**Current Design:** Los Angeles County received a file with information they use to create the EDMS Dashboard Reports. This Dashboard captures EDMS imaging statistics from the following files/batches:

- File name: program\_status.txt and case\_office\_file.txt
  - File location: \\dpssrvitd132\users\LRS\_EDMS
- LRS batch job numbers:
- o PO19C945 (program\_status.txt)
  - o PO19C943 (case\_office\_file.txt.)

**Request:** Information received in these files include (but do not distinguish) CalHEERS cases and Confidential cases. Request to add the following information fields to the LRS data file, in order to identify and filter out the CalHEERS and Confidential cases from the report:

- For all Medi-Cal cases, include the "Source" value in Medi-Cal Detail page under the Program Information section.
- Include a confidential case identifier to the LRS file.

**Recommendation:** Add the CalHEERS source and confidential case indicators to the EDMS file.

Add the following information fields to the LRS data file, in order to identify and filter out the CalHEERS and Confidential cases from the report:

- For all Medi-Cal cases, include the field "Source" value in Medi-Cal Detail page under the Program Information section.
- Include a confidential case identifier to the LRS file.

Example confidential case: LA77014

Example Medi-Cal case with CalHEERS application source: B0NG321
