Bob Jones (19XX334401)". Text will wrap within the column if the length exceeds the column width.
 - f. Updated On – This column will display the date the Task Upload was last updated formatted as MM/DD/YYYY.
 - g. Status – This column will display the Status attribute of the Task Upload.
4. **BUTTON:** Edit – This button will navigate the User to the Task Upload Detail page in Edit mode for the Task Upload. The button will display if

the User's security profile contains the "TaskUploadEdit" security right and the Task Upload Status is "New" and "Preview Complete".

5. **BUTTON:** Remove – Displays when there exists at least one row in this section and the worker's security profile contains the "TaskUploadEdit" security right. Clicking this button removes any rows with a checkmark in the Selectable Checkbox. See the Selectable Checkbox description above for specifics of when the checkbox will display.

2.4.3 Description of Changes

Add a Task Upload Detail page to the CalSAWS System.

A Task Upload Status of “New” indicates the initial stage of a Task Upload. A user may edit fields on this page as needed until proceeding to generate a preview from the information within the template.

1. Task Upload Information

- a. Name **(Required)** – The Name of the Task Upload. When the page is in Create or Edit mode, this field will display as a text box that is limited to 50 characters. Per the validation rule #1 in Section 2.4.4, this value must be unique to the county. If this field contains the “<” or “>” characters, they will be removed.
- b. Status – The Status of the Task Upload. This field will be prepopulated to “New” on load of the page in Create Mode.
- c. Template Type **(Required)**: When the page is in Create mode, this field displays a dropdown menu with the Template Type options available. The dropdown menu will only include a single option of “Standard”. If the page is in View mode, this field will display the Template Type attribute.
- d. File Name – This field indicates the name of the file that has been uploaded for processing with a maximum length of 260 characters. When the page is in Create or Edit mode, the Task Upload Status is “New” and this field is blank (indicating a file has not yet been selected), an “Upload” **BUTTON** will display to the right of the field. On click, a standard file browse box will display allowing the User to browse for a file on the local workstation to be uploaded. When the page is in Create or Edit mode, the Task Upload Status is “New” and this field has a value (indicating a file has been selected), a “Remove” **BUTTON** will display to the right of the field. On click, the selected file will be removed from the Task Upload.

Note: If the uploaded file is not in a “.xls” or “.xlsx” format, a validation message will display on save of the page.

- e. Created By – This field will display the first and last name of the logged in User who created the Task Upload. This field automatically populates on load of the page in Create mode. When the page is in View or Edit mode, this field will display the first and last name of the user who initially created the Task Upload. This field is not editable.
- f. Updated On – This field will display the date the Task Upload was last updated on formatted as MM/DD/YYYY. This field indicates the latest date that any attribute associated to the Task Upload was modified. This could be a change in Status, an update to the Notes field, a new file being uploaded; this date updates anytime one of the Save buttons is used on the page.

- g. Notes – A free text field allowing the User to add additional notes for the Task Upload. This field is limited to 2,000 characters and is editable when the Task Upload Status is “New” and “Preview Complete”. If this field contains the “<” or “>” characters, they will be removed.
- 2. **BUTTON:** Save and Generate Preview – This button will Save the new Task Upload or Save any edits that have been made to the Task Upload and set the Status to “Preview Processing”. This button will display when the page is in Create or Edit mode, the Status of the Task Upload is “New” and the User’s security profile contains the “TaskUploadEdit” security right. The page will refresh into View mode.
- 3. **BUTTON:** Generate Preview – This button will set the Status to “Preview Processing”. In view mode, if Status is New and there is a File associated to the Task Upload, this button will display. The button will display if the User’s security profile contains the “TaskUploadEdit”. The page will remain in View mode.
- 4. **BUTTON:** Save and Return – This button will display when the page is in Create or Edit mode. When clicked, the Task Upload edits will be saved, and the User will return to the Task Upload List page.
- 5. **BUTTON:** Close – This button will display when the page is in View mode. When clicked, the Task Upload Detail page will close and return to the Task Upload List page.
- 6. **BUTTON:** Edit – This button will display when the page is in View mode and the User’s security profile contains the “TaskUploadEdit” security right. When clicked, the Task Upload Detail page will display in Edit mode.
- 7. **BUTTON:** Cancel – This button will display when the page is in Create or Edit mode. When clicked, modifications to the Task Upload Detail page will be discarded and the page will return to the Task Upload List page.

2.4.4 Page Validations

- 1. “Name – The name is already in use by a Task Upload.”
 - a. Add a validation to display when a User attempts to save the Task Upload with a name that is already in use for a Task Upload within the same County. Upper and lower case is not considered.
- 2. “File Name – A file is required to proceed.”
 - a. Add a validation to display when a User attempts to save and generate a preview by clicking the “Save and Generate Preview” button and the File Name attribute is blank.
- 3. “File Name – Please upload a valid file format.”

- a. Add a validation to display when a User attempts to save a Task Upload with a file that is not in the .xls or .xlsx format.

2.6.3 Description of Changes

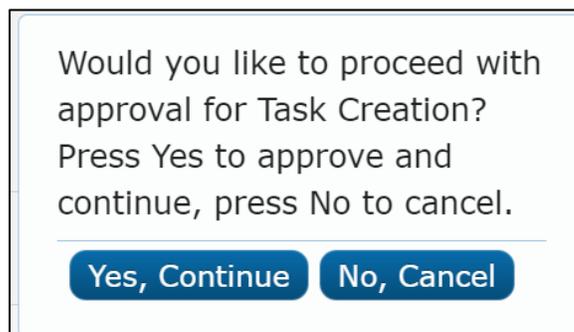

The Status of “Preview Complete” indicates that the Task Upload has proceeded through the Preview Processing step (See [Section 2.14](#)) and completed the preview logic. At this point, the page will display additional information for the outcome of the preview processing.

1. Task Upload Information: Refer to Section 2.4.3.1 for specifics.
2. Preview Information

This is an expandable section toward the bottom of the page that displays statistics for the results of the preview processing. Information within this panel includes:

- a. Value – This column indicates the title describing the “Number of Tasks” attribute.
- b. Number of Tasks – This column indicates the number of Tasks corresponding to the Value field.

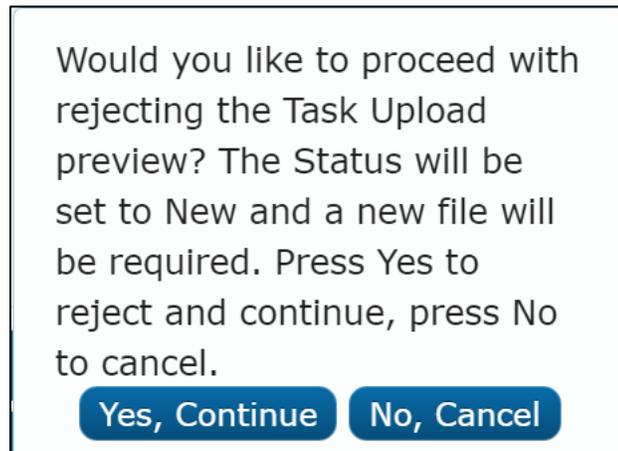

- c. The options within the “Value” column are:
- i. Tasks with Errors – This field indicates the Tasks (rows) detected within the uploaded file that resulted in one or more errors during the preview processing step. The hyperlinked value in the Number of Tasks column leads to the Preview Errors page containing error information for each Task (row) of the uploaded file. The Number of Tasks column hyperlink only displays when the page is in View mode.
If a value of “0” displays that is a hyperlink, this implies a file level error that can be viewed on the Preview Errors page. (See Section 2.14.1 and 2.14.2 for examples).
 - ii. Tasks without Errors – This field indicates the Tasks (rows) detected within the uploaded file with enough valid information to create a Task. The hyperlinked value in the Number of Tasks column leads to the Task Distribution Preview page containing assignment information for the valid Tasks (rows). This field is only hyperlinked in View mode.
If a file level error occurs during preview processing, this field will display a “0” as plain text that is not a hyperlink.
 - iii. Total Tasks – This field indicates the total number of Tasks expected to be created during Task creation.
- d. **BUTTON:** Approve – This button will display if the Preview Information panel “Total Tasks without Errors” value is 1 or more indicating at least one Task can be created from the generated preview. The button allows the User to Approve the generated preview and move forward with Task creation for the valid rows. Once this button is clicked, a message displays as an overlay confirming that the user wants to proceed with Task creation. This button is only available when the page is in View mode. The message within this overlay is “Would you like to proceed with approval for Task Creation? Press Yes to approve and continue, press No to cancel.”

The button will display if the User's security profile contains the "TaskUploadEdit" security right and the Task Upload Status is "Preview Complete".

Pressing "Yes, Continue" will set the Task Upload status to "Approved – Tasks Processing".

Pressing "No, Cancel" will close the overlay and leave the Task Upload status in "Preview Complete".

The button will display if the User's security profile contains the "TaskUploadEdit" security right and the Task Upload Status is "Preview Complete".

Pressing "Yes, Continue" will set the Task Upload status to "New".

Pressing "No, Cancel" will close the overlay and leave the Task Upload status in "Preview Complete".

3. **BUTTON:** Save and Return – This button will display when the page is in Edit mode. When clicked, the Task Upload will be saved, and the User will return to the Task Upload List page.
4. **BUTTON:** Save – This button will display when the page is in Edit mode. When clicked, the changes to Task Upload will be saved and the page will refresh into View mode.

5. **BUTTON:** Close – This button will display when the page is in View mode. When clicked, the Task Upload Detail page will close and return to the Task Upload List page.
6. **BUTTON:** Edit – This button will display when the page is in View mode. When clicked, the Task Upload Detail page will display in Edit mode. The button will display if the worker's security profile contains the "TaskUploadEdit" security right.
7. **BUTTON:** Cancel – This button will display when the page is in Create or Edit mode. When clicked, modifications to the Task Upload Detail page will be discarded and the page will return to the Task Upload List page.

2.11.3 Description of Changes

Add a Preview Errors page to the CalSAWS System.

This page is accessed by clicking the “Tasks with Errors” hyperlink within the Preview Information panel from the Task Upload Detail page.

1. General Information

- a. Name – This field will indicate the name of the associated Task Upload.

2. Summary

This is a section toward the bottom of the page that displays information for each row processed from the Task Upload file that resulted in one or more errors. Information on this page will be ordered ascending by the “Row” value.

- a. Pagination – This page will be paginated to fit 100 rows on each page by default.

- b. Row – The row number that corresponds to the Row Number in the upload file that was processed for the Task Upload. This value serves as a reference to the original file to identify specific rows with the identified errors.
 - c. Case Number – The Case Number attribute for the row.
 - d. Program – The Program attribute for the row.
 - e. Task Type – The Task Type attribute for the row.
 - f. Task Sub-Type – The Task Sub-type attribute for the row.
 - g. Due Days – The due days attribute for the row.
 - h. Automated Assignment– The Automated Assignment attribute for the row.
 - i. Worker ID – The Worker ID attribute for the row.
 - j. Bank ID – The Bank ID attribute for the row.
 - k. Error Message – A comma-separated list of errors detected in the uploaded file during preview processing. Reference [Section 2.14](#) for specifics of preview processing.
3. **BUTTON:** Close – This button will display when the page is in View mode. When clicked, the Preview Errors page will close and return to the Task Upload Detail page for the Task Upload.

2.12 Task Distribution Preview Page

2.12.1 Overview

The Task Distribution Preview page is within the Pop-Up page and displays the distribution of the Tasks for the Task Upload as determined by the preview processing steps. This section will specifically describe the function of this page when User clicks on the field: "Tasks without Errors" within the Preview Information panel of the Task Upload Detail page.

2.12.3 Description of Changes

Add a Task Distribution Preview page to the CalSAWS System.

When the User clicks on the “Tasks without Errors” hyperlink from the “Preview Information” panel on the Task Upload Detail Page, the User will be directed to this page.

1. General Information

a. Name – This field will indicate the name of the associated Task Upload.

2. Distribution

This is a section toward the bottom of the page that displays information for each row processed from the Task Upload file with valid information identified during preview processing. Information in this panel will be ordered ascending by Distribution Type.

a. Distribution Type – This field will indicate the distribution type that was processed based on the Automated Assignment attribute in the Task Upload file. This field will indicate if automated assignment processing was used to determine the Worker ID and/or Bank ID attribute displayed.

b. Worker ID – This field will indicate the Worker ID attribute determined by automated assignment processing (Distribution Type is NOT blank) OR the Worker ID attribute indicated in the “Manual Assignment – Worker ID” attribute of the Task Upload file (Distribution Type IS blank).

c. Bank ID – This field will indicate the Bank ID attribute determined by the automated assignment processing (Distribution Type is NOT blank) OR the Bank ID attribute indicated in the “Manual Assignment – Bank ID” attribute of the Task Upload file (Distribution Type IS blank).

d. Tasks – This field will indicate the number of tasks that the preview processing identified to be assigned to the displayed Worker ID/Bank ID combination.

3. Results within this page will be paginated by sets of 100 rows per page.

4. **BUTTON:** Close – This button will display when the page is in View mode. When clicked, the Task Upload Detail page will close and return to the Task Upload Detail page.

2.12.7 Page Usage/Data Volume Impacts

It is possible that this page may load with a maximum of 10,000 paginated results which may result in additional rendering time on load of the page.

2.13 Template

The Templates page (See [Section 2.3](#)) allows a user to choose a Task Upload Template to be filled in and associated to a Task Upload instruction. This section will describe the specifics of the Standard template.

2.13.1 Standard

The Standard Template is the default Template to be used for Task Upload instructions. This template contains the basic information necessary to create Tasks. The Template will also include an “Instructions” sheet that will contain general instructions for each field that the User may reference during data entry. The Template will also include a “Acceptable Program Values” sheet that will contain reference information for program values that are acceptable in the Program field. (Reference the supporting documents section for an example of the Standard template mockup).

Technical: The database entries that store attributes related to the templates will include a version number attribute for each template. This template file when created will have an initial version of 1.0.

Instructions		
Do not enter any more than 10,000 rows of information in the "Tasks" worksheet. Only the first 10,000 rows will be processed.		
Column	Required	Instructions
Case Number	Yes	Enter a 7 digit CalSAWS Case Number that is valid for the county.
Program	Yes	Enter a Program Code OR Program Name of the Program the Task will be associated to. Upper/lower case does not matter. For example, "CW", "CaIWORKS" or "CALWORKS" are all acceptable entries to indicate the CalWORKs program. The value entered must be a single program that is valid for the entered Case Number.
Task Type	Yes	Enter the name of a Task Type that is valid for the county. Upper/lower case does not matter. This value must match a Task Type name as displayed on the Task Type List page.
Task Sub-Type	No	If applicable, enter the Name of a Task Sub-Type that is valid for the entered Task Type value and county. Upper/lower case does not matter. This value must match a Task Sub-Type as displayed on the Task Type Detail page for the selected Task Type.
Due Days	Yes	Enter a non-negative number between 0 and 999. At the time of Task creation, the due date will be set to the current date plus this number of calendar days. A value of 0 will result in the Task being due on the same day it was created.
Automated Assignment	No	If automated Task assignment is applicable, enter one of the following values in this field: Office Distribution Closest Bank Last Program Worker If entering one or both of the Manual Assignment options, it is recommended to leave this field blank. Manual Assignment options will override an Automated Assignment option.
Manual Assignment - Worker ID	No	If manual Task assignment is applicable, enter a Worker ID to assign the Task to. This value must be a valid Worker Number for the county. This field may be left blank if either the "Automated Assignment" or "Manual Assignment - Bank ID" field has a valid entry. An entry in this field with a simultaneous entry in the "Manual Assignment - Bank ID" field is acceptable. In this case, the Task will be assigned to both the Worker ID and Bank ID.
Manual Assignment - Bank ID	No	If manual Task assignment is applicable, enter a Bank ID to assign the Task to. This value must be a valid Bank ID for the county. This field may be left blank if either the "Automated Assignment" or "Manual Assignment - Worker ID" field has a valid entry. An entry in this field with a simultaneous entry in the "Manual Assignment - Worker ID" field is acceptable. In this case, the Task will be assigned to both the Worker ID and Bank ID.
Long Description	No	If applicable, enter a text description no longer than 2,000 characters. This value will be associated to the Long Description attribute of the Task. At the time of Task creation, if this value exceeds 2,000 characters, only the first 2,000 characters will be associated to the Task. Do not use the "<" or ">" characters in this value or they will be removed from the text during Task Creation.

The Standard Template will contain the following columns:

Column	Required	Instructions
Case Number	Yes	The 7 digit Case Number of the Case the Task will be associated to.

Program	Yes	The Program Code OR Program Name of the Program the Task will be associated to. For example, "CF" or "CalFresh" are both acceptable entries in this field. This field will not have multiple program values. (Reference Appendix 7.1)
Task Type	Yes	The Name of the Task Type that will be associated to the Task as displayed on the Task Type List and/or Task Type Detail pages.
Task Sub-Type	No	The Name of the Task Sub-Type that will be associated to the Task as displayed on the Task Type Detail and/or Task Sub-Type Detail pages.
Due Days	Yes	A non-negative integer that is less than or equal to 1,000. At the time of Task creation, the Task due date will be calculated by adding the specified number of calendar days to the current date.
Automated Assignment	No	A field that will contain one of the following Automated Assignment options: <ul style="list-style-type: none"> • Office Distribution • Closest Bank • Last Program Worker
Manual Assignment – Worker ID	No	The Worker Number that the Task will be assigned to. (This field will be given precedence over the "Automated Assignment" field)
Manual Assignment – Bank ID	No	The Bank ID of the Bank the Task will be assigned to. (This field will be given precedence over the "Automated Assignment" field)
Long Description	No	A text description no longer than 2,000 characters that will be associated to the Long Description attribute of the Task. At the time of Task creation, if this value is greater than 2,000 characters, only the first 2,000 characters will be used. If this field contains the "<" or ">" characters, they will be removed.

See [Section 2.14](#) for the specifics of the validations that will apply to each field during the Preview Processing step of a Task Upload.

2.14 Preview Processing

Once a Task Upload is moved into the “Preview Processing” Status, the CalSAWS System will begin evaluating the information that has been uploaded via the template file. A series of evaluations will take place for each row within the file to confirm the validity of information for each row, determine a preview of the task assignment distribution and indicate any warnings for invalid information that may require review.

Once this processing has been completed, the uploaded file will be removed from the CalSAWS file store as the information has been read from the file and stored into the database.

Preliminary Preview Processing/Error Evaluation:

Preview processing will attempt to access the uploaded file and specifically look for the existence of a worksheet titled “Tasks” and begin reading rows of data within this worksheet beginning with row #6, which is the first row for data entry beneath the column headers.

1. If processing cannot read the uploaded file for any reason, a single error message stating “Unable to read uploaded template” will apply. This message will be presented in a single empty row in the Summary panel of the Preview Errors page.

Summary									Results 1 - 1 of 1
Row	Case Number	Program	Task Type	Task Sub-Type	Due Days	Automated Assignment	Worker ID	Bank ID	Error Message
									Unable to read uploaded template

Figure 2.14.A – Preview Errors Error Message 1

2. If the first data row within the template file is completely empty, a single error message stating “Invalid first row, review uploaded template” will apply. This message will be presented in a single empty row in the Summary panel of the Preview Errors page.

Summary									Results 1 - 1 of 1
Row	Case Number	Program	Task Type	Task Sub-Type	Due Days	Automated Assignment	Worker ID	Bank ID	Error Message
									Invalid first row, review uploaded template

Figure 2.14.B – Preview Errors Error Message 2

3. If the template includes identical data rows, they will be consolidated into a single row for preview processing. In the event multiple duplicate rows are

consolidated into a single row and preview processing identifies one or more errors, the "Row" column will be the value for the first occurrence of the duplicate row within the spreadsheet.

4. If a data row within the template contains a Program value for the provided Case, and that Case includes multiple programs of that type, one row per program for the provided case will be evaluated during preview processing.

For example: Suppose Case 123 includes 2 separate Medi-Cal program blocks on the Case Summary page. If the file contains a single line for Case 123 with the MC program code. This step will determine that the single line within the file will be evaluated for each of the 2 individual Medi-Cal program blocks which will each have it's own preview outcome and possible resulting Task.

5. No more than 10 thousand rows of information will be read from the uploaded file. Processing will read the consecutive rows within the file until 10 thousand rows of information have been read or a blank row is reached. To illustrate with a very basic template:

Row Number	Case Number	Task Type
1	1234567	Run EDBC
2		
3	2222222	Confirm Contact Information

In this example, preview processing will only evaluate Row #1. Row #3 will not be evaluated as there is a blank row between Row #1 and Row #3. In this case, Row #1 is the end of the data set that is read in.

Data Validity Preview Processing/Error Evaluation:

The following table illustrates the evaluations that will take place for each attribute within the template. Leading and trailing blank spaces will be ignored, and upper/lower case does not matter.

Field	Validation	Error Message
Case Number	1. Confirm that the Case Number exists for the County associated to the Task Upload.	Invalid Case Number
Program	1. Confirm that the Program value is valid. Program Names or abbreviations may be entered in this field. See Appendix 7.1 for a listing of acceptable values for this field.	Invalid Program

	2. Confirm that the Case Number includes the indicated Program.	Invalid Program for selected Case
Task Type	1. Confirm that the Task Type exists for the County associated to the Task Upload.	Invalid Task Type
Task Sub-Type	1. Confirm that the Task Sub-Type exists for the County associated to the Task Upload.	Invalid Task Sub-Type
	2. Confirm that the Task Sub-Type is associated to the Task Type identified in the Task Type column.	Invalid Task Sub-Type for selected Task Type
Due Days	1. Confirm that the value is an integer.	Invalid Due Days
	2. Confirm that the value is not a negative number.	Invalid Due Days (cannot be negative)
	3. Confirm that the value is not greater than 1,000.	Invalid Due Days (cannot be greater than 1,000)
Automated Assignment	1. Confirm the value is either "Office Distribution", "Closest Bank" or "Last Program Worker".	Invalid Automated Assignment
	2. If the "Manual Assignment – Worker ID" and "Manual Assignment – Bank ID" values are both blank, process the automated assignment rules to determine if a Worker/Bank exists for assignment. If processing does not identify a Worker or a Bank, an error message will apply.	No valid Worker or Bank identified for assignment
Manual Assignment - Worker ID	1. Confirm that the Worker Number exists for the County associated to the Task Upload.	Invalid Worker Number

Manual Assignment - Bank ID	1. Confirm that the Bank ID exists for the County associated to the Task Upload.	Invalid Bank ID
Long Description	N/A	N/A

A single field will have at most one error message determined as a result of the preview processing. For example, if a Program field in the uploaded template contains “CoolWORKS”, the message will indicate “Invalid Program”; it will not indicate “Invalid Program for selected Case”. Similarly, if a Program field in the uploaded template contains “CalWORKs”, but the Case provided does not include a CalWORKs program, the message will indicate “Invalid Program for selected Case”.

The error messages determined during the preview processing will be presented in the Errors column of the Preview Errors Page [\(Section 2.11\)](#). If a particular row contains error messages for multiple fields, the error message will concatenate the messages together separated by a comma. For example:

If an uploaded template contains:

Case Number: 12C
Program: CoolWORKs
Task Type: null

The resulting error message will be “Invalid Case Number, Program, Task Type”

Once Preview Processing finishes, the Task Upload Status will be set to “Preview Complete”.

2.15 Approved - Tasks Processing

Once a Task Upload is moved into the “Approved – Tasks Processing” Status, the CalSAWS System will begin creating Tasks. Created Tasks will be assigned based on the assignment that was determined during the preview processing. If a Case includes multiple programs that match the program value indicated in the template, one Task per program will be created. For example: if the template includes a line to create a Task for the Medi-Cal Program on Case 123, and Case 123 includes 2 Medi-Cal programs, 2 Tasks will be created.

Once Task creation is completed, the Task Upload Status will be set to “Completed”. Resulting Tasks will maintain a relationship to the Task Upload that initiated the Tasks for the purposes of the Void function. (See [Section 2.16](#))

2.16 Void Processing

Once a Task Upload is moved into the "Upload Completed" Status, all Tasks that were created because of the completed Task Upload will maintain an association to the Task Upload instruction. If a User invokes the "Void" processing (See [Section 2.8](#) for a description of the Void button), the Task Upload Status will be set to "Void Processing" and all Tasks associated to the Task Upload which are still in a Status of "Assigned" or "In Process" will be updated to have a "Void" Status. The Task will be stamped with a closure date of the current date and will log the appropriate history transaction showing the change in Status. Once the Void Processing completes, the Task Upload instruction Status will be set to Void (See [Section 2.9](#) and [Section 2.10](#))

4.3 Migration Requirements

DDID #	REQUIREMENT TEXT	Contractor Assumptions	How Requirement Met
2197	<p>The CONTRACTOR shall add the ability for authorized users to create tasks in bulk by uploading a spreadsheet with task details. Users must have the following features available to them:</p> <ol style="list-style-type: none"> 1) A pre-defined template available for download and modification to then upload for task creation 2) The ability to assign tasks directly to a named worker/bank, or assign tasks automatically based on existing task routing rules 3) The ability to create different types of tasks in the same upload 4) The ability to specify a due date for each task, or have the system determine one based on the task type specified 5) A confirmation page for viewing errors occurring during task creation 6) A preview assignment page to view assignment results prior to distributing tasks 7) A threshold for number of entries to be processed in real time, with higher volumes processed during nightly batch 	<p>- Task creation and assignment will occur overnight, unless the number of tasks included on the uploaded file is equal to or below 50. In that case the tasks would be created and assigned in real time. This threshold would be configurable, to allow for adjustment after performance can be measured.</p>	<p>This design is adding functionality allowing users to create a Task Upload instruction which will upload Tasks in bulk to the CalSAWS System. The design includes functionality to address each specific requirement.</p>

2386	The CONTRACTOR shall update the Task Management solution to allow authorized users to void tasks that were created by the bulk upload process.		This design includes a function allowing users to Void Tasks that resulted from a Task Upload instruction.

1 OVERVIEW

This design outlines modifications to a population of existing CalSAWS automated tasks to function per the Automated Action framework introduced with CA-214928 (DDID 34 – Unified Task Management).

1.1 Current Design

The CalSAWS System includes functionality to create tasks in an automated fashion via the nightly batch processes or by specific worker actions. SCR CA-214928 for DDID 34 includes recommendations to introduce Automated Action functionality as part of the Unified Task Management solution. This framework allows a level of configuration for automated tasks that can be maintained by the counties.

1.2 Requests

Update the existing Los Angeles county General Assistance/General Relief automated CalSAWS tasks to function within the Automated Action framework.

1.3 Overview of Recommendations

Update the population of Los Angeles county General Assistance/General Relief automated CalSAWS tasks to function within the Automated Action framework.

1.4 Assumptions

1. SCRs CA-214927 and CA-214928 related to DDID 34 have set up the underlying data model and front-end Automated Action pages to support Automated Action processing.
2. SCR CA-226064 will address "GROW E-Communications" Task type, so it will not be included in this SCR.

2 RECOMMENDATIONS

This section will outline recommendations to adjust a population of CalSAWS automated tasks to function within the Automated Action framework.

2.1 Update CalSAWS Automated Tasks Per Automated Action Framework

2.1.1 Overview

The Automated Action framework allows county users a level of configurability for automated task generation. For example, the county can choose to deactivate a specific automated task within their county outside of the project enhancement process. They also can define attributes such as Task Type, Task Sub-Type, the due dates and initial assignment information for the resulting tasks through the Automated Action Detail page. (Reference CA-214928 – DDID 34 for the specifics of the Automated Action pages).

This section outlines the modifications required to support a population of Los Angeles county General Assistance/General Relief CalSAWS automated tasks in the Automated Action framework.

2.1.3 Description of Changes

Update the following CalSAWS automated tasks to define the required Automated Action attributes in order to function with the Automated Action Framework. (Please reference the Automated Action Detail page in Figure 2.1.1 for display of the attributes.)

The Automated Actions defined in this section will only be available for Los Angeles county; they will not be available for the 57 migration counties as these counties will have a modified GA/GR solution.

Attribute values such as “Program(s)” and “Run Date” are based on the existing logic of the automated Task in the CalSAWS System. The current processing was evaluated to determine which programs the Task is applicable to, how the due date is calculated and when the automated Task creation runs. Automated Actions configured for the Initial Assignment value of “Current Program Worker” will set the “Action” attribute to “Assign to Program Worker” at Task creation.

The following Automated Actions will have the Guided Navigation attribute displayed on the Automated Action Detail page with a value of 'Yes'.

1. Employment: Added or Updated by WTW/GROW Worker
 - a. Action Information

 - i. Task Type: GROW Appraisal Review
 - ii. Task Sub-Type: N/A
 - iii. Due Date: Default Due Date
 - iv. Default Due Date: 30 days
 - v. Initial Assignment: Default Assignment
 - vi. Default Assignment: Current Program Worker
 - vii. Long Description: GROW Appraisal Review

7. GROW Program: Recovery Account Activated
 - a. Action Information
 - i. Name: GROW Program: Recovery Account Activated
 - ii. Type: Create Task
 - iii. Status: Active
 - iv. Program(s): GW
 - v. Run Date: Real Time
 - vi. Source: Online
 - vii. Scenario: A GROW Recovery Account has been activated.
Take appropriate action.
 - b. Task Information
 - i. Task Type: GROW Recovery Account has been activated
 - ii. Task Sub-Type: N/A
 - iii. Due Date: Default Due Date
 - iv. Default Due Date: 30 days
 - v. Initial Assignment: Default Assignment
 - vi. Default Assignment: Current Program Worker
 - vii. Long Description: GROW Recovery Account has been activated need to review.

8. GROW Program: Deregistered
 - a. Action Information
 - i. Name: GROW Program: Deregistered

- ii. Type: Create Task
- iii. Status: Active
- iv. Program(s): GW
- v. Run Date: Real Time
- vi. Source: Batch/Online
- vii. Scenario: A GROW program has been Deregistered or Sanctioned. Take appropriate action.

b. Task Information

- i. Task Type: GROW Program is de-register
- ii. Task Sub-Type: N/A
- iii. Due Date: Default Due Date
- iv. Default Due Date: 30 days
- v. Initial Assignment: Default Assignment
- vi. Default Assignment: Current Program Worker
- vii. Long Description: GROW Program is Deregistered, GROW Case Manager needs to send paper case to X-File.

9. GROW Program: Work Registration Updated

a. Action Information

- i. Name: GROW Program: Work Registration Updated
- ii. Type: Create Task
- iii. Status: Active
- iv. Program(s): GA, GW
- v. Run Date: Daily(Mon-Sat)
- vi. Source: Batch
- vii. Scenario: A GROW participant's Work Registration status has been changed from Employable to Unemployable. Take appropriate action.

b. Task Information

- i. Task Type: GR Employability Status Changed
- ii. Task Sub-Type: N/A
- iii. Due Date: Default Due Date
- iv. Default Due Date: 30 days
- v. Initial Assignment: Default Assignment
- vi. Default Assignment: Current Program Worker
- vii. Long Description: GR Employability Status Changed need to de-register GROW or assign new activity.

10. GROW Program: Vocational Assessment Completed

a. Action Information

- i. Name: GROW Program: Vocational Assessment Completed
- ii. Type: Create Task

- iii. Status: Active
- iv. Program(s): GW
- v. Run Date: Real Time
- vi. Source: Online
- vii. Scenario: A GROW orientation vocational assessment has been completed. Take appropriate action.

b. Task Information

- i. Task Type: GROW/WTW - Vocational Assessment Result Completed
- ii. Task Sub-Type: N/A
- iii. Due Date: Default Due Date
- iv. Default Due Date: 7 days
- v. Initial Assignment: Default Assignment
- vi. Default Assignment: Current Program Worker
- vii. Long Description: Close the assessment activity and enter a verification date for the Vocational Assessment Invoice to be generated.

11. GROW Program: No Activity

a. Action Information

- i. Name: GROW Program: No Activity
- ii. Type: Create Task
- iii. Status: Active
- iv. Program(s): GW
- v. Run Date: Daily(Mon-Sat)
- vi. Source: Batch
- vii. Scenario: An Active GROW participant has not been assigned to an activity for 45 or more days.

b. Task Information

- i. Task Type: 45 days no GROW activity
- ii. Task Sub-Type: N/A
- iii. Due Date: Default Due Date
- iv. Default Due Date: 15 days
- v. Initial Assignment: Default Assignment
- vi. Default Assignment: Current Program Worker
- vii. Long Description: GROW Program is "Active" but no GROW activity is assigned. Assign GROW activity.

12. GROW Program: MSARP Ended

a. Action Information

- i. Name: GROW Program: MSARP Ended
- ii. Type: Create Task

- iii. Status: Active
- iv. Program(s): GW
- v. Run Date: Daily(Mon-Sat)
- vi. Source: Batch
- vii. Scenario: A GROW MSARP Program has completed/ended.
Take appropriate action.

- b. Task Information
 - i. Task Type: MSARP Program Completed/Ended
 - ii. Task Sub-Type: N/A
 - iii. Due Date: Default Due Date
 - iv. Default Due Date: 5 days
 - v. Initial Assignment: Default Assignment
 - vi. Default Assignment: Current Program Worker
 - vii. Long Description: MSARP Substance Abuse Program ended, close MSARP Activity and/or assign participant to "CORE" activity.

13. Document Received: CAPI or GA/GR RD Packet

- a. Action Information
 - i. Name: Document Received: CAPI or GA/GR RD Packet
 - ii. Type: Create Task
 - iii. Status: Active
 - iv. Program(s): GA, CP
 - v. Run Date: Real Time
 - vi. Source: Online
 - vii. Scenario: A General Relief Annual Agreement or CAPI Annual Agreement has been received.

- b. Task Information
 - i. Task Type: CAPI/GR RD Packet Received
 - ii. Task Sub-Type: N/A
 - iii. Due Date: Default Due Date
 - iv. Default Due Date: 3 days
 - v. Initial Assignment: Default Assignment
 - vi. Default Assignment: Current Program Worker
 - vii. Long Description: RD packet has been received for CAPI or GR.

14. Vendor: GR Board and Care License Expired

- a. Action Information
 - i. Name: Vendor: GR Board and Care License Expired
 - ii. Type: Create Task
 - iii. Status: Active

- iv. Program(s): GA
- v. Run Date: Daily(Mon-Sat)
- vi. Source: Batch
- vii. Scenario: A GR Board and Care vendor license has expired.
Take appropriate action.

b. Task Information

- i. Task Type: Board & Care Vendor License Expire
- ii. Task Sub-Type: N/A
- iii. Due Date: Default Due Date
- iv. Default Due Date: 7 days
- v. Initial Assignment: Default Assignment
- vi. Default Assignment: Current Program Worker
- vii. Long Description: Change living arrangement.

1 OVERVIEW

Per ACL 21-76, the new FC/KG CNI rate increase for the FY 2021-22 will be implemented effective July 1, 2021.

1.1 Current Design

Currently CalSAWS and C-IV use the FC/KG CNI rates of FY 2020-21 that are effective from July 1, 2020.

1.2 Requests

As per the ACL 21-76, the new FC/KG CNI rate increase for the FY 2021-22 will be implemented in C-IV and CalSAWS effective July 1, 2021.

1.3 Overview of Recommendations

1. Run Batch EDBC for FC/KG to apply the new CNI rate increase.
2. A DCR will create journals for C-IV.
3. A DCR will suppress the Age Increase NOAs for Kin-GAP and put the FC/KG COLA NOAs on hold in CalSAWS.

1.4 Assumptions

1. During the batch EDBC COLA run, the CCR Rate Change NOA will not be generated for EDBCs that have a rate change and are run for COLA month.
2. Existing CNI Increase change NOA will generate during the CNI increase Batch run with the CNI effective month of July 2021 for FC/KG in C-IV and KG in CalSAWS.
3. CalSAWS: Existing FC CNI Increase change NOA will generate during the CNI rate increase Batch run with the effective months from July 2021 through Batch run months based on the EDBC run month.
4. In CalSAWS, Batch EDBC will not discontinue FC/KG Cases and will skip cases and identify user action, but in C-IV, the Batch EDBC may discontinue FC/KG Cases.
5. In CalSAWS, Batch EDBC will have a run reason of COLA run for every month from 07/2021 through the come-up month.
6. In CalSAWS, under this SCR, there will be no impact / changes to Fiscal such as creating the issuances and then sending those issuances to the Auditor Controller in a separate COLA file.
7. In CalSAWS, each eCAPS file has the limit of 16K unique cases to send it to Auditor Controller.
8. A regular change NOA will be generated for the impacted cases if a NOA exists for the benefit change reason.

2 RECOMMENDATIONS

Batch EDBC will run for FC/KG to apply the new CNI rate increase.

2.1 Run Batch EDBC for FC/KG

2.1.1 Overview

FC/KG Batch EDBC will run for the benefit month of 07/2021 to high date.

2.1.2 Description of Changes

1. Batch Operations:

Run batch EDBC for active Foster Care (FC) and Kin-GAP (KG) programs starting with the month of 07/2021 through come-up month including past RE due date cases in both the systems.

- a. In CalSAWS, Batch EDBC will run with the run reason "CWS Annual COLA" and C-IV will not use any run reason
- b. Batch EDBC records will have a run type code of 'Single Program' in both the systems
- c. Batch EDBC will not be triggered on programs with a Non-standard rate in effect in the benefit month in both the systems
- d. Batch EDBC will not run if there is an overridden aid code where a sub type code exists
- e. In C-IV, Foster Care Programs will not run for the online pre-EDBC validation criteria. For these cases, a placement authority and at least one child placement must exist for the benefit month. Exclude any cases that meet the exception criteria below:
 - i. There is a Non-Related Legal Guardianship placement authority month with a Probate court established guardianship and the rate level is set to a value other than Schedule A, Schedule B, Age-Based or Basic
 - ii. There is a Non-Related Legal Guardianship placement authority with a Juvenile court established guardianship and the rate level is set to a value other than Schedule A, Schedule B, Age-Based, Basic, LOC 2, LOC 3, or LOC4
 - iii. There is an ISFC rate with no Approved or Licensed ISFC License for the duration of the rate within the placement and benefit month.
 - iv. There is a STRTP rate with no Approved or Licensed STRTP License for the duration of the rate within the placement and benefit month.

- v. There is an FFA, FFA Treatment, FFA Intensive Programs, Multidimensional Treatment, or FFA Non-Treatment placement with a 'County or FFA ISFC' Standard State Rate and no ISFC State Program Number

Note: See Section 4.1 List 6 for details on exception reporting for online pre-EDBC validation.

- f. In CalSAWS, batch EDBC will insert the below Journal entry for FC programs and C-IV will not specify any journal entry:

Short Description: Batch EDBC ran for [month, year]

Long Description: Batch EDBC Ran for <Effective Month>. Batch EDBC processed for the <Program Name> program for following reasons: Foster Care COLA

- g. In CalSAWS, batch EDBC will insert the below Journal entry for KG programs and C-IV will not specify any journal entry:

Short Description: Batch EDBC ran for [month, year]

Long Description: Batch EDBC Ran for <Effective Month>. Batch EDBC processed for the <Program Name> program for following reasons: Kin-GAP COLA

2.1.3 Programs Impacted

Foster Care, Kin-GAP

2.1.4 Performance Impacts

N/A

2.2 C-IV Only: Create DCR for Journal Entry

2.2.1 Overview

A DCR will insert a journal for each case processed through the one-time batch process.

2.2.2 Description of Change

Create a DCR to insert a journal with the following information for each case processed through the one-time batch process. There will be only one journal per case, per benefit month successfully processed.

Journal Category: Eligibility

Journal Type: Batch EDBC

Short Description: Batch EDBC ran for [MONTH/YEAR].

Long Description: Batch EDBC ran for [MONTH/YEAR]. Batch EDBC processed for the [Program Type] for the following reasons: 2021 FC CNI Increase

2.3 CalSAWS Only: Client Correspondence DCRs

2.3.1 Overview

This effort is to suppress the Age Increase NOAs for Kin-GAP Program and to put the FC/KG COLA NOAs on hold until released with the SCR CA-231819.

2.3.2 Description of Change

1. Create a DCR to suppress Age Increase NOAs for Kin-GAP program.
2. Run the DCR operationally to hold the FC/KG COLA NOAs (FC COLA fragment - FC_CH_COLA_RSN, KG COLA fragment - KG_CH_COLA_RSN). NOAs that are on hold will have the status 'Print Error' until they are released.

3 REQUIREMENTS

3.1 Project Requirements

REQ #	REQUIREMENT TEXT	How Requirement Met
2.16.1.2	The CalSAWS shall include an automated method for implementing mass updates triggered by policy changes or mass participant financial changes, including Social Security or Veterans benefits cost of living adjustments (COLAs).	The new CNI Rates released by the County will be updated in the system. These new COLA rates will be used to determine the eligibility benefits.
2.16.4.1	The CalSAWS shall include the ability to process a mass update that includes eligibility and benefits with an effective date of any prior month, the current month, or future month(s).	The Batch EDBC process will be run and determine eligibility using the new CNI Rates.

4 OUTREACH

4.1 Lists

Generate lists to aid the counties after batch EDBC completes.

All lists will have the standard list columns to display on the listings.

Standard Columns:

- Case Name
- Case Number
- County
- Unit
- Unit Name
- Office Name
- Worker ID

Exception List: Below are the case listing details for case exceptions (skipped, unprocessed, discontinued, etc.) in both systems with the standard columns after the batch.

1. **List Name:** List of cases with Non Standard Rate - [Program Name]
Note: For [Program Name] input FosterCare or KinGAP.
List Criteria: List of FC/KG programs with a Non Standard Rate.
Additional Column(s): Rate column

2. **List Name:** List of [Program Name] with Overridden Aid Code
Note: For [Program Name] input FosterCare.
List Criteria: List of FC programs with overridden aid code where a sub type code exists.
Additional Column(s): Sub Type Code
3. **List Name:** List of cases Discontinued by the Batch EDBC
List Criteria: List of FC/KG programs discontinued by the batch EDBC.
Additional Column(s): Program, EDBC Month, Discontinued Reason
4. **List Name:** List of [Program Name] with Read-Only
Note: For [Program Name] input FosterCare or KinGAP
List Criteria: List of FC/KG programs which resulted in Read-Only EDBC.
Additional Column(s): Reason, EDBC Month
5. **List Name:** List of unprocessed programs skipped in the COLA batch run with skip reasons
List Criteria: List of FC/KG unprocessed programs skipped in the COLA batch run with the skip reasons like Override, Manual EDBC, Read Only EDBC, No Worker Assigned etc.
Additional Column(s): Program, EDBC Month, Not Processed Reason
6. **List Name:** List of FC Programs skipped with pre-EDBC validations
List Criteria: List of FC programs that are excluded in batch due to pre-EDBC online validations. Please refer to item requirements 2.1.2 1e. for the list of all pre-EDBC online validation details (C-IV Only)
Additional Column(s): Reason
7. **List Name:** Active ARC/AAP cases
List Criteria: List of Active ARC/AAP Program Cases (C-IV Only).
Additional Column(s): Program

Informational List: Below are the case listing details for informational purpose only and can be reviewed if required but batch EDBC will run on these cases as part of the COLA batch.

- 8. **List Name:** List of [Program Name] cases with RE Date in the past
Note: For [Program Name] input FosterCare or KinGAP.
List Criteria: List of FC/KG programs where the incomplete RE has a due date in the past.
Additional Column(s): RE Due Date
- 9. **List Name:** List of FC programs with THPP or THP+FC
List Criteria: List of FC programs with THPP or THP+FC Facilities.
Additional Column(s): CF Case #

10. List Name: List of Cases with at least one overridden EDBC for COLA Months

List Criteria:

- i. There is at least one overridden EDBC effective for the current or the Prior Benefit month
- ii. Batch EDBC is run for the COLA month(s) (07/2021 to 10/2021)
- iii. Program is Foster Care, ARC (C-IV only) or Kin-GAP

Additional Columns: Program

Note: The case information will display only once on the list even if more than one month may be impacted.

The list will be posted to the following locations:

System	Path
CalSAWS	CalSAWS Web Portal>System Changes>SCR and SIR Lists>2021>CA-219849
C-IV	CalSAWS Web Portal>System Changes>SCR and SIR Lists>2021>CIV-107959

5 APPENDIX

Batch Operations:

- a) Run FC, KG and AAP CNI Rate Increase driving query per SCRs CA-219849/CIV-107959 (FC, KG) and CA-219851 (AAP -CalSAWS Only) from Recommendation 2.1.2.1 to insert into SYS_TRANSACT in 'Single Program' mode for all the months starting from 07/2021 to high date.
- b) Run Batch EDBC for cases with FC, KG and AAP programs (population from Recommendation 2.1.2.1 per SCRs CA-219849/CIV-107959 (FC, KG) and CA-219851 (AAP -CalSAWS Only)) identified in (a) above.
- c) C-IV Only: Run Journal Entry DCR for cases with FC/KG programs from Recommendation 2.3 per SCRs CA-219849/CIV-107959.

1 OVERVIEW

BenefitsCal is a new website that will replace C4Yourself, YourBenefitsNow, and MyBenefitsCalWIN, to provide one unified experience for all Californians, everywhere. With the addition of BenefitsCal, the CalSAWS system will require a method of accessing new BenefitsCal dashboards and reports. This functionality will require a landing page to access the four BenefitsCal dashboard links to be added under the Business Intelligence Report Search page.

1.1 Current Design

There is no location from where to access BenefitsCal dashboards in the CalSAWS system.

1.2 Requests

Add four BenefitsCal dashboard links to the CalSAWS system under a new BenefitsCal navigation option in the Business Intelligence Report Search page on the left sidebar.

1.3 Overview of Recommendations

1. Add four BenefitsCal links to the Business Intelligence Report Search Page under a BenefitsCal navigation option in the Business Intelligence Report Search page on the left sidebar.
2. Remove any existing links to YourBenefitsNow dashboards found on the Business Intelligence Search page.

1.4 Assumptions

1. There is a separate work effort to build the BenefitsCal dashboards and this SCR is dependent on that work effort to provide the final four urls to the dashboards.
2. These four dashboards will be available within the existing CalSAWS Qlik application environment.
3. Any additional or new BenefitsCal dashboard links will be added via a separate SCR to align with the correct production release schedule.
4. County Helpdesk will be responsible for adding users to the new BenefitsCal Consumer security group in order for users to have access.
5. Removal of any existing links to YourBenefitsNow dashboards found on the Business Intelligence Search page will be handled under SCR CA-233022 to align with the BenefitsCal go-live date of November 22, 2021 for Los Angeles County.

2 RECOMMENDATIONS

2.1 Reports – Business Intelligence Report Search Page

2.1.1 Overview

Four BenefitsCal dashboard links will be added to the Business Intelligence Report Search page and will be made accessible under a BenefitsCal navigation option under the Business Intelligence section in the Business Intelligence Report Search page on the left sidebar. These four dashboard links will navigate users to the BenefitsCal dashboards located at the CalSAWS Qlik environment. Any existing links to YourBenefitsNow dashboards will be removed on the Business Intelligence Search page.

2.1.2 Business Intelligence Report Search Page Mockup

The screenshot shows the CalSAWS interface. At the top, there is a navigation bar with 'CalSAWS' logo and various utility icons (Journal, Tasks, Help, Resources, Page Mapping, Images, DCFS Images, Log Out). Below this is a secondary navigation bar with tabs for 'Case Info', 'Eligibility', 'Empl. Services', 'Child Care', 'Resource Databank', 'Fiscal', 'Special Units', 'Reports', 'Client Corresp.', and 'Admin Tools'. The 'Reports' tab is active. On the left, a sidebar menu is visible with 'Business Intelligence' highlighted. The main content area is titled 'Report Search' and includes a 'Refine Your Search' link. Below this is a 'Search Results Summary' section showing '25 of 42' results. A table of results follows, with columns for 'Title' and 'Category'. The table lists various report titles such as 'Application Processing', 'Application Processing Timeliness', 'Applications Received', 'Approvals', and 'Caseload Management', each associated with a category like 'CalFresh', 'CalWORKS', 'General Relief', 'Medi-Cal', or 'Your Benefits Now'.

1 OVERVIEW

This SCR will implement the household composition and Non-financial functionality for the new CalWIN General Relief (GR) solution in CalSAWS

1.1 Current Design

The General Assistance/General Relief (GA/GR) solution in the CalSAWS system is designed to automate the rules for the Los Angeles county's implementation as well as the automation and monitoring of their General Relief Opportunities for Work (GROW) program. Currently CalWIN manages their GR program logic by using a Rule Matrix which can be accessed by the county to allow each county administrator to customize the behavior to their specific county.

1.2 Requests

A new CalWIN GA/GR solution will be developed in CalSAWS to automate the rules and administer the program for the 18 CalWIN counties. This solution will provide the framework for the remaining 39 C-IV counties to opt into this solution in the future. This change request will automate the household composition and Non-financial functionality for the new solution

1.3 Overview of Recommendations

1. Add all the required Data Collection elements to implement the Household and Non-Financial functionalities for the new solution
2. Create new Admin Summary and Detail pages that can be accessed in Admin tools by the County Admin staff
3. A new set of Admin detail pages, Rules, Batch and NOA triggers will be added for the below Household Composition and Non-Financial.

1. [Pregnancy Check](#)
2. [Institutional Status](#)
3. [SSI Status](#)
4. [SSN Application Verification](#)
5. [Third Party Liable](#)
6. [Alternately Sentenced](#)
7. [Residency of Current County](#)
8. [Disability](#)
9. [Other County Sanction](#)
10. [Unemployable Status](#)
11. [School Attendance](#)

4. Create a new Batch EDBC skip reason for the CalWIN counties for Residency of Current County.

1.4 Assumptions

1. The existing Los Angeles county rules will remain unchanged.
2. This SCR CA-215926 is based on the WCDS approved documents.
3. The design of the rules is for each CalWIN county based on the Gainwell documents approved by the counties.
4. This SCR CA-215926 is phase three of three which consists of 11 CalWIN rulesets for Household Composition and Non-Financial. The remaining rulesets will be designed in SCR CA-215665 & SCR CA-215666 and CA-228982.
5. The functionality of this SCR CA-215926 will be disabled until activated by the system property flag established in SCR CA-215669.
6. This SCR CA-215926 will be an addition to SCR CA-215665 & SCR CA-215666 and CA-228982 and will not state the additions and modification made in SCR CA-215665 and CA-215666 and CA-228982. Only new additions and modifications not stated in SCR CA-215665 and CA-215666 and CA-228982 will be stated in this design.
7. Any logic related to San Francisco explicitly called out in relevant WCDS approved use cases will be included in this design. Any, San Francisco sub program logic independent of the rule will be added in SCR CA-215677 DDID 2374 scheduled for 22.01.
8. Alerts will be handled separately outside the Rules design in a separate SCR CA-220119.
9. During testing the EDBC will result in 0 benefit as resource will be set to PASS and income logic will be bypassed during the first phase. Income logic will be added in phase two (CA-215916, CA-215672, CA-215927). Resource and reporting logic will be added in phase 3 (CA-215917).
10. All functionality related to new fields will only affect the rules related to an individual county's General Assistance/General Relief program and will not impact the rules of other programs, unless specified.
11. Logic related to an individual employment services (ES) will be added in SCR CA – 215664.
12. All Data collection used in EDBC determination is effective for the benefit month.
13. The data collection element Type: WTW located in the Eligibility Non-Compliance Detail, will be added by the SCR-50303 schedule for 21.05.
14. Leveraged rules are main rules from another use cases whose logic are also used in this use case. Leveraged rules in this SCR whose main use case are not designed in phase 1 cannot be tested using the admin page. Example: Institutional status use case has a leverage rule that is a main rule in Earned income use case. Since Earned income use case is not designed in phase 1, this leverage rule will not be able to be tested from the admin page.
15. EDBC summary page layout will follow current Los Angeles County GA EDBC summary. The following sections will be in the EDBC summary page, others will be added in later phases: EDBC Header, EDBC Information, Program Configuration, Reporting Configuration, Allotment, Page Mappings (PMCR) and Security (STCR). Note: Allotment will have all 0 for values, and Security will follow current Los Angeles county security framework.
16. For correspondences that trigger for Change action scenarios, these cannot be tested at this Phase due to the EDBCs not resulting in dollar amount

approvals. These scenarios can be tested after implementation of EDBC Rules Phase 2 SCRs.

17. The term 'data selection date' is referencing the first day of the EDBC benefit month.
18. Status reasons set by Non-cooperation mandatory program functionality will be designed in SCR CA- 226620 and will not be able to be tested for this SCR CA-215926.
19. End to End testing of EDBC and Correspondence will not be possible until 22.01 release.
20. GA/GR will use existing CalSAWS functionality that sets first day of the benefit month as data selection date. EDBC SFU and Non-financial evaluation for GA/GR will use the data selection date to determine which data collection records will be used unless otherwise indicated.
21. All calculation for computed values will be detailed in the Visio diagram.
22. 'Participation status' will be an internal flag in CalSAWS, when a participation status is set in the rule it will replace the previous set status for each individual.
23. Logic that checks or creates Sanctions cannot be tested until CA-227328 is implemented.
24. Responsible relative, Indigent burial, and Return to Residence checks used in the overall flow cannot be tested until phase 2.
25. The detailed rules flow, requirement calculation, and status reason conditions will be specified in the Visio document.
26. Correspondence requirements for 'Potentially CW Eligible Due to Pregnancy' reason is removed from the design and will be part of Phase 3 SCR CA-215917.
27. Aid code functionality cannot be tested until it is implemented.
28. Any functionality related to Aid-in-kind cannot be tested until phase 2 Financial Functionality income logic which consists of CA-215916, CA-215672 and CA-224578.
29. The facility sub type category was brought in 'as-is', from the CalWIN reference table 'Type Intuition' at the time of the WCDS approved document some categories are not selected for any county". Category 4 and 7 was not set by any county so these categories cannot be tested.
30. Any status reasons that checks for a specific facility sub type category that a county does not have selected but has a corresponding Noticed for that category cannot be tested .

2.1 Individual Demographics Detail

2.1.1 Overview

The Individual Demographics Detail page is used to track personal identifying information for the case participants. This page will be updated to add the Separation for Convenience option to the Marital Status Reason dropdown.

2.1.2 Individual Demographics Mockup

The mockup shows a form with the following fields and controls:

- A Number:** An empty text input field.
- Sufficient Info for CIN: *** A dropdown menu with "Yes" selected.
- Marital Status:** A dropdown menu with "Separated" selected.
- Marital Status Reason:** A dropdown menu with "Separation for Convenience" selected.
- Date of Birth:** A text input field with "11/12/1952" and a calendar icon.
- Birth Country: *** A dropdown menu with "United States" selected.
- Is this person Hispanic or Latino? *** A dropdown menu with "No" selected.
- ID/Driver License Available?** A dropdown menu with "No" selected.
- CIN:** A text input field with "00000000X" and a blue "Search" button.
- Gender: *** A dropdown menu with "Male" selected.
- Verified: *** A dropdown menu with "Verified" selected and a blue "View" button.
- Verified: *** A dropdown menu with "Verified" selected and a blue "View" button.

2.2.7 Page Usage/Data Volume Impacts

No additional page usage is expected from this update.

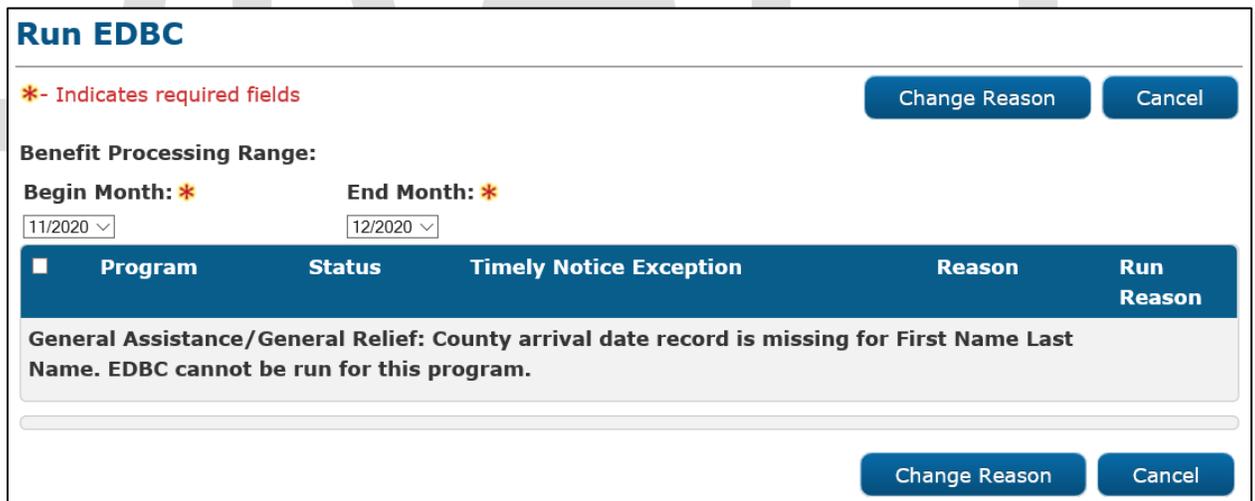

2.3 Add validation for Residency

2.3.1 Overview

For CalWIN counties that opted into Residency of Current County rule 'Fail residing individual who does not intend to reside in the current county' the applicant will have to stay for a minimum duration in the county before the application is approved for CalWIN's GA/GR program. The duration required is set by the county.

To ensure this a hard validation will be placed if the minimum duration for that county is not met and it will not be possible to run EDBC until the minimum duration is met.

2.3.2 Page Mockups

The mockup shows a 'Run EDBC' window with a title bar and a close button. Below the title bar, there is a legend: '*- Indicates required fields'. To the right of the legend are two buttons: 'Change Reason' and 'Cancel'. Below the legend, there is a section titled 'Benefit Processing Range:'. Under this section, there are two labels: 'Begin Month: *' and 'End Month: *'. Below each label is a dropdown menu. The 'Begin Month' dropdown is set to '11/2020' and the 'End Month' dropdown is set to '12/2020'. Below the dropdowns is a table with the following columns: 'Program', 'Status', 'Timely Notice Exception', 'Reason', and 'Run Reason'. The table has one row with the following text: 'General Assistance/General Relief: County arrival date record is missing for First Name Last Name. EDBC cannot be run for this program.' Below the table is a horizontal scrollbar. At the bottom right of the window, there are two buttons: 'Change Reason' and 'Cancel'.

Figure 2.1.2.1 – Run EDBC Validation Mockup

2.3.3 Description of Changes

1. The following hard validation will display:
 - a. "General Assistance/General Relief: County arrival date record is missing for {individual first name} {individual last name}. EDBC cannot be run for this program".

2. The hard validation will not allow the user to run the EDBC.
3. The hard validation will appear when all the following conditions are met:
 - a. The county has the indicator 'Y' on the county admin matrix for Residency of Current County rule 'Fail residing individual who does not intend to reside in the current county'.
 - b. The program is GR.

2.5.1.3 Correspondence

2.5.1.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.5.1.3.2 Description of Change

2.5.5.3 Correspondence

2.5.5.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.5.5.3.2 Description of Change

1. Reason Code: XAN773 - Alt. Sentenced - Employable

- a. Trigger Condition
 - i. This notice generates for the applicable counties when an individual was 'Active' in the previous saved EDBC and is now 'Discontinued' on the current EDBC with the reason 'Alt. Sentenced - Employable'.
- b. Person Level Reason

2.5.6.3 Correspondence

2.5.6.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.5.8.3 Correspondence

2.5.8.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.5.8.3.2 Description of Change

1. Reason Code: E10000 - Disability not verified

a. Trigger Condition

Form will be triggered if the current EDBC has the 'Disability not verified' display reason and the previous EDBC did not.

b. County-specific information:

County	Action	Document Description	Number	Template
Santa Clara	N/A	General Assistance Program - Vocational Services	SCD 1400 (02/14)	502980

2. Reason Code: XAN067 – Failed to Comply: Medical Eval

a. Trigger Condition

- i. This notice generates for the applicable counties when an individual was 'Active' in the previous saved EDBC and is now

'Discontinued' on the current EDBC with the reason 'Failed to comply: Medical Eval'.

- b. Person Level Reason
- c. County-specific information:

County	Action	Document Description	Number	Template
Sonoma	Discontinuance	GA Disc - Failure to Provide Incapacity Verification	040-1 (09/99)	12534

6.1 Rules Flow Diagram

Viewing Visio Document in Internet Explorer

1. This is applicable for Laptops/Desktops that do not have Microsoft Visio software installed
2. Once you double click the attachment or right click and open with Internet Explorer the Visio will open in internet explorer.
3. The internet Explorer will open with the below pop up in the bottom of the page

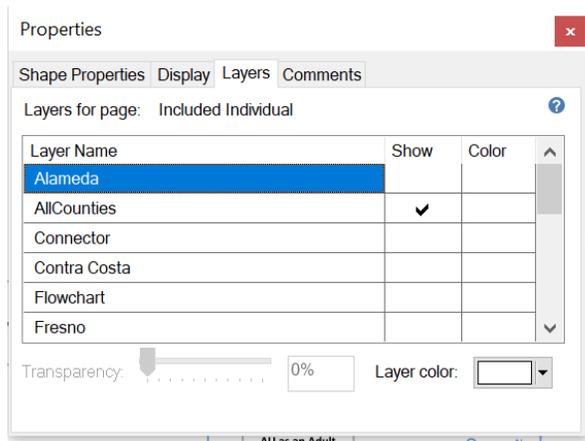

4. Click Allow Blocked Content.
5. Once the Visio opens in Internet Explorer, select the tab at the bottom and navigate using the buttons highlighted below for the appropriate rules (in this case Included Individual)

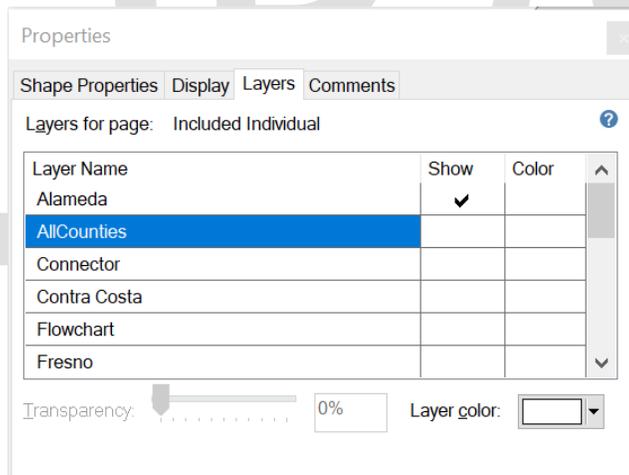

6. Click the layer icon circled in red color below

7. Once the layers button is clicked the Properties box will pop up.

8. Then click the county name that is applicable to you, in this case Alameda

9. Once you select Alameda and close the properties pop up (by clicking the x button at top right corner like closing a tab or window) the flow diagram will show only the rules /functionalities applicable to Alameda.

Viewing Visio Document in Microsoft Visio

1. This is applicable for Laptops/Desktops that do have Microsoft Visio software installed
2. Once you double click the attachment or right click and open with Visio then it will open in Microsoft Visio

- Once the Visio opens in Internet Explorer, select the tab at the bottom and navigate using the buttons highlighted below for the appropriate rules (in this case Included Individual)

- On the right side of the flow diagram the counties names will be displayed as shown below

- Then click the county name that is applicable to you, in this case Alameda as shown below

6. Once you select Alameda the flow diagram will show only the rules /functionalities applicable to Alameda.

6.2 Status Reason (CT73)

- A. Reference table for CT73 (Program status reason) and corresponding status reason in this design document. This table shows the values for the new columns added.

- i. Key:

1. GA/GR Priority
 - a. The lower the number the higher the priority
2. GA/GR Program Role
 - a. FE – This indicator means the status reason will change the person role to FRE - 'Financially Responsible – Excluded'
 - b. FI – This indicator means this status reason will change the person role to FRI 'Financially Responsible – Included'
 - c. MM – This indicator means this status reason will change the person role to MMO 'Medi-Cal Member Only'
 - d. UP – This indicator means this status reason will change the person role to UP 'Unaided Person'
3. GA/GR Close Person
 - a. CanCloseBoth – Indicator means this status reason can close both person and program level.

- b. Y – indicator means this status reason can close the person.
- 4. GA/GR Close Program
 - a. CanCloseBoth – Indicator means this status reason can close both person and program level.
 - b. Y – Indicator means this status reason can close the program.
- 5. General Relief
 - a. Y -Indicator means this status reason will be applicable for CalWINs General Relief Program

DRAFT

1 OVERVIEW

This SCR will implement Phase 1 for Correspondences generated for GA/GR Automated EDBC/CC Counties solution in CalSAWS.

1.1 Current Design

The Correspondences generated for GA/GR Automated EDBC/CC Counties program are displayed in Distributed Documents Search page with 'Incomplete' status and as text instead of hyperlink. As the General Assistance/General Relief (GA/GR) Correspondence Service has not been implemented there is no document available to be displayed in the CalSAWS system.

1.2 Requests

A new GA/GR Automated solution will be developed in CalSAWS to automate the rules and administer the program for the 18 CalWIN counties. This solution will provide the framework for the remaining 39 C-IV counties to opt into this solution in the future. This SCR will provide the framework for handling the responses from the GA/GR Correspondence Service along with PDF documents returned by the Service. General Assistance/General Relief (GA/GR) Correspondence Service for the GA/GR Automated EDBC/CC Counties solution will be developed in the same release as this SCR with SCR CA-225943.

1.3 Overview of Recommendations

1. Create framework to handle Correspondence documents returned by the GA/GR Correspondence Service.
2. Add new 'Additional Document Information' section in Document Detail page.
3. Update View Document Page for GA/GR Automated EDBC/CC Counties Correspondences.
4. Add Journal functionality for Correspondence documents from GA/GR Correspondence service.
5. Create new Message Center Notifications for Primary Correspondences received from GA/GR Correspondence Service.
6. Add Authorized Representative functionality for GA/GR Automated EDBC/CC Counties program.
7. Create Parameters framework and design parameters for each Individual Correspondences to be sent along with request for GA/GR Correspondence Service request.

1.4 Assumptions

1. The existing CalSAWS Correspondences functionality will remain unchanged for other programs and GA/GR LA County program.
2. This SCR CA-215920 is part 1 of 2 SCR that will handle the Correspondences generated along with SCR CA-225258.

3. All the Correspondence Templates are based on the WCDS/County approved documents.
4. The functionality of this SCR CA-215920 will be disabled until activated by the system property flag established in SCR CA-215669.
5. GA/GR Correspondence Service will be implemented with SCR CA-225943 in 21.11 Release.
6. Current CalSAWS Message Notification Center functionality will not be updated for other Message Notifications.
7. Current existing Journal functionality will remain the same for Correspondences of other programs and GA/GR LA County program.
8. Authorized Representative functionality for other programs will remain unchanged.
9. Authorized Representative for GA/GR Automated EDBC/CC Counties program will not be reported to MEDS.
10. Miscellaneous Parameters related to Sanction will be part of SCR CA-227328.
11. Correspondences for GA/GR Automated EDBC/CC Counties program will not be triggered for Manual EDBC.
12. XAF345 will be implemented with SCR CA-229096 in 22.01 release.

2 RECOMMENDATIONS

2.1 Distributed Documents Search Page

2.1.1 Overview

The Distributed Documents Search page displays the list of documents for the case depending on the criteria of the search. Currently, the Correspondence documents which are generated will have a 'Incomplete' status when they are initially generated for GA/GR Automated EDBC/CC Counties program.

With the implementation of SCRs CA-215920 and CA-225943 a request for GA/GR Correspondence Service will be sent when the correspondences. Upon receiving this request, the service processes the document and determines if any mandatory variables are missing and CalSAWS will receive either a 'Missing Mandatory Variables' indicator or a processed PDF document for the correspondence. This section will provide the changes required for handling the Correspondences with documents and Missing Mandatory Variables indicator from GA/GR Correspondence Service.

Figure 2.1.2.4 – Distributed Document Search Page Message

2.1.3 Description of Changes

1. Currently multiple Correspondences are consolidated into one if the Correspondences are for the same EDBC and have the same Action type and Template. Document Name and Number display order for consolidated Correspondences:
 - a. Display the correspondence associated with the status reason with highest priority (CT73) on the Distributed Documents Search page

- b. If the Status reason with the highest priority doesn't have a correspondence associated, display the correspondence associated with the Status reason with next highest priority.
 - c. If there are no Status Reasons associated with the Correspondence any Correspondence can be displayed on the Distributed Documents Search page.
2. Generate correspondences for Primary Applicant, all Authorized Representatives, and all Additional Correspondence Recipients of the GA/GR Automated EDBC/CC Counties program.
 3. Generate correspondences in both Primary Applicant's Written language and English for all the recipients similar to current CalSAWS functionality based on the availability of Correspondences in the Written language.
 4. After creating the Correspondence records send a Request for GA/GR Correspondence Service for the Correspondence documents.
 5. Create a new document Status 'Missing Mandatory Variables' (MM) in Code CT 220.
 6. Update Correspondence with 'Missing Mandatory Variables' (MM) status when the GA/GR Correspondence Service returns a <Missing Mandatory Variables> indicator for the Correspondence (Figure 2.1.2.1 – Section 1).

Category	Code	Short Description
220	MM	Missing Mandatory Variables

7. Delete existing EDBC NOAs with 'Missing Mandatory Variables' (MM) status upon rerun of the EDBC for the month on the same day similar to current CalSAWS functionality for Correspondence Status Reasons.
8. Hyperlink of correspondences with 'Missing Mandatory Variables' (MM) status opens the GA/GR Correspondence Service tabs mentioned in SCR CA-215920 GAGR Correspondence Service - Case Worker Functionality Solution document from the following sections.
 - a. **NOA:** Case Worker Functionality Solution - Section 2.2

Note: Correspondences of type Form will not have a 'Missing Mandatory Variables' (MM) status from GA/GR Correspondence Service.

9. Clicking on a Hyperlink of correspondences with 'Missing Mandatory Variables' (MM) status and creating the Correspondence in GA/GR Correspondence Service creates documents for all the Related Correspondences.

Note: Related Correspondences are Correspondence generated for a trigger for Primary Applicant, Authorized Representatives and Additional Correspondence Recipients. These Correspondences have similar content except the address to which the Correspondence to be sent.

10. Add a Validation Message "GA/GR Correspondence Service is currently unavailable." when the hyperlink of document with Missing Mandatory Variables' (MM) is clicked and the GA/GR Correspondence Service is not available (Figure 2.1.2.4)
11. Primary Correspondence document record will be updated to 'Pending Review' (PE) status when a document has been received from GA/GR Correspondence Service (Figure 2.1.2.1 Section 2).

Note:

Primary Correspondence – Correspondence in Primary Applicant's Written language if available or in English for each Correspondence recipient.

12. Primary Correspondence document record will be updated to 'Hold for Pickup' if the Case has District Office Address as Mailing address (Figure 2.1.2.1 Section 3).
13. If GA/GR Correspondence Service returns Correspondence document in both Primary Applicant's Written language and English, display the correspondence documents similar to current CalSAWS functionality with relational documents.
 - a. Display Primary Correspondence record with the Written language (Figure 2.1.2.1 Sections 4,5,6).
 - b. Display Relational Correspondence record with English as the language (Figure 2.1.2.1 Sections 4,6).
 - c. Relational Correspondence document will have 'View' status.
14. Hyperlink of documents with 'Pending Review' or 'Hold for Pickup' opens the documents received from the Correspondence GA/GR Correspondence Service.
15. Hyperlink of documents with 'View' opens the Relational Correspondence documents received from the GA/GR Correspondence Service. The document can only be viewed and will not have any buttons to action.
16. Create a new Relational document for the Primary Correspondence that are updated in GA/GR Correspondence Service.
 - a. Updated Primary Correspondence will have 'Pending Review' or 'Hold for Pickup' status (Figure 2.1.2.2 Section 7).
 - b. Original Primary Correspondence will be updated to 'Overridden' status and 'Original' in the document name (Figure 2.1.2.2 Section 7).
 - c. Updated Relational Correspondence in English will have 'View' status (Figure 2.1.2.3 Section 8).
 - d. Original Relational Correspondence in English will have 'View' status and 'Original' in the document name (Figure 2.1.2.1 Section 8).

17. If GA/GR Correspondence Service returns Correspondence only in English but CalSAWS requested Correspondences in both Written Language and English, display Correspondence only in English.

1. Add Additional Document Information Section to the Document Detail Page
2. Any Additional Names and Number of the Correspondences consolidated into a single correspondence will be in 'Additional Document Information' Section.
3. Additional Document Information Section will have unique values for following fields
 - a. Name – Correspondence Name
 - b. Number - Correspondence Number

Note:

1. Additional Document Information section also will not display the same values as Document information section
4. Additional Document Information Section will display only if there are Consolidated Correspondences for GA/GR Automated EDBC/CC Counties program.
5. Final link will not be active for Correspondence with 'Missing Mandatory Variable' status.

Technical Note: Create Tables for storing the data related to the Correspondences for the GA/GR Correspondence Service and to display consolidated Reasons.

2.3.3 Description of Changes

1. Use the current View Document Page for viewing Correspondences generated for GA/GR Automated EDBC/CC Counties program from GA/GR Correspondence Service.
 - a. Add 'Update' button on View Document Page
 - b. Display NOA for all NOAs
 - c. Display Form for all Forms
2. Update button will be displayed when the Correspondence document is not finalized.

Note:

1. Correspondence will not have any Action buttons if Correspondence has Overridden Status, this is current CalSAWS functionality and will remain the same.
2. Correspondence can be edited multiples times in the context of the Correspondence Service.
3. Clicking on hyperlink of the 'Update' button opens the GA/GR Correspondence Service tabs mentioned in SCR CA-215920 GAGR Correspondence Service - Case Worker Functionality Solution document from the following sections.
 - a. **NOA:** Case Worker Functionality Solution - Section 2.2
 - b. **Form:** Case Worker Functionality Solution - Section 2.5
4. Clicking on a 'Update' button of a Correspondence and updating the Correspondence in GA/GR Correspondence Service updates all the Related Correspondences.

Note: Related Correspondences are Correspondence generated for a trigger for Primary Applicant, all Authorized Representatives and all Additional Correspondence Recipients. These Correspondences have similar content except the address to which the correspondence to be sent.

5. Add a Validation Message "GA/GR Correspondence Service is currently unavailable." when the 'Update' button of the document is clicked, and GA/GR Correspondence Service is not available (Figures 2.1.2.3, 2.1.2.4).
6. Actioning a Correspondence finalizes the Current and all the Related Correspondences.
Note: Actioning is Clicking any of the Save and Print Locally or Save and Print Centrally or Reject buttons of the Correspondence.
7. The Correspondence will be updated to the following Statuses when the buttons are clicked:

View Document Buttons	Correspondence Status
Save and Print Locally	Printed Locally
Save and Print Centrally	Accept - Print Centrally

2.4 GA/GR Service Message Center Notification

2.4.1 Overview

This section will cover Message Center notification functionality for the responses received from GA/GR Correspondence Service. These new Message Center Notifications will use the existing Message Center functionality.

2.4.2 Message Center Notifications Mockup

The screenshot displays the CalSAWS user interface. At the top, the CalSAWS logo is on the left, and navigation links for Journal, Tasks, Help, Resources, Page Mapping, Images, DCFS Images, and Log Out are on the right. The case name is 'Test Sacramento' and the case number is 'L0530B7'. Below this is a navigation bar with tabs for Sacramento AT1, Case Info, Eligibility (selected), Empl. Services, Child Care, Resource Databank, Fiscal, Special Units, Reports, Client Corresp., and Admin Tools. The main content area is divided into a left sidebar and a main panel. The sidebar contains a 'Case Summary' section with a 'Case Number' input field and a 'Go' button, and a list of search and registration options: Person Search, EBT Account Search, Application Registration, Case Summary (highlighted), and Contact. The main panel shows a 'Message Center (2)' section with a table of notifications. The table has two columns: 'Time' and 'Message'. The first notification is at 07:13 AM, stating 'GA/GR Correspondence (003 0 (10/10)) is missing mandatory variables (L0530B7)'. The second notification is at 07:18 AM, stating 'GA/GR Correspondence (CalWIN 2-Sac) is available for viewing (L0530B7)'. Below the notifications is another 'Case Summary' section with a table showing 'Case Name' as 'Test Sacramento' and 'County' as 'Sacramento'.

Time	Message
07:13 AM	GA/GR Correspondence (003 0 (10/10)) is missing mandatory variables (L0530B7).
07:18 AM	GA/GR Correspondence (CalWIN 2-Sac) is available for viewing (L0530B7).

Case Name	County
Test Sacramento	Sacramento

Figure 2.4.2.6 Message Center Notification

2.4.3 Description of Changes

1. Send a Message Center Notification for Primary Correspondence received from GA/GR Correspondence Service request initiated by a user
 - a. Correspondence request is sent, and response is received on the same date.
 - b. Correspondence response is received before the message center cutoff time which is 9:00 PM.
 - c. There is a worker associated with the Correspondence Service request.
 - d. Message Center Notification will be created after the response has been successfully handled.

- e. Message Notification will not need an acknowledgement similar to MAGI determination request notification.
- f. One Message Center Notification will be Created for all the Related Primary Correspondences.

2. The message will be formatted based on the criteria below:

Correspondence Service Response	Time	Message
Correspondence with Missing Mandatory Variables	Message Created time Format : HH:MM AM/PM Ex: 07:13 AM	GA/GR Correspondence (<Document Number>) is missing mandatory variables (<Case Number>).
Correspondence with a Document from GA/GR Correspondence Service	Message Created time Format : HH:MM AM/PM Ex: 07:13 AM	GA/GR Correspondence (<Document Number>) is available for viewing (<Case Number>).

- a. **Document Number:** Document Number of the Correspondence displayed on the Distributed Documents Search Page.
- b. **Case Number:** Hyperlink to take to the Case summary page of the Correspondence Case.
- c. **Time :** Hyperlink to take to the Distributed Documents Search page of the case.
- d. Time hyperlink will be inactive for the users without Document Viewing Rights "**DistributedDocumentsSearch**" Security rights.

Note: Existing Message Center Notification Functionality

- 1. Notifications will be cleared at the end of the day
- 2. Notifications will be available at Case and Worker level

2.5 Correspondence Journal

2.5.1 Overview

This section describes Automated Journals that should be created for GA/GR Automated EDBC/CC Counties program correspondences that will be created by the GA/GR Correspondence service.

2.5.2 Journal Mockup

N/A – No page changes

2.5.3 Description of Changes

1. Create Journals for Forms and non-EDBC Notice of Actions when the GA/GR Correspondence Service returns a document initially for the Primary Correspondence.

Note: Correspondence created after update will not have a new Journal, a journal would have been already created when the document is returned initially.

2. Enable the following Automated Journals. These Journals already exist in the CalSAWS category_id 363 table.
 - a. Short Description: {formNumber} – {formName}
 - i. {formNumber} is the form number of the form that's being printed.

2.8 Correspondence Params

2.8.1 Overview

This section describes Correspondence Parameters that are required for each GA/GR correspondence that will be sent with GA/GR Correspondence Service request.

2.8.2 Description of Changes

1. Create the following Parameters that will be part of the GA/GR Correspondence Service request.

Parameter	Optional	Parameter Description
CORSPD_ID	N	Unique ID Identifying all the Related Correspondence Document Records
PGM_TYP_CD	N	Program Type
SUB_PGM_TYP_CD	Y	Sub Program type
EDBC_SEQ	N	EDBC ID associated to the Correspondence
AG_EFF_START_DT	N	Begin Date of the EDBC ID associated to the Correspondence
CORSPD_EFF_DT	N	1. Correspondence Document Record created Date for Correspondences created by User 2. Batch Date for the Correspondences created from Batch
CWIN	Y	Person Id associated to the Correspondence
ACTN_CD	Y	Action associated with correspondence. Forms/OCCs will not have any Action Code
PREV_EDBC_SEQ	Y	Previous EDBC ID associated to the Correspondence if available.
PREV_AG_EFF_START_DT	Y	Begin Date of the Previous EDBC ID associated to the Correspondence if available
RSN_CODE	N	6-character Alphanumeric Reason Code Related to the Correspondence
Imaging QR Barcode	Y	CalSAWS Standard Imaging Barcode
ADDRESS_ID	N	Current Mailing Address of the Recipient
NOTICE_DATE	N	1. For Initial document Request, Correspondence Document Record created Date 2. For Missing Mandatory Variable Correspondences and Update ,the date User Generated the Document from Correspondence Service Tab.

2.9 Miscellaneous Parameters

2.9.1 Overview

This section describes Miscellaneous Parameters that are required for each GA/GR Correspondence that will be part of the Correspondence GA/GR Service request. Miscellaneous Parameters are part of the Correspondence Parameters for the Correspondence GA/GR Service request.

2.9.2 Description of Changes

1. Create a new code category for GA/GR Automated EDBC/CC Counties program Miscellaneous Parameters to be used with Correspondences.
2. Miscellaneous Parameters for a Correspondence will be in the following format:

DRAFT

1 OVERVIEW

This SCR will implement the household composition and Non-Financial functionality for the new CalWIN General Relief (GR) solution in CalSAWS.

1.1 Current Design

The General Assistance/General Relief (GA/GR) solution in the CalSAWS system is designed to automate the rules for the Los Angeles county's implementation as well as the automation and monitoring of their General Relief Opportunities for Work (GROW) program. Currently CalWIN manages their GR program logic by using a Rule Matrix which can be accessed by the county to allow each county administrator to customize the behavior to their specific county.

1.1 Requests

A new CalWIN GA/GR solution will be developed in CalSAWS to automate the rules and administer the program for the 18 CalWIN counties. This solution will provide the framework for the remaining 39 C-IV counties to opt into this solution in the future. This change request will automate the household composition and Non-Financial functionality for the new solution

1.2 Overview of Recommendations

1. Add all the required Data Collection elements to implement the Household and Non-Financial functionalities for the new solution.
2. Create new Admin Summary and Detail pages that can be accessed in Admin tools by the County Admin staff.
3. Create new Rules Admin Batch Job to update requested changes from the Admin Detail pages.
4. A new set of Admin detail pages, Rules, Batch and NOA triggers will be added for the below Household Composition and Non-Financial.

1. [Fleeing Felon](#)
2. [Liens](#)
3. [QC Audit](#)
4. [Probation](#)
5. [Drug Felon](#)
6. [Fraud Prevention](#)
7. [Striker](#)
8. [Voluntary Quit](#)
9. [Drug and Alcohol Treatment](#)
10. [Employment Status](#)
11. [Job Terminated](#)

1.3 Assumptions

1. The existing Los Angeles county rules will remain unchanged.
2. This SCR CA-215665 & CA-215666 is based on the WCDS approved documents.
3. The design of the rules is for each CalWIN county based on the DXC documents approved by the counties.
4. This SCR CA-215665 & CA-215666 is phase one of three which consists of 11 CalWIN rulesets for Household Composition and Non-Financial. The remaining rulesets will be designed in SCR CA-228982 and SCR CA-215926.
5. The functionality of this CA-215665 & SCR CA-215666 will be disabled until activated by the system property flag established in SCR CA 215669.
6. This SCR CA-215665 & CA-215666 will be an addition to SCR CA-228982 and will not state the additions and modification made in SCR CA-228982. Only new additions and modifications not stated in SCR CA-228982 will be stated in this design.
7. Any logic related to San Francisco explicitly called out in relevant WCDS approved use cases will be included in this design. Any, San Francisco sub program logic independent of the rule will be added in SCR CA-215677 DDID 2374 scheduled for 22.01.
8. Alerts will be handled separately outside the Rules design in a separate SCR CA-220119.
9. The following status reasons will be designed as CalWIN status codes in this SCR but will be translated in future designs:
 - a. XAS853
 - b. CAS306
 - c. CAS668
 - d. XAN005
 - e. XAN766
 - f. XAN791
 - g. X10236
 - h. X10067
 - i. X10224
 - j. X10233
 - k. X10234
 - l. X10235
10. The Compliance reason: 'Client failed to give a fingerprint and photo image' is not currently used in CalWIN but is stated in the WCDS approved document and will not be designed in this SCR.
11. EDBC will result in 0 benefit as resource will be set to PASS and income logic will be bypassed during the first phase. Income logic will be added in phase two (CA-215916, CA-215672, CA-215927). Resource and reporting logic will be added in phase 3 (CA-215917).
12. Leveraged rules are main rules from another use cases whose logic are also used in this use case. Leveraged rules in this SCR whose main use case are not designed in phase 1 cannot be tested using the admin page. Example: Institutional status use case has a leverage rule that is a main rule in Earned income use case. Since Earned income use case is not designed in phase 1, this leverage rule will not be able to be tested from the admin page.

13. EDBC summary page layout will follow current Los Angeles County GA EDBC summary. The following sections will be in the EDBC summary page, others will be added in later phases: EDBC Header, EDBC Information, Program Configuration, Reporting Configuration, Allotment, Page Mappings (PMCR) and Security (STCR). Note: Allotment will have all 0 for values, and Security will follow current Los Angeles county security framework.
14. All Data collection used in EDBC determination is effective for the benefit month.
15. For correspondences that trigger for Change action scenarios, these cannot be tested at this Phase due to the EDBC's not resulting in dollar amount approvals. These scenarios can be tested after implementation of EDBC Rules Phase 2 SCRs.
16. The term 'data selection date' is referencing the first day of the EDBC benefit month.
17. End to End testing of EDBC and Correspondence will not be possible until 22.01 release.
18. GR will use existing CalSAWS functionality that sets first day of the benefit month as data selection date. EDBC SFU and Non-financial evaluation for GR will use the data selection date to determine which data collection records will be used unless otherwise indicated.
19. All calculation for computed values will detailed in the Visio diagram.
20. 'Participation status' will be an internal flag in CalSAWS, when a participation status is set in the rule it will replace the previous set status for each individual.
21. Logic that checks or creates Sanctions cannot be tested until CA-227328 is implemented.
22. The detailed rules flow, requirement calculation, and status reason conditions will be specified in the Visio document.
23. Household composition rules cannot be tested until 21.11 with CA-228982. When testing the non-financial rules without household composition, only single adult program can be tested with positive household composition conditions such as in the home, US citizen, etc.
24. All page updates presented within the document will be available to all 58 counties at the time of implementation. The programs on the case do not affect the ability to view any of the added fields or pages, unless specified.
25. County-specific correspondences will not trigger for counties where the eligibility rule is turned off (see County Admin Matrix for any rule in section 2.30)
26. Any functionality related to Aid-in-kind cannot be tested until phase 2 Financial Functionality income logic which consists of CA-215916, CA-215672 and CA-224578.
27. County reference convicted start date for drug felony does not exist. The condition individual's date convicted for drug felony is after the county reference convicted start date for drug felony will always return true.

2.2.3 Description of Changes

1. The section title will match the functionality selected to reach the detail page
2. County – The County of the logged in user.
3. View Month – The date the user is viewing the associated rules for. The calendar icon will allow the user to select the date. The date will display in MM/YYYY format. Standard Date validation for the date format will apply. The default date will be the current month.
4. View – This button will refresh the rule display information based on dates provided.
5. Rules – The list of rules associated to this functionality.

6. Activated – The indicator of whether the rule is active or not based on the view date. This field will be a Yes/No dropdown. There will be no blank value.
7. Begin Month – The date the rule was activated/deactivated. This will be a date field in MM/YYYY format. This date will always evaluate to the first day of the month selected. This field will only be editable in Create and Edit mode. The validation message, “Begin Month cannot be prior to the current month.”, will display if the user attempts to Save with a month prior to the current month.
8. End Month – The date the rule stopped being active/inactive. This will be a date field in MM/YYYY format. This date will always evaluate to the last day of the month selected. This field will only be editable in Create and Edit mode. The validation message, “End Month cannot be prior to the Begin Month.”, will display if the user attempts to Save with a month prior to the Begin Month.
9. Pending Updates – This section will display the list of changes made throughout the day that have yet to be applied by users. Changes made by a user will be pending until they are applied via an overnight batch job. The section will display the same information inserted as well as an updated by column. The updated by column will display a staff id as a link to the worker detail page of the user specified.
10. Save - This button will save update the information based on the user's input and return the user to the County Rule Summary page. This button is only visible in Edit mode.
11. Cancel - This button will return the user to the County Rule Summary page without applying any changes. This button is only visible in Edit mode.

2.24 EDBC Verification Logic

2.24.1 Overview

Currently in CalWIN verifications when they are due, and the verification results is managed by each individual CalWIN county administrators through an administration page. Migrating into CalSAWS, CalWIN will inherit CalSAWS existing verification logic.

In CalSAWS, all verification due dates are automatically set to 10 calendar days. If the last day falls on a weekend or holiday, the verification due date will be moved to the next business day. The worker will have access to the Verification Detail Page to update the due date for each verification.

There are three types of verifications in CalSAWS: Mandatory Verifications, Mandatory Verification after due date or Non-Mandatory Verification.

For Mandatory Verifications:

- a. If the verification is pending before the verification due date:
 - i. The following soft validation will be displayed before running the EDBC: 'The following verification(s) have not been received'.
 - ii. The EDBC will have the status of 'Pending Verification'.
 - iii. The user will not be able to authorize the EDBC.
- b. If the verification is pending after the verification due date:
 - i. A soft validation will be displayed before running the EDBC: 'The following verification(s) have not been received.'
 - ii. The EDBC will be discontinued or denied.
 - iii. The user will be able to authorize the EDBC.

For Mandatory Verification after due date:

- a. If the verification is pending before the verification due date:
 - i. A soft validation will be displayed before running the EDBC: 'The following verification(s) have not been received.'
 - ii. The EDBC will be a regular EDBC.
 - iii. The user can authorize the EDBC.
- b. If the verification is pending after the verification due date:
 - i. A soft validation will be displayed before running the EDBC: 'The following verification(s) have not been received'.
 - ii. The verification type will not impact the person.
 - iii. The user can authorize the EDBC.

*Please Note; The 'Mandatory Verification after due date' functionality will be updated in SCR CA-215916 release in 21.11.

For Non-Mandatory Verification:

- a. If the verification is pending before the verification due date, there will be no soft validation check.
- b. The EDBC will be a regular EDBC.
- c. The user can authorize the EDBC.
- d. The verification type will not impact the person.

2.24.2 Description of Changes

- Each county current verification for future and current action will be set according to the table below. The table will map the different combinations of current and future actions currently in CalWIN for verification to CalSAWS M – Mandatory Verification, Y- Mandatory Verification after due date and N- Non-Mandatory Verification. The CalWIN verification types will not have an administration page and any change to the verification types will now be managed in the back end.

CalWIN Current Action	CalWIN Future Action	CalSAWS verification Type	CalSAWS Verification Status
Pend	Fail	M – Mandatory Verification	Pending
Pass	Pass	N - Non-Mandatory Verification	Pending / Not Applicable
Pass	Fail	Y – Mandatory Verification after due date	Pending
Fail	Fail	Y – Mandatory Verification after due date & M - Mandatory Verification	Refused

- Add a new reference column name 'GR' in CT 170 Verification Type Code.
- For existing verification types being updated for 'GR' set the indicator as 'Y' for the reference column 'GR' in CT 170 Verification Type Code.
- For existing verification types not being updated for 'GR' set the indicator as 'N' for the reference column 'GR' in CT 170 Verification Type Code.
- For new verification types being added for 'GR' set the indicator as 'Y' for the reference column 'GR' in CT 170 Verification Type Code and set 'N' for all other program reference columns.

2.25 Correspondence Changes

2.25.1 Overview

Prior to the new architecture implementation, the notice triggers will be created upon Accepting and Saving EDBC. After which, the user will be navigated to the Distributed Documents page where the document name of the correspondence to be generated will be displayed as text instead of a hyperlink (see below image).

CalSAWS has a "Preview NOA" functionality where a worker can preview a NOA through clicking the "Preview NOA" button before Saving and Authorizing EDBC. This functionality will be disabled for CalWIN GA/GR-only EDBC. The worker will still be able to view the NOAs, however, it will be after Saving and Authorizing EDBC.

2.26 Non-Financial Composition

2.26.1 Fleeing Felon Functionality

2.26.1.1 County Admin Matrix – Fleeing Felon

2.26.1.1.1 Overview

A new County Admin Detail page for Fleeing Felon will be created. This page is viewed by the County Administrator to view the list of rules applicable for the Fleeing Felon functionality to their county.

2.26.1.1.2 Description of Changes

- The Admin page matrix for Fleeing Felon will have the below functional categories and its associated flag turned on or off based on the current GA/GR functionality for each County
- The activate switch Yes/No indicate if that functionality is applicable to the displayed county.
- The functionality is effective dated with begin and end date
- The rule functionality can be viewed as of a date using the view date

Rule Description	Alameda	Contra Costa	Fresno	Orange	Placer	Sacramento	San Diego	San Francisco	San Luis Obispo	San Mateo	Santa Barbara	Santa Clara	Santa Cruz	Solano	Sonoma	Tulare	Ventura	Yolo

2.26.6.3 Correspondence

2.26.6.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.26.6.3.2 Description of Change

1. Reason Code: XAN029 – Non-Comply with fraud prevention

2.26.8.3 Correspondence

2.26.8.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.26.9.3 Correspondence

2.26.9.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.26.9.3.2 Description of Change

2.26.11.3 Correspondence

2.26.11.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.26.11.3.2 Description of Change

1. Reason Code: XAN028 - Refused Job
 - a. Trigger Condition
 - i. This notice generates for the applicable counties when an individual was 'Pending' and is now 'Denied' on the current EDBC with the reason 'Refused Job'.
 - b. Person Level Reason
 - c. County-specific information:

County	Action	Document Description	Number	Template
--------	--------	----------------------	--------	----------

Contra Costa	Denial	GA Denial - Refused Employment - 60 Day Penalty	134 0	11519
Santa Barbara	Denial	GR - Deny - Job Responsibility	161-0	12701

2. Reason Code: XAN074 – Job Terminated no good cause (recipient)

a. Trigger Condition

- i. This notice generates for the applicable counties when an individual was 'Active' in the previous saved EDBC and is now 'Discontinued' on the current EDBC with the reason 'Job Terminated no good cause (recipient)'.

b. Person Level Reason

c. County-specific information:

County	Action	Document Description	Number	Template

2.27 Data Change Request to add Issuance Threshold values

2.27.1 Overview

Issuance Thresholds are established to determine the amount of benefits or services payments for each Program that can be approved by an Eligibility Worker without requiring a supervisor override. These issuance thresholds are

maintained in the System, and can be updated by the county on the County Benefit Threshold page.

2.27.2 Description of Change

Perform a data change to add a default value of 1000 for the General Assistance/General Relief (GA/GR) program issuance thresholds for the CalWIN counties. The GA/GR issuance threshold values for the CalWIN counties will be updated with county provided values with SCR CA-215927 in 21.11.

2.27.3 Estimated Number of Records Impacted/Performance

Approximately 54 records.

2.28 Batch/Interfaces - Create Rules Admin Batch

2.28.1 Overview

The county rules admin batch will process each requested rules admin change that are listed on the pending updates section of the County Rules Detail page as displayed in sections 2.1 and 2.2.

2.28.2 Description of Change

Create a new batch job that will process each requested rules admin change for a county. The job will do the following:

1. Retrieve the pending rule admin changes from the transact table that were requested by the Online users for processing.
2. End date the current rules admin record using the begin date of the transaction record if it currently exists.
3. Insert a new rules admin record with the details of the rules admin transact table.
4. Update the transact record from the table once successfully processed with a Complete status or an Error status if there was an issue processing.

2.28.3 Execution Frequency

Daily (Mon-Sat).

2.28.4 Key Scheduling Dependencies

This batch job should run before Batch EDBC.

2.28.5 Counties Impacted

All Counties.

2.28.6 Failure Procedure/Operational Instructions

Batch Support Operations staff will evaluate transmission errors and failures and determine the appropriate resolution (i.e., manually retrieving the file from the directory and contacting the external partner if there is an account or password issue, etc.).

1 OVERVIEW

This SCR will implement the first group of Non-EDBC triggers for GA/GR Automated Correspondences.

1.1 Current Design

The GA/GR solution in the CalSAWS system is designed to automate the rules for the Los Angeles county's implementation as well as the automation and monitoring of their GROW program.

1.2 Requests

A new GA/GR Automated solution will be developed in CalSAWS to automate the rules and administer the program for the 18 CalWIN counties. This solution will provide the framework for the remaining 39 C-IV counties to opt into this solution in the future. This change request will add Non-EDBC correspondence triggers through either online or batch.

1.3 Overview of Recommendations

1. Online Non-EDBC Correspondence Generation
2. Add Online Form triggers for Denied/Applied SSI/SSP Status
3. Add Online Form Trigger for specific SSI/SSP Application Statuses
4. Add Online Form trigger for the Responsible Relative/Alien Sponsor Questionnaire
5. Add Online Form trigger for the Responsible Relative Letter
6. Add Online form trigger when applicant signs and dates GA/GR application
7. Add Online trigger for GR Authorization to Release Medical Information Form
8. Add online trigger for Employment Verification When Job Ends form
9. Add online trigger for Employment Questionnaire form
10. Add online trigger for GA Cooperation Agreement for Unemployable Applicants and Recipients form
11. Add online trigger for Generic GA/GR Approval and Work Search Rules form
12. Add online trigger for GR CE Rights and Responsibilities form
13. Add online trigger for the Assignment of Interest Form
14. Add online trigger for the Licensed/Certified Program Verification Form
15. Add online trigger for the STEPP Referral form
16. Add online trigger for the Acceptance/Denial of the General Assistance Shelter form
17. Add online trigger for the Agreement to Pick Up Mail at County Office form
18. Add online trigger for the SSA Referral Notice Form
19. Add online trigger for the Address Change Form
20. Add online trigger for the GR Status Change NOA – Employable to Incap Form
21. Add online trigger for the Rescind - All Programs form
22. Add online trigger for the Withdrawal of Request for a County Hearing form
23. Add online trigger for the Scheduled Hearing form

24. Add online trigger for Withdrawal of Request for Hearing form

1.4 Assumptions

1. This SCR will only implement triggers based on the existing CalWIN GA/GR Correspondences. Verbiage and format will be covered in SCR CA-215920.
2. All triggers are based on current existing triggers in CalWIN.
3. The triggers will only be available to cases from counties that are mentioned in the recommendation's respective "Correspondence Information" section.
4. All the changes in this SCR will not affect the Los Angeles GA, GA (Managed) and GA (Non-Managed) programs. In the below recommendations, "All" counties pertain to all the 18 counties this GA/GR solution applies for.
5. The functionality of this SCR will be disabled until activated by the system property flag established in SCR CA-215669.
6. Miscellaneous Parameter implementation and functionality is covered in SCR CA-215920 covering the technical details of the GA/GR Correspondence Functionality on the CalSAWS side.

2 RECOMMENDATIONS

2.1 Online Non-EDBC Correspondence Generation

2.1.1 Overview

This section covers overall changes that will apply to all GA/GR Automated Online Non-EDBC Correspondences. Online-generated correspondences pertain to the correspondences triggered from various online pages across the system. These correspondences can be triggered upon saving a new data collection record or through clicking form-specific buttons if the worker is in the context of a case that has a GA/GR Automated EDBC/CC Counties program. To follow a standard for all these correspondences, once a form/NOA is triggered from an online page, these records will be inserted in the back end. The worker will be able to see that a correspondence was triggered through navigating to the distributed documents page.

When the record is created in the distributed documents page, this indicates that a request has been sent to the Correspondence Web Service. Upon receiving this request, the service builds the document and determines if any mandatory variables are missing. While the service is processing the information and while the PDF has not been received, the document will appear as a record without a hyperlink on the Distributed Documents page and will have a status of "Incomplete".

Note: Missing Mandatory Variables are only applicable for NOAs.

Search Results Summary Results 1 - 2 of 2

Date	Document Name	Number	Program	Status	Viewed Via Self-Service Portal	Details
08/14/2020 9:41 AM	Overissuance Budget Worksheet (ENG)	NA 1263	CalFresh	Printed Locally		Details
08/13/2020 4:05 PM	GA Denial - Not a Legal Alien	119-4 (02/90)	General Assistance/General Relief	Incomplete		

When the service completes processing CalSAWS will receive either a missing mandatory variable indicator or the document PDF. Once the PDF is received from the service, the document will be saved to the CalSAWS system and the record in Distributed Documents will have a hyperlink to that document.

Distributed Documents Search

Search Results Summary Results 1 - 2 of 2

Date	Document Name	Number	Program	Status	Viewed Via Self-Service Portal	Details
08/14/2020 9:41 AM	Overissuance Budget Worksheet (ENG)	NA 1263	CalFresh	Printed Locally		Details
08/13/2020 4:05 PM	GA Denial - Not a Legal Alien	119-4 (02/90)	General Assistance/General Relief	Pending Review		Details

Upon clicking the hyperlink and viewing the PDF, the worker may select one of two print options, "Save and Print Centrally" or "Save and Print Locally". If the worker does not chose either option, the document will, by default, be sent through the Central Printing process that night.

2.1.2 Description of Changes

1. Upon triggering Online Non-EDBC correspondences (Forms/NOAs), add a back-end process to insert the record to the Distributed Documents page.
2. Before the PDF is received from the Correspondence Web Service, add logic to disable the hyperlink on the Distributed Document record and set the document status to "Incomplete".
3. Once the PDF is received from the Correspondence Web Service, update logic to enable the hyperlink on the Distributed Document record and update the status to "Pending Review", after which the worker will be able to review the document and either save and print it Locally/Centrally.
4. For reason codes that require miscellaneous parameters, these parameters will be derived by CalSAWS Correspondence and sent as part of the request to the GA/GR Correspondence Service.

2.2 Add Online Form triggers for Denied/Applied SSI/SSP Status

2.2.1 Overview

These forms are triggered online when the customer has applied for or is denied/rejected SSI.

2.2.2 Correspondence Information

Reason Code	County	Category	NOA Action	Document Name	Number	Template
1B008A	Orange	Forms	N/A	SSI/SSP Appeal letter	F063-26-58 (R08/15)	610068
1B008C	Santa Cruz	Forms	N/A	Applicant's Authorization for Release of Information (SSI/SSP Claim)	ABCDM 228GA	609734

2.2.3 Description of Change

1. Upon creating/updating the SSIAP Detail record, trigger the correspondence tied to the reason code in the above table when the following conditions are met:
 - a. The SSIAP Client is a recipient on a GA/GR Automated EDBC/CC Counties program that is either "**Active**" or "**Pending**".
 - b. The fields in the below table have changed to the listed Value/s:

Reason Code	Field/s	Value/s
-------------	---------	---------

1B008A	SSI Application Result	"Rejected"
1B008C	Status/Decision	"Approved" or "Approved Other" or "Approved Self"
	SSI Level	"Application"

2.3 Add Online Form Trigger for specific SSI/SSP Application Statuses

2.3.1 Overview

The following forms will trigger depending on the status of the SSI/SSP Application and the verification is not received or questionable

2.3.2 Correspondence Information

Reason Code	County	Category	NOA Action	Document Name	Number	Template
1B008K	All	Forms (OCC*)	N/A	GA/GR SSI/SSP Referral and Follow Up	CSC 29 (11/04)	607491
1B008L	All	Forms (OCC*)	N/A	GA/GR SSI/SSP Referral and Follow Up	CSC 29 (11/04)	607491
1B008M	All	Forms (OCC*)	N/A	GA/GR SSI/SSP Referral and Follow Up	CSC 29 (11/04)	607491
1B008N	All	Forms (OCC*)	N/A	GA/GR SSI/SSP Referral and Follow Up	CSC 29 (11/04)	607491
1B008P	All	Forms (OCC*)	N/A	GA/GR SSI/SSP Referral and Follow Up	CSC 29 (11/04)	607491
1B008Q	All	Forms (OCC*)	N/A	GA/GR SSI/SSP Referral and Follow Up	CSC 29 (11/04)	607491

** note: Other Client Correspondences (OCCs) will be considered under the "Forms" correspondence category in CalSAWS.*

2.3.3 Description of Change

1. Upon saving the SSIAP Detail record, trigger form and reason code in the above table if the SSIAP Client is a recipient on a GA/GR

Automated EDBC/CC Counties Program that is either “**Active**” or “**Pending**” and the following conditions are true:

- a. A new SSIAP Detail record is created or an existing record is updated.
- b. The “Application Signed Date” field is populated and the “Status/Decision” is either
 - i. Approved
 - ii. Approved Other
 - iii. Approved Self
- c. If SSI Verified field is “**Pending**”
- d. The fields in the below table have or are changed to the listed Value/s below to trigger the specified reason code:

Reason Code	Field/s	Value/s
1B008K	Status/Decision	“Approved” or “Approved Other” or “Approved Self”
	SSI Level	“Application”
1B008L	Application Reapplied	“Yes”
1B008M	Refer to Hearing Contractor	“Yes”
	SSI Level	“Hearing”
1B008N	“Decision” under SSI State Hearing	“Approved” or “Approved Other” or “Approved Self”
	SSI Level	“Application”
1B008P	“Decision” under SSI Federal Court	“Approved” or “Approved Other” or “Approved Self”
	SSI Level	“Application”
1B008Q	“Decision” under SSI Appeals Council	“Approved” or “Approved Other” or “Approved Self”
	SSI Level	“Application”

***Note: For reason codes with multiple fields, both fields and values have to be populated with the indicated value.**

2.4 Add Online Form trigger for the Responsible Relative/Alien Sponsor Questionnaire

2.4.1 Overview

This form is generated online when a case member becomes a sponsor of a non-citizen GA/GR recipient.

2.4.2 Correspondence Information

Reason Code	County	Category	NOA Action	Document Name	Number	Template
1B110C	Orange	Forms	N/A	Responsible Relative/Alien Sponsor Questionnaire	F063-26-47 (09/15)	610087

2.4.3 Description of Change

1. Upon saving the Sponsorship Detail record, trigger the form when the following conditions are met:
 - a. If there exists a GA/GR Automated EDBC/CC Counties Program that is either in **"Active"** or **"Pending"** status
 - b. The selected **"Sponsored Non-Citizen"** is a GA/GR recipient.
2. Upon saving the Relationship page, trigger the form when the following conditions are met:
 - a. There is a GA/GR Automated EDBC/CC Counties Program on the case that is either **"Active"** or **"Pending"**.
 - b. The GA/GR recipient's Living in the Home Status (Household Status Detail page) is either:
 - i. Permanently Out of Home
 - ii. Temporarily Out of Home
 - c. A case person's relationship with the GA/GR recipient is **"Responsible Relative"** (Responsible Relative = 'Y').
 - d. Either of the following is true:
 - i. This is a new Relationship record between the two people and there are no previous relationship records.
 - ii. This is a new Relationship record between the two people and there is a previous relationship record where the case person is not a **"Responsible Relative"** to the GA/GR recipient.
 - iii. An existing Relationship record is being updated and the **"Responsible Relative"** indicator was updated from No to Yes.
3. Upon saving the Household Status Detail page, trigger the form when the following conditions are met:

- a. There is a GA/GR Automated EDBC/CC Counties Program on the case that is either "**Active**" or "**Pending**".
- b. The GA/GR recipient's Living in the Home Status is now either:
 - i. Permanently Out of Home
 - ii. Temporarily Out of Home
- c. A case person's relationship with the GA/GR recipient is "**Responsible Relative**" (Responsible Relative = 'Y').

2.5 Add Online Form trigger for the Responsible Relative Letter

2.5.1 Overview

This form is triggered when a case person is established as the responsible relative of a GA/GR recipient.

2.5.2 Correspondence Information

Reason Code	County	Category	NOA Action	Document Name	Number	Template
1B110P	Orange	Forms	N/A	Responsible Relative Letter	F0912-26-48A (05/15)	609785

2.5.3 Description of Change

1. Upon updating the Relationship page, trigger the form when the following conditions are met:
 - a. There is a GA/GR Automated EDBC/CC Counties Program on the case that is either "**Active**" or "**Pending**".
 - b. A case person's relationship with the GA/GR recipient is now "**Responsible Relative**" (Responsible Relative = 'Y').

2.6 Add Online form trigger when applicant signs and dates GA/GR application

2.6.1 Overview

This form is triggered when a GA/GR applicant signs and dates their GA/GR application.

2.6.2 Correspondence Information

Reason Code	County	Category	NOA Action	Document Name	Number	Template
1B501N	Alameda	Forms	N/A	Alameda County Lien	90-117	506646

2.6.3 Description of Change

Trigger the correspondence for the respective county upon saving the Document Signature record and the following conditions are met:

1. The user is in the context of a case with a GA/GR Automated EDBC/CC Counties Program with a status of **“Active”** or **“Pending”**.
2. The document **“Type”** is **“Statement of Facts”**.
3. One of the following is true:
 - a. A new Document Signature record was created and the **“Signed”** indicator is **“Yes”**.
 - or
 - b. An existing Document Signature record was updated and the **“Signed”** indicator has changed to **“Yes”**.

2.7 Add Online trigger for GR Authorization to Release Medical Information Form

2.7.1 Overview

These forms trigger when a GA/GR recipient indicates they are incapacitated/disabled.

2.7.2 Correspondence Information

Reason Code	County	Category	NOA Action	Document Name	Number	Template

1 OVERVIEW

This SCR will implement the household composition and Non-financial functionality for the new CalWIN General Relief (GR) solution in CalSAWS

1.1 Current Design

The General Assistance/General Relief (GA/GR) solution in the CalSAWS system is designed to automate the rules for the Los Angeles county's implementation as well as the automation and monitoring of their GROW program. Currently CalWIN manages their GA/GR program logic by using a Rule Matrix which can be accessed by the county to allow each County Administrator to customize the behavior to their specific county.

1.2 Requests

A new CalWIN GA GR solution will be developed in CalSAWS to automate the rules and administer the program for the 18 CalWIN counties. This solution will provide the framework for the remaining 39 C-IV counties to opt into this solution in the future. This change request will automate the household composition and Non-financial functionality for the new solution

1.3 Overview of Recommendations

1. Add all the required Data Collection elements to implement the Household and Nonfinancial functionalities for the new solution
2. Create new Admin Summary and Detail pages that can be accessed in Admin tools by the County Rule staff
3. A new set of Admin detail pages, Rules, Batch and NOA triggers will be added for the below Household Composition and Non-Financial functionalities:

1. [Citizenship/Non-Citizen Status](#)
2. [Undocumented Non-Citizen](#)
3. [Adult/Child Determination](#)
4. [Marital Status](#)
5. [Sponsored Non-Citizen Cert Period](#)
6. [Amount of GA Support](#)
7. [Identity Check](#)
8. [Included Individuals](#)

1.4 Assumptions

1. The existing Los Angeles county rules will remain unchanged.
2. This SCR CA-228982 is part 2 of 3 SCR that will cover 8 CalWINs ruleset for Household Composition and Non-Financial the remaining ruleset will be designed in SCR CA-21565 and SCR CA-215926.
3. This SCR CA-228982 is based on the WCDS approved documents.
4. The design of the rules is for each CalWIN counties based on the Gainwell documents approved by the county.
5. The functionality of this SCR CA-228982 will be disabled until activated by the system property flag established in SCR CA-215669.
6. Alerts will be handled separately outside the Rules design in a separate SCR CA-220119.
7. Leveraged rules are main rules from another use cases whose logic are also used in this use case. Leveraged rules in this SCR whose main use case are not designed in phase 1 cannot be tested using the admin page. Example: Institutional status use case has a leverage rule that is a main rule in Earned income use case. Since Earned income use case is not designed in phase 1, this leverage rule will not be able to be tested from the admin page.
8. EDBC summary page layout will follow current Los Angeles County GA EDBC summary. The following sections will be in the EDBC summary page, others will be added in later phases: EDBC Header, EDBC Information, Program Configuration, Reporting Configuration, Allotment, Page Mappings (PMCR) and Security (STCR). Note: Allotment will have all 0 for values, and Security will follow current Los Angeles county security framework.
9. All Data collection used in EDBC determination is effective for the benefit month.
10. Identity check functionality checks if individual applied for GR's Immediate need program, this functionality cannot be tested until GR's immediate need is implemented in a different SCR.
11. The term 'data selection date' is referencing the first day of the EDBC benefit month.
12. End to End testing of EDBC and Correspondence will not be possible until 22.01 release.
13. GA/GR will use existing CalSAWS functionality that sets first day of the benefit month as data selection date. EDBC SFU and Non-financial evaluation for GA/GR will use the data selection date to determine which data collection records will be used unless otherwise indicated.
14. All calculation for computed values will detailed in the Visio diagram.
15. 'Participation status' will be an internal flag in CalSAWS, when a participation status is set in the rule it will replace the previous set status for each individual.
16. Logic that checks or creates Sanctions cannot be tested until CA-227328 is implemented.
17. The detailed rules flow, requirement calculation, and status reason conditions will be specified in the Visio document.
18. Any functionality related to Aid-in-kind cannot be tested until phase 2 Financial Functionality income logic which consists of CA-215916, CA-215672 and CA-224578.

19. Non-Applicant FRE with status reason 'Spouse' that is set in the Adult Child Determination functionality cannot be tested until phase 2 development is complete

2.3 EDBC Changes

2.3.1 Overview

Validations for Timely Notice

The GA/GR program will not have the following validations for timely notice when running the EDBC.

- AAP 10-Day Notice Exception
- Admin/Client Error

- Aid Paid Pending Stopped by Order of ALJ
- Waiver on File
- Foster Care 10-Day Notice Exception
- Waiver Not Applicable (FC only)
- Kin-Gap 10-Day Notice Exception
- Mass Change (CF only)

2nd Month Auto Rescind

CalWIN GA/GR solution will use existing CalSAWS logic to auto rescind internally in the EDBC logic for the following month if the initial month is denied and the following month's begin date is within 30 days of the application date.

2.3.2 Description of Changes

Validations for Timely Notice

1. Add a new column 'GR' in the code detail table '10 Day Notice Waiver Reason Code' (CT 398).
2. GA/GR will use existing CalSAWS functionality that sets first day of the benefit month as data selection date. EDBC SFU and Non-financial evaluation for GA/GR will use the data selection date to determine which data collection records will be used unless otherwise indicated.
3. Add the indicator 'N' for the following reason codes for column 'GR' for '10 Day Notice Waiver Reason Code' (CT 398) as shown below:

CODE_NUM_IDENTIF	SHORT_DECODE_NAME	LONG_DECODE_NAME	GR
AA	AAP 10-Day Notice Exception	AAP 10-Day Notice Exception	N
AC	Admin/Client Error	Admin/Client Error	N
AP	Stop Aid Paid Pending	Aid Paid Pending Stopped by Order of ALJ	N
CW	Waiver on File	Waiver on File	N
FC	Foster Care 10-Day Notice Exception	Foster Care 10-Day Notice Exception	N
FW	Waiver Not Applicable (FC only)	Waiver Not Applicable (FC only)	N

KG	Kin-Gap 10-Day Notice Exception	Kin-Gap 10-Day Notice Exception	N
MC	Mass Change (CF only)	Mass Change (CF only)	N

2nd Month Auto Rescind

Current CalSAWS logic will auto rescind for the 2nd month when the 1st month's EDBC is denied and the 2nd month's begin date is within 30 days of the application date (this is not applicable to all programs). Update the existing CalSAWS logic to also apply for CalWIN GA/GR solution only. The rescind will be done internally by the EDBC logic.

2.4 Household Composition

2.4.1 Marital Status Functionality

2.4.1.1 County Rule Matrix – Marital Status

2.4.1.1.1 Overview

A new County Rule Detail page for Marital Status will be created. This page is viewed by the County Administrator to view the list of rules applicable for the marital status functionality to their county.

2.4.1.1.2 Description of Changes

- a. The Admin page matrix for Marital Status will have the below functional categories and its associated flag turned on or off based on the current GA/GR functionality for each County
- b. The activate switch Yes/No indicate if that functionality is applicable to the displayed county.
- c. The functionality is effective dated with begin and end date
- d. The rule functionality can be viewed as of a date using the view date.

2.4.6.3 Correspondence Reason Codes

2.4.6.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.4.6.3.2 Description of Change

1. Reason Code: XAS793 - County Non-Support Reason
 - a. Trigger Condition
 - i. This notice generates for the applicable counties when the program was 'Pending' and is now 'Denied' on the current EDBC with the reason 'County Non-Support Reason'.

2.4.8.3 Correspondence Reason Codes

2.4.8.3.1 Overview

This section describes the Notice of Action (NOA) triggers that will be created depending on the resulting EDBC reason code in the previous sections. Notices only trigger from certain reason codes listed in this section.

The reason codes listed in the rule recommendations are formatted as <CalWIN Reason Code> - <CalSAWS EDBC Display Reason>. The trigger condition describes the statuses and reasons in which the notice will trigger for. The county-specific information describes which counties and actions the notices will generate for, as well as the document name and number that will be displayed on the distributed documents page. The template column determines how notices are grouped when generated.

2.5 Eligibility - Update Code Detail table.

2.5.1 Overview

The code detail table will be updated to allow the following status reason being used for CalWIN to be CalWIN General Relief (GR) specific program status reasons.

2.5.2 Description of Changes

1. Add five new columns in the code table (CT 73 Program Reason Codes)
 - a. The five new columns will be added and used to reference:

New Column	Description
GR Priority	The column will prioritize status reason based to deem which one has a higher priority than another
GR Program Role	This column will determine if the status reason will change the person role when executed
GR Close Program	This column will determine if this status reason will close CalWIN GR program when executed
GR Close Person	This column will determine if this status reason will close the person applying for CalWIN GR program when executed
General Relief	This column will determine if the status reason will be used for CalWIN GR program.

- b. Please reference table A in appendix 6.2 for the values that will be set for each column for the program/person status.
