Description: (Including any step-by-step instructions)	**Purpose** The purpose of this CIT is to provide Los Angeles County with an Imaging Infographic, which can be printed or displayed virtually. **Background** As we move toward implementation of the CalSAWS Imaging Solution for Los Angeles County, the Change Management Team would like to provide Imaging End Users with a high-level overview of the upcoming Imaging changes. **Recommended Usage** The Change Management Team has developed an Infographic that introduces the CalSAWS Imaging Solution in a succinct and engaging manner. The Infographic is designed to be shared in multiple ways, such as: printed and posted in the office, emailed, posted on internal sites, or displayed during meetings/presentations. The Change Management Team has provided the Infographic in two different color schemes to support sharing in any of these ways. **Recommended Recipients**

	LA County is encouraged to disseminate this infographic to all LRS/CalSAWS users so that all or most end-users will have access to the information.
