CA-203824 | CIV-11725: Add functionality to manage Conditionally Eligible status in MAGI Determinations	• Update will have the eligibility status show as 'Conditionally Eligible' if at least one of the persons' status is conditionally eligible.
• Release 20.01 • Review/feedback • Presented by Rajan Vadapalli	o There will be a daily sweep which creates this Task. • Creates a Task when there is a 'Conditionally Eligible' individual in the DER. o Counties have the option to turn on or off the alert. • Task (date) will be set after the DER shows conditionally eligible individual. o When working the Task, a new Task will need to be set for the MC355.

CA-209381 | CIV-5165: Add new Negative Action Reasons for Medi-Cal to close the program bypassing the MAGI process	• This adds security driven validation so only certain staff can take this action.
• Release 20.01 • Review/feedback • Presented by Renee Gustafson	o If there isn't a CalHEERS case, this action cannot be taken. o Will not discontinue until the following month if within 10-day. • Counties will need to add this description to a security group, such as Help Desk, Supervisors, Leads, etc.

	  o Negative action will be updated with these reasons.
	  o If selected, need to run month by month (not multiple months).
	• If Ex Parte returns with Soft Pause, will skip and won't run EDBC.
	  o Batch skip currently exists in C-IV, adding to LRS.
	  o Non-MAGI packet will be sent if batch skipped due to Soft Pause.

	  o This notice is in CalWIN which says the RE form was received.
