Current Design: For the CW/RCA and CF Programs when the SAR7 or RE EDBC's run with any new Income added etc., that negatively impacts the benefits, after the 10-day NOA cutoff for the SAR7/RE due month and if the EDBC is run after the SAR7 or RE due month, the EDBC is reducing the benefits without providing timely NOA and applying the changes.

Request: Benefits cannot be reduced after ten-day, even when based on a late SAR7 report. The request is to not apply the negative impact changes before the 10-day notice and reduce the benefits. The negative impact changes should apply after giving the timely Notice of Action and should reduce the benefits.

Recommendation: Update EDBC to not allow a benefit reduction after ten-day for a late processed SAR7/RE.
