Recommendation text (CA-54658):

Implement functionality to reinstate mandatory CF work requirement participation for PACF as follows:

Create CF disqualifications for non-compliance with welfare-to-work (W-t-W) activities (63-407.53).
Track CF disqualifications by participant CIN.
Determine the number of W-t-W CF disqualification occurrences by the number of previously imposed CF disqualifications for the following programs (63-

SCR	CA-50776	CalFresh Work Requirement Changes	Medium	Yes	New	CalWORKs/CalFresh — Policy Re-Design		Pending	BuiC	TBD	Require the Absent/Unmarried Parent List Page along with all associated pages (Support Questionnaire, Assign Child/Spousal Support Rights Detail Page, Assign Medical Support Rights Detail page, Child Support Cooperation Detail) to be completed when there is a child with an Absent Parent.	Currently, there is no functionality for CF work requirement participation for PACF.
SCR	CA-54995	Require an Absent/Unmarried Record to be Added when a Child with an Absent Parent exists.	Medium	Yes	New	CalWORKs/CalFresh, Medi-Cal/CMSP — Enhancement	CIV-103714	Pending	TranB	TBD	LRS must ensure that every child in the case with an Absent Parent has the information updated.	An Absent/Unmarried Record must be added for each child in the case with an absent parent during: Intake (application), Redetermination, and when a child with an absent parent(s) is added to the Case. LRS must not allow users to run EDBC logic if an absent parent record is missing for any child in the household. Ensure that each child in the household with an Absent Parent is identified through the Support Questionnaire page.
SCR	CA-207600	Allow CF Recertification period to be shortened to align with other programs	Medium	Yes	New	CalWORKs/CalFresh — Policy Re-Design	CIV-4631	Pending	BuiC	TBD		CalFresh certification periods can be shortened at any time to align with the certification periods of other programs but do not. To add more functionality to the system for SB 380 policy. To be determined in design. Add Change Reason logic to the Customer Options Detail page. Identify SSA income as Child Support logic. Add siblings and half-siblings. Additional Notice of Action Denial reasons. Only allow child back in AU mid-period if user makes the request. A mid-period change to Child MAP or Child Support will add child back into AU at SAR or RE

If Unemployment deprivation is determined for a person, the person will retain the deprivation when the person is no longer eligible to Unemployment deprivation at SAR7 and RE. At SAR 7 and RE, persons should have deprivation re-evaluated.
SCR	CA-213299	CW/CF: Skipped Issuance When RE Packet Not Marked Completed	High	Yes	New	CalWORKs/CalFresh, Correspondence	Enhancement	CIV 724	Pending	BuiC	TBD	Issue CalFresh benefits when the redetermination is processed but the CW/CF RE Packet is not marked as completed..	(see description below)
SCR	CA-200863	ACL 19-10 CalFresh Recertification Delayed Processing	High	Yes	New	CalWORKs/CalFresh	Enhancement	CIV-100175	Pending	Moralesl	TBD	Add rescind reason of "Recertificaiton Restoral" with "Restoration of Aid Waiver" less reporting impacts	Add an additional rescind reason of "Recertificaiton Restoral" which would function identically to the rescind reason of "Restoration of Aid Waiver"

CalFresh benefits are not issuing to the EBT card when the CW/CF RE Packet is not marked as completed.

In scenarios when EDBC is run, redetermination record are processed and moved RE due date in future. But CF RE packet is still not marked as completed and still has status as Reviewed-Ready to Run EDBC or N/A. In such scenario running EDBC will not issue benefits to EBT card.

---------Scenario 1--
Scenario1: CF program application was discontinued for reason 'CF Recert Expired' for benefit month (10/2013)and marked prior re-evaluation record as no longer valid and established new re-evaluation record(10/2013 - 9/2014) with corresponding CF RE packet having same status say 'Reviewed - Ready to run EDBC'.
When user logged a Reapplication for same benefit month (10/2013) still it remains associated to existing CF RE packet and skips issuance for benefit month and ongoing(10/2013 and ongoing) even when CF was DS for reason CF recert expired. It should not skip benefits as user reapplied.

-------------Scenario 2----------------------------------
Scenario 2: For CW/CF program with reporting type as Semi Annual Reporting(SAR) - when RE packet is marked as N/A user is able to run EDBC with RE run reason. As RE packet is not marked as completed it results in skipped issuance.
