<b>Programs Impacted:</b>	CalWORKs
<b>Request:</b>	<ol style="list-style-type: none"> <li>1. CalWORKs and Immediate Need program blocks are both pending. When a negative action or online EDBC is ran to approve or deny the CalWORKs program block, the system does not trigger a hard validation to inform the worker that action needs to be taken on the Immediate Need Program block. This can cause the Immediate Need Program block to remain pending in error.</li> <li>2. When Negative Action is taken on CalWORKs for Verbal/Written Withdrawal and the Immediate Need is also ran, no NOA generates for the IN.</li> </ol>
<b>Recommendation:</b>	<ol style="list-style-type: none"> <li>1. Implement a hard validation when running a negative action or online EDBC to informing the worker that the CalWORKs program can not be actioned without running the Immediate Need at the same time.</li> <li>2. A Denial NOA should generate with the reason selected for Negative Action or if no Negative Action reason is selected, a Denial NOA should generated stating no CalWORKs eligibility.</li> </ol>
