**Note:** \* The 3 C-IV Dashboards in Release G will be hard launched on September 2, 2021

#### 5.1.2 Soft Launch

- ▶ Continued pre-County Validation testing on Release H dashboards and reports

#### 5.1.3 Production (Hard Launch)

- ▶ No incidents reported affecting the generation of Analytics dashboards or reports in production

#### 5.1.4 Performance and Scalability

- ▶ Completed all soft and hard launch deployed dashboards and reports (Los Angeles data only) within the batch window
- ▶ Continued 40 County Analytics Isolation Performance testing on release H code base (this will be the final code base prior to cutover)
  - Identified potential performance issue with Data Lake to RDS dashboard jobs. DBA recommendation is to increase to next instance size to avoid jobs being CPU bound on writer instance. Plan to re-test this recommendation this week.
- ▶ Batch End-to-End Performance Testing (with 40 County Data) – Analytics
  - Reviewing latest run (July 15 – 16, 2021) of Release H end to end code to compare to isolation test results and see if new indexes improved ingestion timings
  - Began monthly job 40 County testing

### **5.1.5 40 County System Test**

- ▶ Continued executing 40 County System Test on dashboards and reports that have been soft launched and are in production. Report testing is 95% complete and dashboards is 87% complete and team remains on-plan to complete by August 8, 2021

### **5.1.6 User Acceptance Testing (UAT)**

- ▶ Continued to provide Analytics team support for UAT
- ▶ Continued to review the Analytics inventory as well as the UAT batch schedule to generate and deliver dashboard and reports during the UAT timeframe as new reports and dashboards become available. Release H to be delivered with new GDS 6 next week.
- ▶ Dashboard and Reports Open Items:
  - Deployed Call Log and SAR dashboards but there was no identified front-page tab to add the link to. Team has sent proposed front-end design to Consortium Technical team (CT). This is still pending approval from the Consortium Technical team. UAT testers can access through, a provided, direct link to the dashboard that is not available from front page
  - Deployed Release H Reports for UAT by July 26, 2021

### **5.1.7 Development and Testing**

- ▶ Release H
  - Created SCR CA-230429 to track the progress on the remaining 3 C-IV reports rescheduled from Release H. Overview of prototype for these is scheduled for this week. These reports are planned for deployment prior to the C-IV Counties' cutover to the CalSAWS System
    - Longitudinal Analysis Report - Solution is in progress and a demonstration to the Consortium is targeted for mid-July
    - Engagement Analysis Report - Solution is in progress and a demonstration to the Consortium is targeted for mid-July
    - Caseload Inventory Report – Development and testing remains in progress
- ▶ Release I
  - Dashboards
    - Curation build, dashboards build, and testing are in progress and on schedule for the October 29, 2021 soft launch
