Current Design: On MSUDRP Assessment Summary Detail page, if a participant received positive results and requires outpatient care, fields appear indicating if a bus pass is necessary. Currently, the worker recording information on the MSUDRP Assessment Summary Detail is different than the GR worker and they do not have the ability to issue bus passes. The assessment worker manually notifies the GR worker to issue the bus pass when the need is indicated.

Request: Update the MSUDRP Assessment Summary Detail page to auto generate a task for the GR worker when the bus pass begin date or end date is modified.

- Recommendation:**
1. On the MSUDRP Assessment Summary Detail page, generate the new bus pass task every time the Bus Pass Begin Date or Bus Pass End Date is modified. Below are the details for the auto-generated bus pass task:
 - a. Trigger Condition
 - i. Bus Pass Begin Date or Bus Pass End Date fields are modified, and the MSUDRP Assessment Summary Detail page is saved.
