Current Design:	When the C-IV Imaging Solution was introduced in 2009 there was a default group called 'All Users'. This group is not tied to any specific user capability however, it does allow users to import/drag & drop/document copy into the 'Default' drawer which is not monitored by any county.				
Request:	Disable the ability for workers to be able to add documents to the 'Default' drawer.				
Recommendation:	Remove the 'Create/Append' right for the 'Default' Drawer from the 'All Users' group.
