**Current Design:**

Currently LRS/CalSAWS system does not consider the unposted recovery account recoupments that are associated to same recovery account and to a different case when that recovery account has multiple responsible parties and those responsible parties are receiving aid under different cases for the same benefit month.

**Request:**

1. Update the Overpayment Adjustment Logic to consider the unposted recovery account recoupments that are associated to same recovery account and to a different case. This happens when a recovery account has multiple responsible parties and those responsible parties are receiving aid under different cases for the same benefit month.
2. Update the Benefit Reduction Redistribution Batch EDBC Sweep to consider all the responsible parties on the recovery accounts that are on different cases which are being benefit reduced.

**Recommendation:**

1. Update the Overpayment Adjustment Logic to consider the unposted recovery account recoupments that are associated to same recovery account and to a different case. This happens when a recovery account has multiple responsible parties and those responsible parties are receiving aid under different cases for the same benefit month.

## [CA-200321] Display the Collect button on the Issuance Detail page for all Service Payments

**Expedite Approval: Current Design:**

For Direct Deposit and Warrant Service Payment issuances, the LRS/CalSAWS displays a "Collect" button on the Issuance Detail page. This functionality allows users to create a Recovery Account Overpayment tied to that Issuance.

"Collect" Button does not display on Issuance Detail page for EBT issuances and Supplemental Benefit Warrant Issuances created through a Service Arrangement. Therefore, this SCR should be evaluated and prioritized for migration impacts.

**Request:**

This is a request to close the gap in between C-IV (951) and LRS/CalSAWS. C-IV already has this functionality and LRS/CalSAWS is also being evaluated to consider when the "Collect" button should be shown.

**Recommendation:**

Update the Issuance Detail page to display the "Collect" button for all issuances associated to supportive service payments (where payment\_req\_id exists)

Update the Issuance Detail Online Help page.

**Outreach Description:**

**Migration Impact Description:**

C-IV implemented this change with Tracker 951. This SCR will align LRS/CalSAWS with C-IV and resolve the design difference.

## [CA-203018] DCR "Lomeli" Conversion Cleanup: "End Date" CalFresh Overpayment Admin Caused with Collections over 36 months

**Expedite Approval:**

**Current Design:**

LRS does not have end dates for recovery accounts that were created in the LEADER System with the cause: "CalFresh admin caused."

**Request:**

As required by "Lomeli v. Saenz" ACIN I-09-00 – ACL 00-59, recovery accounts that have cause: "CalFresh Admin Caused" and has been more than 36 months since the end of the benefit month or transaction date (whichever is later) of the first 'Benefit Reduction' transaction type need to have their status changed to "Terminated" and status reason as "Compromise (Lomeli)".

**Example:**

CF Recovery Account with Cause Code 'CalFresh - Admin Error (after 03/2000)'.  
First Transaction of type 'Benefit Reduction' posted on 05/20/2012 for Benefit Month 06/2012.  
Lomeli Termination date would be set as 06/30/2015.

**Recommendation:**

1. Identify the Recovery Accounts based on the following criteria:
  - a. The accounts are converted from LEADER system to the LRS system.
  - b. Cause Code is either 'CalFresh - Admin Caused (prior to 3/2000)' or 'CalFresh - Admin Caused (after 3/2000)'.
  - c. It has been more than 36 months since the end of the benefit month or transaction date (whichever is later) of the first 'Benefit Reduction' transaction type.
    - i. This cut off is calculated by subtracting the end of the benefit month or transaction date (whichever is later) of the first 'Benefit Reduction' transaction type from the system date when the DCR would be applied in production.
    - ii. Please see "Section 1.2 Requests" for an example.
  - d. The Current Balance is greater than ZERO.
  - e. The current status of the Recovery Account is either 'Active', 'Suspended', 'Pending', 'Pending Approval' or 'Pending Agreement'.
  - f. The Account Type is Regular.
2. Once the Accounts are Identified, post a transaction with a Transaction Type of 'Terminated' with a negative amount equal to the outstanding balance on the recovery account.
3. After the transaction is posted as defined in the step above, update the recovery account status to 'Terminated' and status reason to 'Compromised (Lomeli)'.
4. Create a Journal Entry for the recovery accounts identified. The Journal Entry will say – "Recovery Account ##### converted from LEADER to LRS has been Terminated to meet the requirements for Lomeli v. Saenz".
5. Provide a list to Los Angeles County for the impacted recovery accounts after the SCR is applied in production. The layout is attached in the Section 6 for reference.
