

[CIV-104861] Additional ABAWD Updates

Issue Type:	SCR	Team Responsible:	Eligibility	Assignee:	Cassandra Mestayer
Fix Version/s:	[19.11]	Designer Contact:	Paul Galloway	Change Type (SCR):	Policy Re-Design
Minor Version:		Expedite Changes:	Production Deployment	Estimate:	433
Reporter:	Jason M. Francis	Regulation Reference:	ACL 18-08	Created:	08/15/2019 10:59 AM
Status:	In Development	Impact Analysis:	[N/A]	Outreach Required:	No
Consortium Contact:	Tyler Vaisau	Training Impacted:	[N/A]	Funding Source:	Premise
Project Phase (SCR):	Production	Project Phase (SCR):	Production		
Other Agency Cross Reference:	CA-210031				

Current Design:

1. The ABAWD batch job runs when the system detects an update to data collection records that may change the peron's current ABAWD status. When this batch job runs, it cannot determine whether or not a non-exempt ABAWD is meeting work requirements.
2. CF EDBC setsh the Work Requirement based on the latest Time Limit record for the current or prior month.
3. An ABAWD is not subject to work requirements in a prorated benefit month.
4. The EDBC status reason '3 Countable ABAWD Months Used' is determined when an ABAWD has their 3rd (of greater) countable month in the prior benefit month.
5. In CalSAWS only, a person's ABAWD status is not determined if they have an Ineligible program status.

Request:

1. If the ABAWD job runs and determines a person as a non-exempt ABAWD, no work requirement is determined. Without the user running CF EDBC or manually setting a Time Limit record, the ABAWD Sync job will default that person as not meeting the work requirement. The ABAWD batch job needs to determine the work requirement.
2. For user running the come-up month for CF, a time limit record may not have been created yet. This could result in the EBBC assuming the Work Requirement has not been met.
3. An ABAWD should be discontinued in a prorated month if they have reapplied but did not meet the requirements for regaining eligibility.
4. After an ABAWD has used their three countable months, they should be discontinued with the status reason '3 Countable ABAWD Months Used', even if they were exempt or unaided in the prior benefit month.
5. A person with an Ineligible status is still considered open and should have an ABAWD status.

Recommendation:

1. Update the ABAWD batch job to set the Work Requirement based on the latest time limit record for the current 36-month ABAWD calendar.
2. Update CF EDBC to set ABAWD Work Requirement based on Latest Time Limit Record
3. Update CF EDBC to set a person's status reason to reason '3 Countable ABAWD Months Used' if reapplying and not meeting the conditions for regaining eligibility.
4. Update CF EDBC to set the status reason of '3 Countable ABAWD Months Used' when there is a break in the work requirement after the 3rd countable month.
5. Update CF EDBC (CalSAWS only) to determine an ABAWD status for a person with an Ineligible program status.

For detailed design, see attached design document 'CA-210031_CIV-104861 - Additional ABAWD Updates.docx'.
