

[CA-218807] Add ABCD 239.7A with automation

Created: 08/18/2020 01:14 PM - Updated: 08/24/2020 09:19 AM

Status:	New
Project:	CalSAWS
Component/s:	None
Fix Version/s:	None

Type:	CER	Assignee:	Binh Tran
Reporter:	Elisa Miller		
Labels:	None		

Main

Region #:	6
County:	Los Angeles
Submitter's Name:	April Goode
Submitter's Email:	aprilgoode@dpss.lacounty.gov
Submitter's Phone:	(562) 908-6331
Programs Impacted:	CalWORKs
Request:	Issue: The ABCD 239.7A is a State mandated NOA when applying an IPV penalty to a CalWORKs case. Currently, this NOA must be generated manually, outside of the system.

Recommendation:

- Update the Eligibility Non-Compliance Detail Page
 - # The Instance field needs to have programming to distinguish the difference between all types of penalties as noted on the ABCD 239.7A.
 - # Add necessary fields to capture data that needs to be populated on the ABCD 239.7A, such as:
 - Disqualification Action section:
 - o State hearing decision date (when applicable)
 - o Court decision date (when applicable)
 - o Disqualification Consent Agreement date (when applicable)
 - o Administrative Disqualification Hearing Waiver date (when applicable)
 - o Date the participant was disqualified from the CalWORKs Program
 - See CER for sample.
 - Disqualification Penalties Section:
 - o One of the following primary fields must be updated:
 - # Penalties for violations committed before January 1, 1998; or
 - # Penalties for violations committed on or after January 1, 1998.
 - Note: Each time a primary # checkbox is selected, the sub-checkbox may need to be selected as well. For instance:
 - See CER for sample.
 - "According to the violation check above,..." Section:
 - o One of the following checkboxes must be selected "each" time the form is generated as follows:
 - # If the participant is currently being aided, the first box should be checked, and the system should enter the dates of ineligibility based on the instance and/or violation.
 - # If the participant is not currently eligible, the second box should be checked, and the system should enter the number of months/years of ineligibility based on the instance and/or violation.
 - Note: If the participant is currently ineligible due to a sanction/penalty, the IPV cannot be imposed/ start until the sanction/penalty is lifted and the participant is otherwise eligible.
 - # If the participant is permanently disqualified due to the instance and/or violation, the third box should be checked, and the system should enter the effective date of ineligibility.
 - See CER for sample and screenshot.
- LRS must pre-populate all applicable fields and generate the current state version of the ABCD 239.7A upon running EDBC after the Eligibility Non-Compliance Detail page has been updated. This ABCD 239.7A must be generated in all available threshold languages.
