Description: (Including any step-by-step instructions)	**Purpose** The purpose of this CIT is to provide Los Angeles County with an Imaging Infographic, which can be printed or displayed virtually. **Background** The CalSAWS Project has implemented functional changes in the CalSAWS Imaging Solution since September 2021 that are not yet reflected in the Imaging Web-Based Training modules (WBTs). The Change Management team has created an infographic that summarizes these changes to ensure that Los Angeles County Imaging users are aware of them as they continue to prepare for the Los Angeles County implementation of the CalSAWS Imaging Solution. **Additional Information:** Infographics are designed to be shared in multiple ways, such as: • Printed and posted in the office, • Emailed, • Posted on internal county sites (Intranet and/or Shared Local Drives), or • Displayed during meetings/presentations.

	County Action: LA County is encouraged to disseminate this infographic to all CalSAWS users so that all or most end-users will have access to the information. If you have questions on this CIT, please reach out to the Primary Contact and cc your Regional Managers.
