Project Phase (SCR):	Production	Funding Source ID:			
Other Agency Cross Reference:	CIV-104441				

Current Design: For beneficiaries who have a share-of-cost (SOC), counties should be screening for potential 250% Working Disabled Program (WDP) eligibility. C-IV currently tests for 250% if the customer has a share of cost (SOC) and meets the eligibility criteria for the 250% WD program.

Request: There are three outstanding C-IV SCRs regarding the 250% WDP as follows:
CIV-100 - Update the treatment of SDI/TWC in the 250% WDP
CIV-283 - ACWDL 01-18,01-51, 08-42: Use separate MFBU for MC 250% WD Persons
CIV-437 - ACWDL 11-38: Changes to the 250% WD program

These SCRs will be rejected and updates required in these SCRs will be addressed with this ACWDL update. These same issues exist in LRS.

- Recommendation:**
1. Evaluate the exemption of all disability based income, more specifically Temporary Workmen's Compensation and State Disability Insurance (SDI)
 2. Update the MFBU's when a 250% WD person is part of the household. A 250% WD person should be treated as an 'Other Public Assistance (PA) member.
 3. Add a new source type for liquid property of "Retained Earned Income".
 4. When a 250% WD person's Social Security changes from disability to retirement, allow the retirement income to continue to be excluded.
