<p>Long Term Solution options for the AAP-FC-KG Resource with multiple Direct Deposit Accts</p> <ul style="list-style-type: none"> Background: The functionality is different than in C-IV because these caregivers are Resources, and the DD is added to the Resource. But the Resource cannot pay simultaneously to more than one DD account. So if a caregiver wants to use different accounts for different children. Proposed Solution #1: Update the direct deposit functionality for resources to be tracked at the program level (similar to C-IV) <ul style="list-style-type: none"> Pros: Workers can set up separate direct deposit accounts by program. It will also be quicker for CalSAWS to develop and Cons: Resources with multiple children on different programs will get multiple pre-notes for the same direct deposit account. Each new case/program will need an additional pre-note for the same account. Proposed Solution #2: Enhance the existing direct deposit functionality on the RDB to be able to store multiple direct deposit accounts. <ul style="list-style-type: none"> Pros: Less resource entries in the RDB and better management of direct deposit accounts. Cons: This will be a fundamental change to how direct deposits are stored and managed in the System, possibly a 500 to 1000 hour enhancement—which means it would likely take significantly longer to deploy than option 1. <p>CER CA-231608 Unmatched SSI/SSA Search Page - Unresolved SSI/SSA Payments</p> <ul style="list-style-type: none"> This will be emailed out to the group. Sheryl will be writing the SCR. 	Sheryl Eppler/Ignacio Lazaro
<p>AAP 791 PAS Phone Numbers</p> <p>A CRFI coming out. The Post Adoptions Section (PAS) field cannot be fill-in because this is a dynamic form, so each county will need to send in the number they want to have populate, and specify if it is a centralized phone number or that of a specific worker. Each county can only provide one number.</p>	Laura Ould

Laura Ould

- Region 5 (Riverside) brought up the issue that staff cannot select Resource names when trying to complete forms and notices for FC/AAP/KG children from the Template Repository. Only the names of persons associated to the case can be selected.
- Laura Ould said to send ticket numbers to her and Ignacio, so they can draw up an SCR for the defect if one does not already exist. One county's ticket number is CS0034048/INC0027011. Laura will let the group know today if there is already an SCR for the defect.
