#### 5.1.2 Soft Launch

- ▶ Scheduled upcoming Soft Launch for October 27, 2021

#### 5.1.3 Production (Hard Launch)

- ▶ Deployed Hard Launch 4 successfully on September 15, 2021
  - Hard Launch 4 was moved to September 15, 2021 due to slowness in the ForgeRock response times which is required to be run to map the roles to the On-Request reports

#### 5.1.4 Performance and Scalability

- ▶ Completed all hard launch deployed dashboards and reports (Los Angeles data only) within the batch window
- ▶ Completed 40 County Analytics Isolation Performance testing on release H code base now on Golden Date Set (GDS) 6
  - Special focus on performance issues seen on incremental Workload Productivity Report (WPR) jobs. Deployed new performance fixes to production September 13, 2021
- ▶ Completed the Fiscal Claiming start time analysis using the FIS average data available on the CalSAWS SharePoint. Met on September 13, 2021 to review data. Consortium Decision:
  - SLA will be set for receiving these files from FIS by 12:30 a.m.
  - If all the files are not received by 12:30 a.m., the reports jobs will wait for all files for all Counties, and fiscal claiming, potentially missing the 6:00 a.m. SLA window

## CalSAWS – California Statewide Automated Welfare System

CalSAWS DD&I Project Phase

Weekly Status Report Period: September 13, 2021 to September 19, 2021

- Batch team will work with Consortium to put together an escalation process where we can potentially release the reports if all, but a handful of files are not received by a certain time
- Team will begin working on having a Sunday batch schedule specifically for reports to minimize the impact of having to run both Sunday's reports and Monday's reports on Monday's batch
- ▶ Continued performance testing on the Elastic MapReduce (EMR) cluster on Golden Data Set (GDS) 6 as a potential future performance increase (we will review the cost benefits with the Consortium this week)

### 5.1.5 Development and Testing

- ▶ Release I
  - Dashboards
    - Continued curation build, dashboards build, and testing. The soft launch scheduled for October 27, 2021 remains on schedule
