Non-Committee

Review:
Expedite Approval:
Current Design: In Release 22.02, CalHEERS and CalSAWS were updated to extend postpartum coverage from 60 days to 365 days for eligible pregnant/postpartum individuals starting April 2022 with CA-212145 and CalHEERS Change Request CH-182474 per ACWDL 21-15 and MEDIL I 21-13.

CalSAWS has pregnant/postpartum individuals still receiving 60 days postpartum coverage instead of 365 days.

CalSAWS Batch EDBC functionality allows Batch EDBC to automatically add a standard Journal entry to cases processed by Batch EDBC with:
 Journal Category: Eligibility
 Journal Type: Batch EDBC
 Short Description: Batch EDBC ran for [MONTH/YEAR].
 Long Description: Batch EDBC ran for [MONTH/YEAR]. Batch EDBC processed for the Medi-Cal program for the following reasons: <Batch EDBC Sub-Type Code Short Description>

There is no Batch EDBC Sub-Type Code for Postpartum Care Extension one-time batch processing, so CalSAWS will automatically create the journal entry with a missing reason in the Long Description.

Request:

- Automate the transition of eligible pregnant/postpartum individuals from 60days postpartum coverage to 365 days.
- Provide one-time County lists for County Eligibility Workers to follow-up on any pregnant/postpartum individual not processed after the one-time batch processing is complete.

Recommendation:

- Initiate a one-time process to send Eligibility Determination Requests (EDRs) to CalHEERS and run Batch EDBC for identified pregnant/postpartum individuals.
- Generate one-time County lists to aid the counties to provide postpartum care extension to eligible pregnant/postpartum individuals from 60 days to 365 days after Batch EDBC completes.

Please find the design document attached for details on above recommendation.
