Table of Contents

1 OVERVIEW

A validation displays on the Run EDBC page for a CalWORKs (CW) program when a Support Questionnaire record does not exist for an absent or unmarried parent. The current conditions will be removed, and new conditions will be applied to display the validation.

1.1 Current Design

A validation displays on the Run EDBC page for a CalWORKs (CW) program when a Support Questionnaire record does not exist for an absent or unmarried parent. The validation displays when the Root Question, "Do any children in the home have at least one Absent Parent or were conceived prior to the marriage of the parents?" is answered 'Yes' and there is no record on the Absent/Unmarried Parent page.

Run EDBC

*- Indicates required fields

| Change Reason | Run EDBC | Cancel |

Benefit Processing Range:

Begin Month: *   **End Month: ***

01/2019 ▼   01/2019 ▼

☐	Program	Status	Timely Notice Exception	Reason	Run Reason
☑	CalWORKs	Pending			

There is no Absent/Unmarried Parent record.

To continue running EDBC, click the "Run EDBC" button.

| Change Reason | Run EDBC | Cancel |

Figure 2.1.1 – Absent/Unmarried Parent record Validation

1.2 Requests

Remove the current conditions and add new conditions, based on relationship statuses and household statutes, that will be applied to display the validation.

1.3 Overview of Recommendations

1. The validation will be updated to list absent/unmarried parents.
2. New conditions will be applied to display the validation.

1.4 Assumptions

None

2   RECOMMENDATIONS

The text of the current validation will be updated, and new conditions will be applied to display the validation.

2.1   Run EDBC page

2.1.1   Overview

The validation will be updated to list absent/unmarried parents and new conditions, based on relationship statuses and household statuses, will be applied to display the validation.

2.1.2   Run EDBC Mockup

Run EDBC

* - Indicates required fields   [Change Reason]   [Run EDBC]   [Cancel]

Benefit Processing Range:

Begin Month: *   **End Month: ***

2.1.3   Description of Changes

1. Update the validation to read as:
   There is no Absent/Unmarried Parent record for the following parent(s):
   • [Name of Parent]

   Note: The text will be in a red font and will not prevent EDBC from being run.

2. Remove the current conditions applied when the validation is displayed

3. The validation will display for the following:
    a. Less than two biological/adoptive parent of the child is in the home
        i. The absent biological/adoptive parent of the child is not deceased.

    Or

    b. At least two biological/adoptive parents of the child are in the home and are unmarried.

If there are multiple parents, that meets either condition above, for a child, the validation will list the parents that do not have an absent/unmarried record.

4. The validation will not display if an absent/unmarried record already exists for the parent.

Note: If multiple children are related to the same parent, only one absent/unmarried record is required for the parent.

2.1.4 Page Location
- **Global:** Eligibility
- **Local:** Customer Information
- **Task:** Run EDBC

2.1.5 Security Updates
N/A

2.1.6 Page Mapping
N/A
