Description: (Including any step-by-step instructions)	**Purpose** CalSAWS is introducing a new and improved VPN Service **vpn.calsaws.net** which replaces the older C-IV VPN. The new VPN comes with added security enhancements one of which is channeling all traffic (internet and intranet) through the Data Center. As a result of this, certain internet sites may not be accessible anymore and when initially connecting to this VPN, there would be a brief network disruption. When connecting to the CalSAWS VPN all traffic will be tunneled through the VPN connection. Local network access will not be accessible. **Background** The C-IV Data Centers (DDC and PDC) are going to be decommissioned. The C-IV VPN, ddcvpn001.c-iv.net and pdcvpn001.c-iv.net will no longer work. The new VPN, vpn.calsaws.net, must be used going forward. **County Action**

	PPOCs are responsible for sharing this communication with their TPOCs. County staff with CalSAWS VPN access should start using vpn.calsaws.net immediately. C-IV VPN, will stop working on the following dates • ddcvpn001.c-iv.net – 11/1/2021 • pdcvpn001.c-iv.net – 11/20/2021 If you have any questions, please contact the Primary Project Contact listed below.
