Current Design:	CalSAWS Medi-Cal EDBC may grant eligibility to an individual that differs from the eligibility on the MAGI Determination. This can happen in several ways: 1. CalSAWS rules may determine an individual is eligible to both MAGI Medi-Cal and Non-MAGI Medi-Cal in the EDBC. CalSAWS allows the worker to elect one or the other. CalSAWS batch EDBC has logic to determine which benefit to elect. 2. CalSAWS Medi-Cal Hierarchy may grant Mega Mandatory, Deemed Infant, TMC, 4MC, CE or other CPP aid codes that differs from the eligibility on the MAGI Determination. 3. A worker may override the results on the EDBC due to several reason: <Override Reasons> After EDBC is accepted and saved, CalSAWS sends a disposition with the Status and aid code (if applicable) to CalHEERS. There is no element in the disposition to include a reason why the eligibility authorized in SAWS differs from the eligibility in the MAGI Determination. The eHIT schema does not require to send the Medi-Cal Eligibility Status, status dates and/or Aid Code for MAGI Medi-Cal even when it differs from the eligibility in the MAGI Determination. This causes a mismatch of information in the CalSAWS and CalHEERS.
Request:	Send the Medi-Cal Eligibility Status, Status Dates, Aid Code (if applicable) and Authorization Reason in the disposition when the MAGI Determination is used by a saved an accepted EDBC.
