Project Phase (SCR):	Production	Migration Impact:		Funding Source ID:	
Committee:	[Tax Intercept]	Approved by Committee:		Other Agency Cross Reference:	LA County Specific

Non-Committee

Review:

Expedite Approval:

Current Design: TBD

Request: TBD

Recommendation:

This request will ensure that the weekly collections mass upload between TTC and DPSS will work properly after TTC implements their new collections system.

- 1) Update the File Layout of Collection and TTC Inventory Data Forwarded to the Accounts Receivable System. Layouts to be provided by ITD.
- 2) Update the name fields so that each name (first, middle and last) has it's own field
- 3) Add an Alias field
- 4) Update the Address field to allow for longer street names including long street suffixes when they are spelled out (i.e Boulevard) as well as separate field for apt/unit #; ensure mailing address is mapped versus the physical address.
- 5) Update the commission fee rate for USCB from 14 % to 15.65
- 6) Add a Primary Responsible Party indicator field in the Responsible Party Detail page to allow for a hierarchal designation for each Responsible party and update ARS
- 7) Update LRS on a monthly basis with the TTC Account # for each RA referred to TTC and provide an e-mail confirmation.
- 8) Add SSN field to the Program Status data file.

The TTC Collection interface reader has a rounding issue when splitting the amounts for transaction codes 535, 537 and 545, 547.

Project Phase (SCR):	Production	Migration Impact:	No	Funding Source ID:	
Committee:	[Collections]	Approved by Committee:	06/28/2017	Other Agency Cross Reference:	CIV-5503 implemented Release 17.11

Non-Committee

Review:

Expedite Approval: Karen Rapponotti - Approved - 11/18/2019

Current Design:

CIV implemented SCR 5503 in 17.11 release that made updates to the Repayment Term Detail page and the Tax Intercept jobs were also enhanced to consider the Repayment Terms when determining Tax Intercept establishment for CalFresh Recovery Accounts. DFA 377.7F1 and PA 1893 forms populate Due Dates based on the begin date of the repayment term begin date.

Request:

CIV implemented SCR 5503 in 17.11 release that made updates to the Repayment Term Detail page and the Tax Intercept jobs were also enhanced to consider the Repayment Terms when determining Tax Intercept establishment for CalFresh Recovery Accounts.

This change request will update the LRS/CalSAWS system with similar changes that were made in CIV with CIV-5503 for the Repayment Detail Page.

Update the due date population logic for DFA 377.7F1 and PA 1893 forms.

Recommendation:

1. Modifications to the Repayment Term Summary page.
2. Modifications to the Repayment Term Detail page.
3. Update the overpayment Adjustment logic to not look at the Begin Date of the Repayment term record when determining the Benefit Reduction amount for a future month.
4. Create a new REPAY_TERM_DETL table.
5. Update the due date population logic for DFA377.7F1 and PA 1893 forms.

Description:

Migration Impact

Description:

These changes were implemented in CIV with CIV 5503 in 17.01 release and this SCR is to resolve the design differences between CIV and CalSAWS.
