

Current CalSAWS AWS SSO Login

Note: CalSAWS AWS includes applications like AppStream, Analytics Tools, and Conversion Environments.

Instructions

1. In the first step of the AppStream/AWS login, users are prompted to enter login credentials.

A screenshot of the AWS SSO login interface. At the top is the AWS logo. Below it is the text "Sign in". There is a "Username" label above a text input field containing "cheunga@calsaws.org". Below the input field is a checkbox labeled "Remember username". A large orange button labeled "Next" is positioned below the checkbox. At the bottom, there is a paragraph of text: "By continuing, you agree to the [AWS Customer Agreement](#) or other agreement for AWS services, and the [Privacy Notice](#). This site uses essential cookies. See our [Cookie Notice](#) for more information."

The image shows the AWS sign-in interface. At the top is the AWS logo. Below it, the text "Sign in" is displayed. Underneath, the username "testuser@calsaws.org" is shown with a link "(not you?)". A password field is present with a "Show password" checkbox and a "Forgot password" link. At the bottom are "Sign in" and "Cancel" buttons.

aws

Sign in

Username: testuser@calsaws.org ([not you?](#))

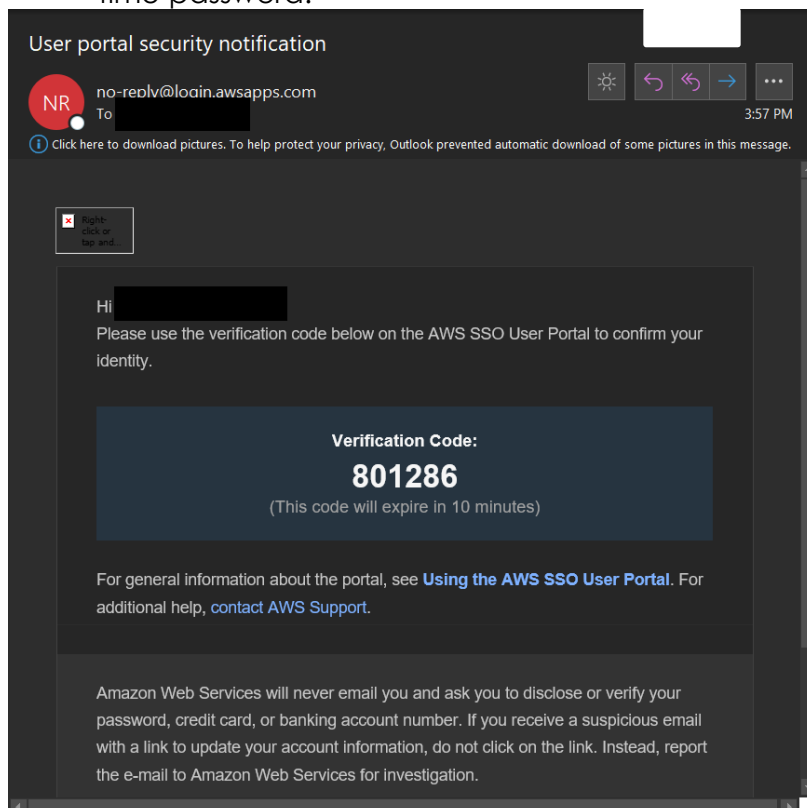

Password

☐ Show password [Forgot password](#)

Sign in

Cancel

2. The user then receives an email from no-reply@login.awsapps.com with a one-time password.

3. Upon receiving this code, the user enters the one-time password on the following screen. Once the one-time password is successfully entered, the user is logged in.

Additional verification required

Username: testuser@calsaws.org (not you?)

If the username you entered was correct, you will receive an email with a verification code. Enter it below to verify your identity.

Verification code

 Looks like this code isn't right. Please try again.
