This means that States could be expected to be in compliance as early as March 2020.</p> <p>California may be required to submit an updated waiver request under new waiver criteria. FNS has confirmed that our current waiver will be valid until final approval of the new waiver is received. If this is the case, CDSS will take the lead on submitting an updated waiver and will keep impacted counties in the loop.</p> <p>CDSS encourages counties to begin planning for implementation, but would limit these activities to planning that can occur ahead of a final rule as additional details will only come to light once the rule is finalized.</p> <p>-Continued on Next Slide-</p>

Based on the increase in the Consumer Price Index (CPI-W) from the third quarter of 2018 through the third quarter of 2019, Social Security and Supplemental Security Income (SSI) beneficiaries will receive a 1.6 percent increase.</p> <p>On 11/14/19, SAWS met with DHCS to discuss streamlining the release of policy guidance for the Social Security Administration cost of living adjustment and the annual changes to the federal poverty limits. DHCS is going to publish ACWDL as updates become available.</p> <p>On 12/6/19, CDSS provided the following guidance: For the county to take a “county initiated action” there must be enough information available for the county to accurately take action on the CalFresh (CF) budget. Because SAWS does not maintain each household’s standard SSI income amount (i.e. the SSI income amount before any deductions or other adjustments are made) or the household’s most recent SSI income amount paid per SSA, there is not enough available information for the county to accurately apply the SSI COLA increase to the CF budget.</p> <p><b>Therefore, CDSS has instructed SAWS to not take any action on CalFresh cases as a result of the 1/1/20 SSI COLA.</b></p> <p>-Continued on next slide-</p>
