Current Design:**

When CalHEERS determines an individual MAGI Ineligible because the individual was enrolled in an APTC/State Subsidy plan and the requested benefit month is prior to the three retro months of transition from Carry Forward, the DER does not provide an Eligibility Evaluation Reason Code (EERC) to explain that for the county worker.

Request:

With CalHEERS Change Request 159952, CalHEERS will start sending EERC for 'CFS Ended – Requested benefit month is outside of three Retro Months for MAGI Medi-Cal' in eHIT when the benefit month requested is prior to the three retro months prior to the transition month of Carry Forward.

Update The Systems to display the new EERC.

Recommendation:

Assumption: The new EERC is informational only and does not trigger any NOA language.

1. Add the following Eligibility Evaluation Reason Code (CT_466).

Code: CQ

Short Description: CFS Ended – Requested benefit month is outside of 3 Retro Months for MAGI

Long Description: Carry Forward has completed for this person and the requested benefit month is outside of the three Retro Months period and the person is ineligible to MAGI Medi-Cal due to being eligible for Advanced Premium Tax Credit/California Premium Subsidy in that month.

Note: Short Description was edited slightly because the CalHEERS version exceeds the 75 character limit. The new Eligibility Evaluation Reason will display on the below listed pages when received in a MAGI Determination as determined by CalHEERS.

- MAGI Referral Detail
