

# 3

Breakout Session 3

## Getting Hands-on with System, Processes, and Data

Waves of Change

# Agenda

- ① Welcome and Introductions
- ② Session Overview
  - A. **County Data Validation**, including what it is, when it is scheduled for each wave, how it works, who is involved, and what to expect
  - B. **User Acceptance Testing (UAT)** for all 18 CalWIN counties status, including the key themes and upcoming activities
  - C. **Process Simulation**, including what it is, when it is scheduled for each wave, how it works, who is involved, and what to expect
- ③ Panel Discussion and Q&A
- ④ Breakout Session Survey

# Ground Rules

1. Mute audio/video unless speaking.
2. If you have a question, please raise your hand and wait to be acknowledged before coming off mute.
3. Wait until all content is presented before asking verbal questions.
4. Questions in chat will be monitored and most will be addressed during Q&A.
5. Keep speaking and questions to 2 minutes.

# Introductions

## Getting Hands-on with Systems, Processes, and Data – Presenters and Moderator

**Kristin Pepper**  
*ClearBest QA  
Functional Manager*

**Rachel Hernandez**  
*ClearBest QA  
UAT Lead*

**Duncan Gilliam**  
*Deloitte BPR  
Manager*

**Wendy  
Battermann**  
*ClearBest  
Executive &  
Moderator*

# Getting Hands-on with System, Processes, and Data

## Overview

### County Data Validation (CDV)

#### Do My Cases Look Right?

- Review of converted data following a Mock Conversion; by Wave
- The Security Profiles gathered via the CRFIs prior to each Mock, by Wave, will be leveraged
- Participants will follow navigation scripts to validate that data converted correctly
- Any defects identified will be documented in Jira by the Consortium/QA Teams

### User Acceptance Test (UAT)

#### One-Time Hands-On System End-to-End System Functionality Validation for All 18 Counties

- Does the functionality function per approved requirements and production functionality continue to function as expected
- 100% of UAT Test Cases have been executed
- No Open Priority 1-High/Non-Cosmetic DD&I Defect
- Open Priority 2-Normal/Medium DD&I Defects have been analyzed and categorized and dispositioned
- Test results and summary reports have been completed

### Process Simulation

#### Validation of Steps, Handoffs and Associated Configuration to Validate Future (To-be) Business Processes

- Business scenarios are executed end-to-end with defined handoffs from different county staff
- Validate expectations of how CalSAWS will work to support Counties' business processes
- Document findings in the case that any processes and/or CalSAWS configuration should be updated before Go-Live

# Getting Hands-on with System, Processes, and Data

## Getting hands CDV, UAT, and Process Simulation

Area	Timing	County Effort	Skill Sets
<b>County Data Validation</b>	<b>Wave-by-Wave*</b> Wave 1 (plus Contra Costa): Jun 20 - Jul 1, 2022	<ul style="list-style-type: none"><li>• <b>Optional activity</b></li><li>• Counties can identify up to <b>20 participants</b></li></ul>	<ul style="list-style-type: none"><li>• Eligibility and/or Employment Services case carrying staff and subject matter experts (SME)</li><li>• Fiscal SME</li></ul>
<b>UAT</b>	<b>18 Counties Together</b> Jun 27 – Sep 2, 2022	<ul style="list-style-type: none"><li>• <b>4-Week</b> commitment per program/functional area</li><li>• <b>2 UAT Security Administrators</b> (Max)</li><li>• <b>15 Testers</b> per CalWIN County (Max)</li><li>• <b>1 per 15</b> program/functional area</li></ul>	<ul style="list-style-type: none"><li>• Deep and/or broad program policy and functional knowledge SAWS and public portal applications</li><li>• Ability to analyze and identify issues/concerns</li><li>• Ability to communicate effectively succinctly, and self-directed</li></ul>
<b>Process Simulation</b>	<b>Wave-by-Wave*</b> Wave 1 (Yolo and Placer): Jul 25 - Aug 19, 2022	<ul style="list-style-type: none"><li>• <b>Part-time activity</b></li><li>• Counties can identify up to <b>20 participants</b></li></ul>	<ul style="list-style-type: none"><li>• Configuration resources and roles supporting key county processes</li><li>• UAT resources</li></ul>

\* Timeframes for Waves 2-6 coming soon

# County Data Validation

## What is County Data Validation?

County participants have an **optional** opportunity to see their converted cases

*"Do my cases look right?"*

# County Data Validation

CDV Wave 1 (Placer, Yolo plus Contra Costa)

## ■ Participants

- 16 Contra Costa
- 11 Placer
- 13 Yolo

## ■ Twice Daily Calls

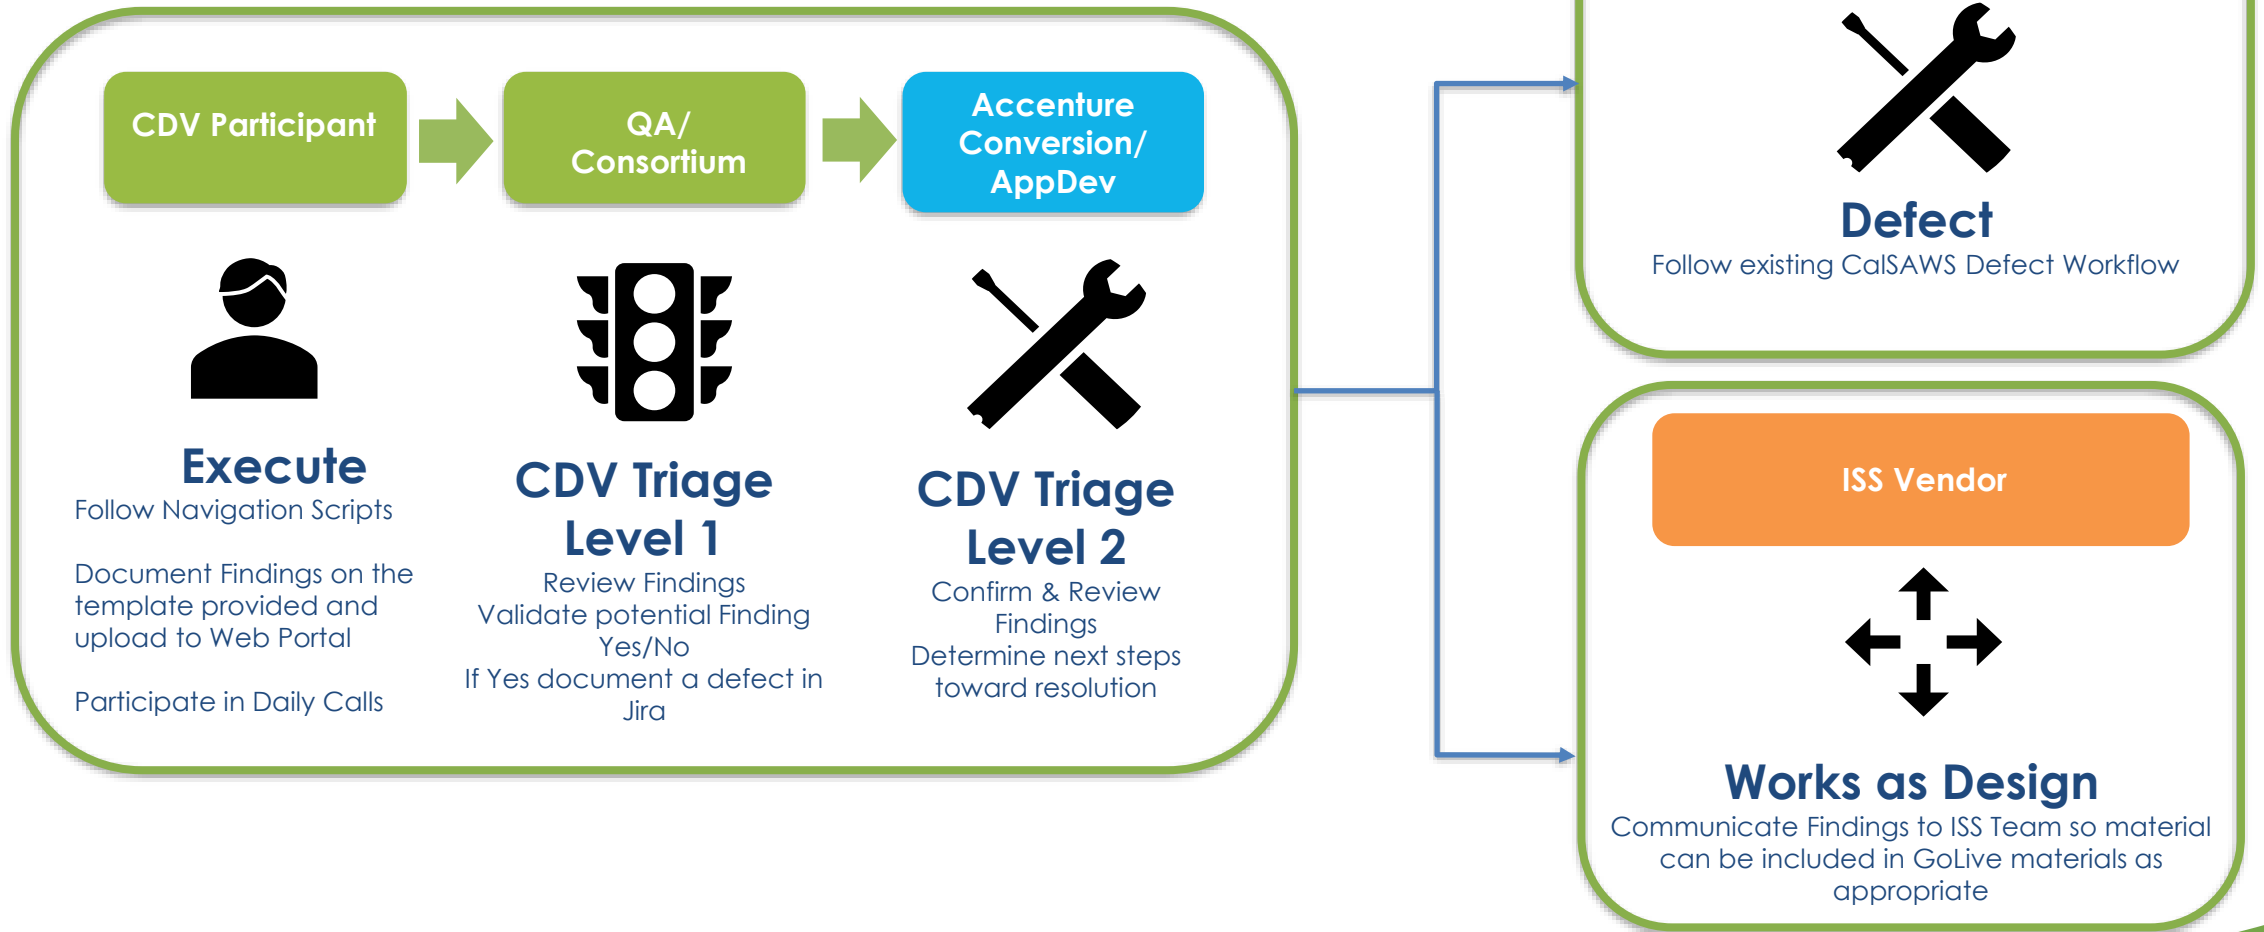

- Office Hours  
(9:00 – 10:30 AM)
- End-of-Day Triage Call  
(4:00 – 5:00 PM)

## ■ Wave 1 Real Time Stats!!!

# County Data Validation

## CDV Approach and Process Workflow

# County Data Validation

## What to expect

- Navigation scripts
- Latest Golden (converted) Data Set with up-to-date defects resolutions
  - Converted GA/GR cases and programs
  - Converted CalWIN County Ancillary Systems data (Collections, Fraud, and Task Mgmt.)

### CalSAWS | County Data Validation Case Review – Fiscal

#### Instructions

Fiscal staff will need to review selected converted case issuance information prior to taking action (i.e., Cancelling or re-issuing an issuance for paper user will review, be sure to review each element on the page. If data is not there, click the view button to display all the available data described is not viewable, user may need to confirm the appropriate security rights have been assigned.

Follow the steps below to conduct a review:

\*Note: If user needs to complete a case search for a case to review, follow the steps located at the bottom of this document.

See below for page description and mapping.

Data Validation Steps	Screenshot
1 Log in CalSAWS	
2 On the Homepage, Enter in the case number and click on the Submit button.	

Enhanced descriptions of validation steps and screenshots!

Data Validation Steps	Screenshot
3 To view the Issuance History Detail Page: Click the following: Global Nav: Case Info Local Nav: Case Summary Task Nav: Issuance History	
4 The Issuance History page defaults to a 3 month view.	

# County Data Validation

## Timelines for Waves 1 - 3

Task	Wave 1	Wave 2	Wave 3
	Timeframe	Timeframe	Timeframe
<b>Consortium to Send CRFI Security Profile</b>	✓ Complete	7/5/2022 - 7/19/2022	11/1/2022 - 11/15/2022
<b>CDV Participant Training</b>	✓ Complete	Sept 2022	Jan 2022
<b>Connectivity to CDV Environment confirmed</b>	✓ Complete	9/19/2022	1/16/2023
<b>Counties to Attend CDV Kick Off Meeting</b>	✓ Complete	9/26/2022	1/23/2023
<b>CalSAWS to Execute/Support CDV</b>	6/20/2022 - 7/1/2022	10/3/2022 - 10/14/2022	1/30/2023 - 2/10/2023

Timeframes for Waves 4 – 6 coming soon

Cal 58 WS

Waves of Change

# User Acceptance Testing

CalWIN Counties will be able to:

- Validate CalSAWS and BenefitsCal application functionality
- Use common and critical end-to-end scenarios
- Use application production functionality

# User Acceptance Testing

## Validation

### ■ Validating CalSAWS and BenefitsCal Application Production Functionality:

- Intake and Ongoing
- Journal entries
- Task management
- BenefitsCal e-apps
- Imaging
- EDBC
- Correspondence
- Reports are integrated in all applicable program areas

# User Acceptance Testing

## Validation

- **Specific Functionality for CalWIN, including GA/GR rules and CC and reports**
- **C-IV Migration Lessons Learned, such as:**
  - Fiscal Status Workflows
  - Journals
  - Tasks
  - Imaging
  - Correspondence
  - Reports
- **Unscripted testing can be conducted after all daily assignments are complete**

# User Acceptance Testing

## 18 CalWIN Counties

## Two Groups

### Group 1

1. Manage Personnel
2. Lobby Management
3. CW, CF, Non-FC Resource Data Bank (RDB)
4. CAPI
5. Child Care
6. WTW, FSET, Cal-Learn

### Group 2

7. GAGR
8. MC. CMSP
9. FC, AAP, KG, ARC, FC RDB
10. Fiscal Issuance, Reports
11. Fiscal OP/OI, Reports
12. Special Units – Hearings & Investigations
13. Special Units – QA, Error Prone, IEVS
14. State Reports

### **300 participants**

- **2 UAT Security Administrators** (max)
- **15 testers** per CalWIN County (max)
- **4-week commitment** (min)
- Program/Area SMEs

# User Acceptance Testing

## Key Tasks and Status

Task	Group 1	Group 2
CalSAWS UAT Plan Approved	✓ Completed	✓ Completed
Select and Confirm CalSAWS UAT Participants	✓ Completed	✓ Completed
UAT Users Loaded to ForgeRock/UAT Environments and Applications	✓ Completed	✓ Completed
UAT Test Script Development	✓ Completed	In progress (target end 7/1/2022)
UAT Environment setup	✓ Completed	✓ Completed
UAT Application Training	✓ Completed	In Progress (6/13/2022 -7/8/2022)
Execution Kick-Off Process Training	✓ Completed	7/20/2022 – 7/21/2022
UAT Execution	6/27/2022 – 7/22/2022	7/25/2022 – 8/19/2022
UAT Test Execution optional Retest	7/25/2022 – 8/12/2022	8/22/2022 – 9/2/2022
Evaluate and confirm Exit criteria	9/2/2022	9/2/2022

# User Acceptance Testing

## User Acceptance Functionality – Program/Functional

### Targeted Functional Testing

focuses on the  
CalSAWS Application Functionality

### A Day-in-the-Life / End-to-End Scenarios

cover a variety of common and critical conditions covering multiple program and functions for a single case using converted and new data

# User Acceptance Testing

## A Day in the Life

### Daily Meetings

Monday Kickoff	1:00 – 1:30 pm
Daily Stand-up	9:00 – 9:30 am
Daily Triage	3:00 – 4:00 pm

### Test Execution

Receive Assignments  
Execute Scripts  
Document Results  
Log Findings  
Re-test Defects

### Support

- Zoom bridge line
- [CalSAWS.UAT@calsaws.org](mailto:CalSAWS.UAT@calsaws.org)
- CalSAWS UAT Web Portal

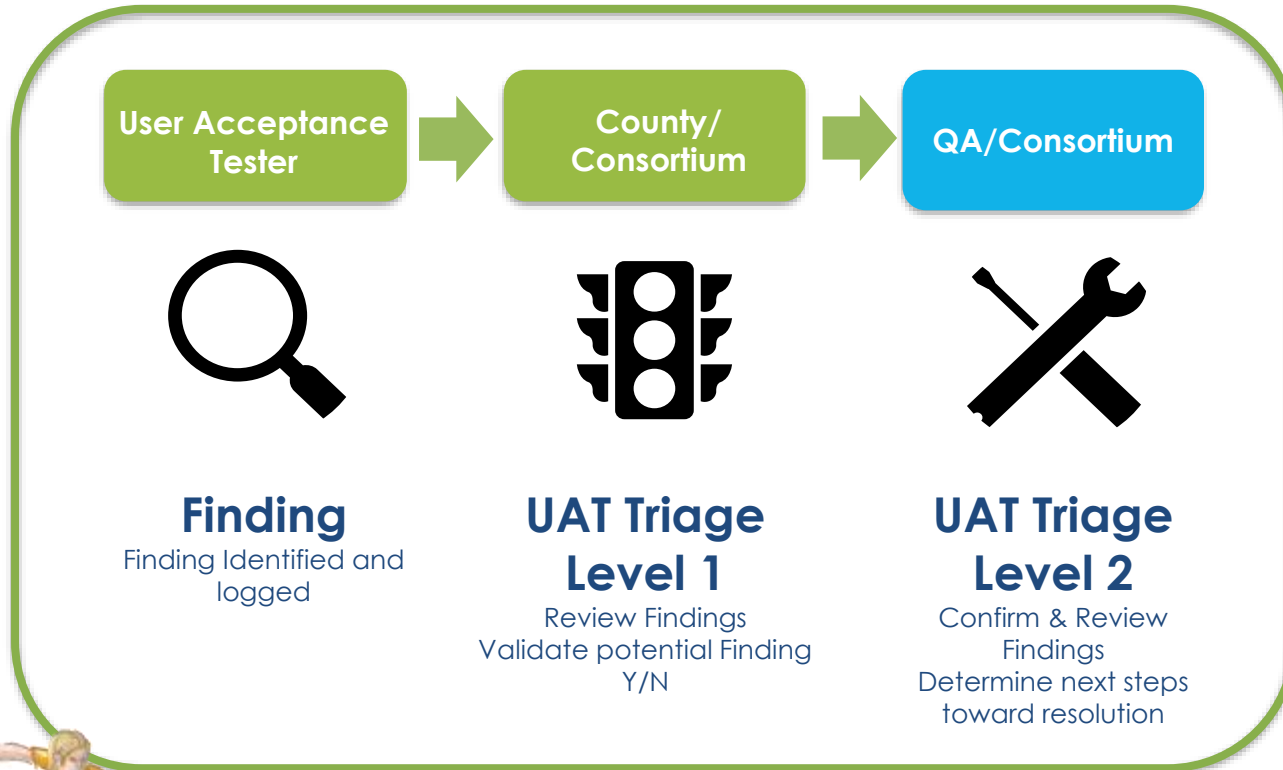

### Security

Monitor and  
maintain county  
Security roles and  
rights

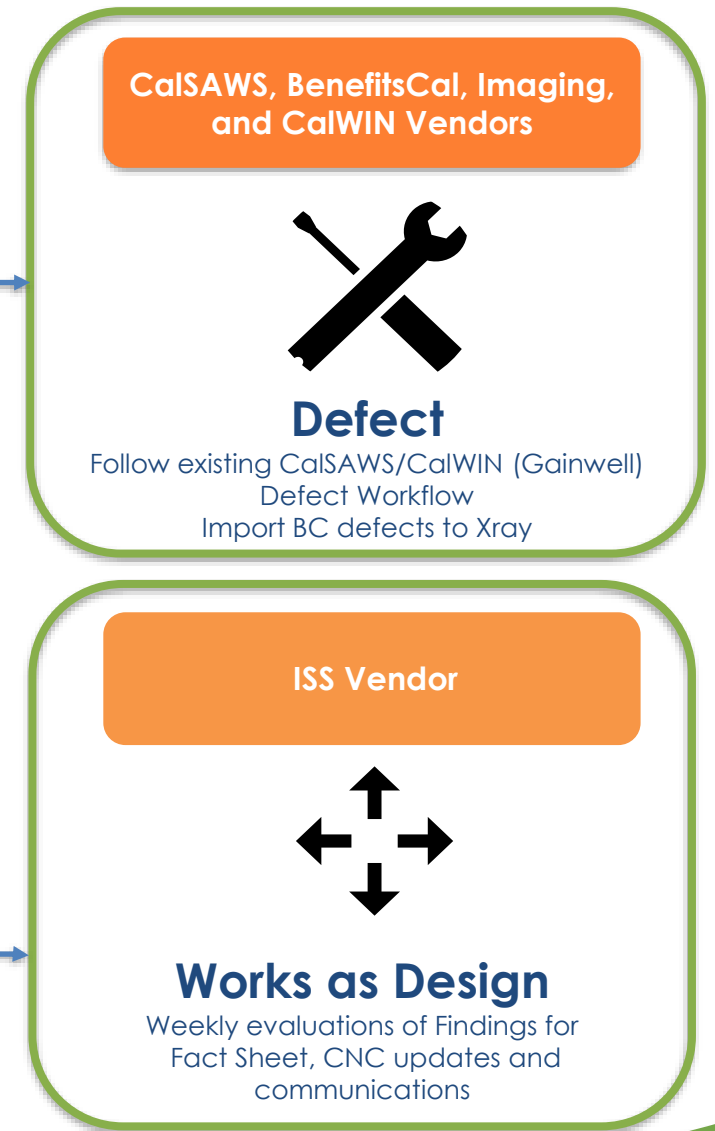

# User Acceptance Testing

## Finding-Defect Process Workflow

*\* Finding and Level 1-2 Triage occur on same day*

# Process Simulation

CalWIN Counties will be able to validate key business processes and confirm configurations in a production-like environment

# Process Simulation

## Overview

### What Process Simulation Is

---

- Simulation of **To-Be processes** in a production-like environment, that is **as real as possible**
- **Confirmation of county configuration** for defined process simulation scenarios
- A chance to **confirm that To-Be processes work in CalSAWS** before Go-Live

### What Process Simulation is NOT

---

- A validation of converted data (covered by County Data Validation (CDV))
- A functional test or performance test of CalSAWS (covered by User Acceptance Test (UAT))
- A test of participants' knowledge of CalSAWS (covered by Training)
- A test of all potential business scenarios (covered by Pre- and Post-Implementation Support for Counties)

# Process Simulation

## Overview

### How does it work?

---

#### Inputs

##### Real people, process, technology:

- Scenarios documented and mapped to To-Be business processes
- Production-like environment is available
- County configurations are loaded into environment

#### Execution

##### Real scenarios:

- Defined...**not scripted**
- Executed with:
  - Real-Life Security Roles
  - Real-Life Configuration of CalSAWS

#### Outputs

##### Opportunities to adjust before go-live:

- Validate expectations of how county business processes will work with CalSAWS
- Document “Findings” related to business process and configuration to be addressed before Go-Live
- Gather additional OCM and/or Training input to be considered

# Process Simulation

## Overview

### Entry Criteria

---

- No critical defects impacting Process Simulation scenarios
- County Configurations required for scenarios are loaded in the UAT environment

### Exit Criteria

---

- 100% of planned scenarios are executed
- Findings are captured with mutually agreed-upon disposition, and necessary adjustments are made for Go-Live

# Getting Hands-on with System, Process, and Data

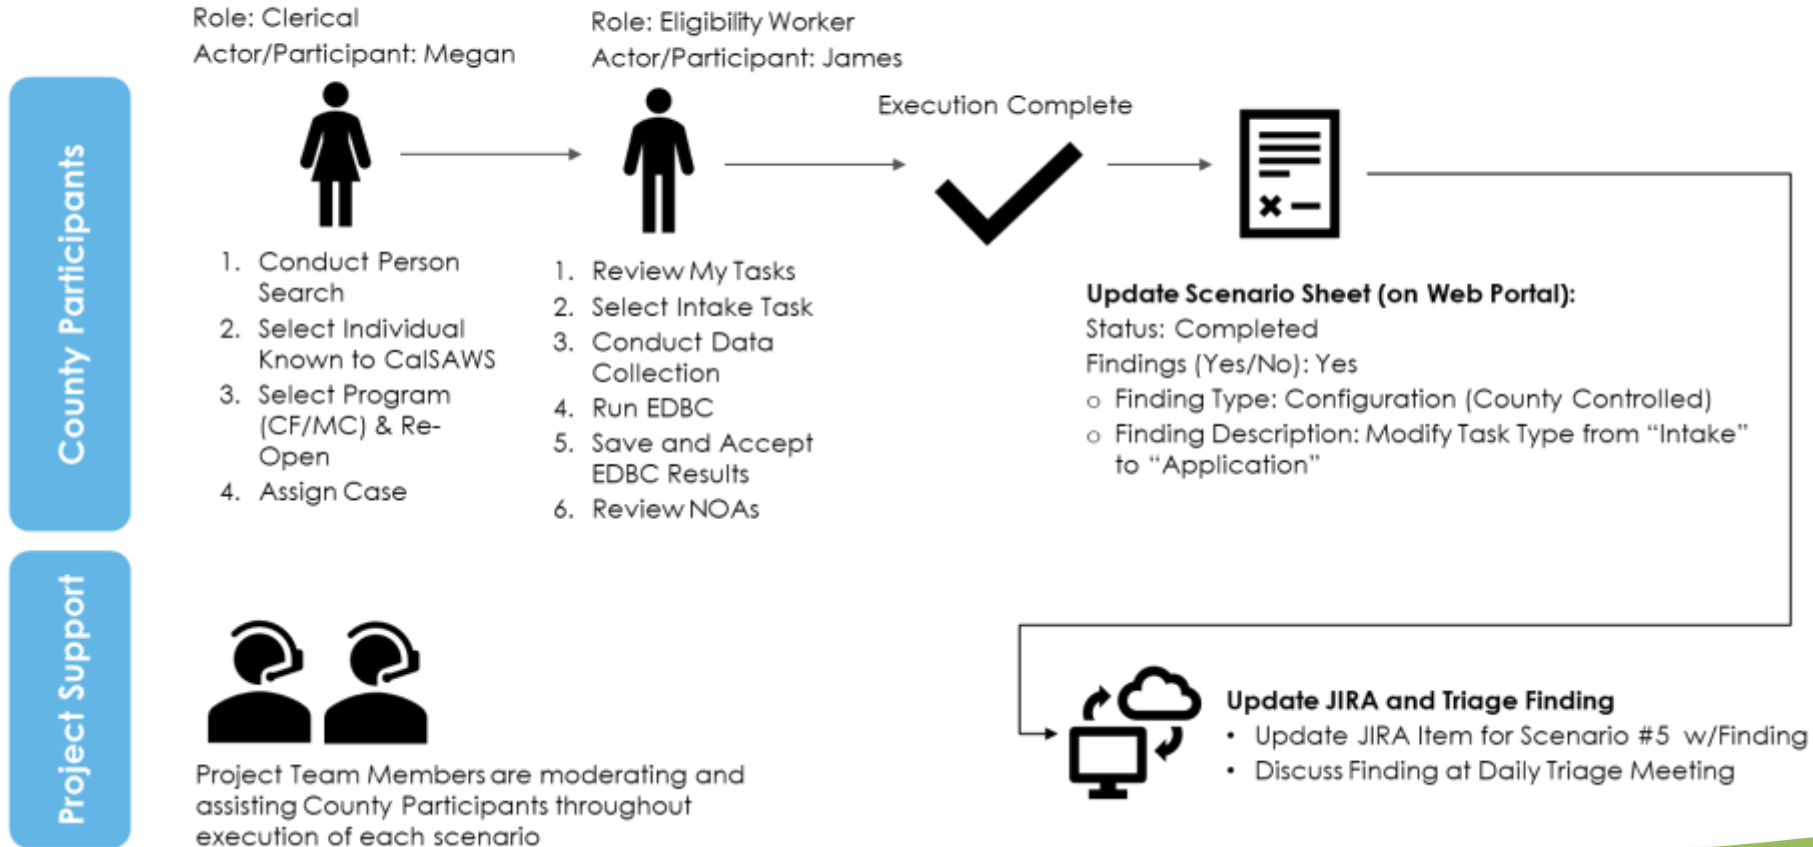

## Process Simulation – Sample Scenario

### Scenario Information

Scenario #5

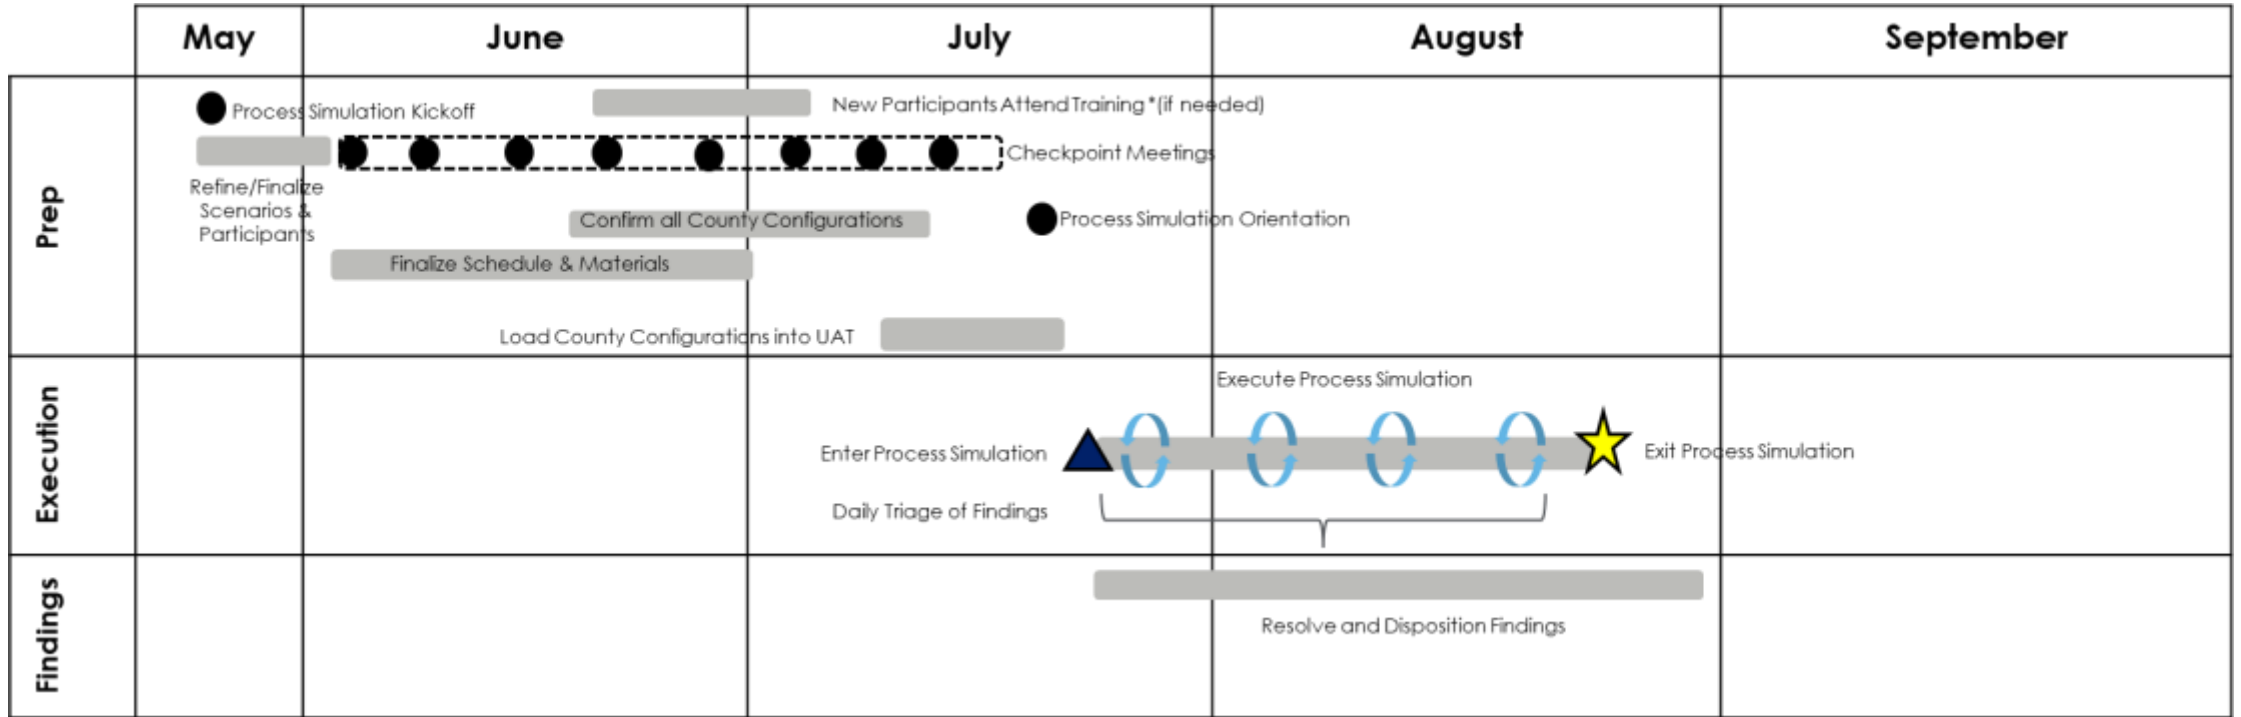

Primary Applicant: Joe Jones

Case: 2016724

# Getting Hands-on with System, Process, and Data

## Process Simulation – Timeline

# Getting Hands-on with System, Process, and Data

## Panel Discussion

Hear from our experts on important questions, gain insights from their perspectives, and learn from their experience with prior efforts.
