Current Design:	The Housing Support Detail page currently has a validation preventing the Request Date from being set to three months in the past. When the status is set to "Pending," the user is able to enter any date via the date picker. For other statuses, the user can select from a list of request dates that have been previously been entered.
Request:	The validation should only display when the Status is 'Pending,' as otherwise the user is selecting an existing Request Date rather than creating a new one.
Recommendation:	Update the validation message on the Housing Support Detail page that prevents a worker from selecting a Request Date prior to three months in the past to only apply when the Status is 'Pending'.
