

Release #	Release Date	Item Type	Item Number	Functional Area	Programs Impacted	Original Behavior	New Behavior	Ticket Number
22.10.13	13-Oct-22	Defect	CA-250150	Reports		The DFA 256 and Integrated Calfresh Detail Claiming reports were not reconciling.	The DFA 256 and Integrated Calfresh Detail Claiming reports are now reconciling for the ongoing report and the report has been generated since 3/1/2022.	
22.10.13	13-Oct-22	Defect	CA-241905	Reports		The Initial QA report needed to display the actual capture time.	Changes have been done in the logic and template to capture the correct date and time with regards to the Initial QA report.	
22.10.13	13-Oct-22	Defect	CA-249809	Reports		The CF 358F & S July 2022 report totals did not correspond with the DFA Line 1 Household count.	The CF 358F & S July 2022 report totals now reconcile with the DFA Line 1 Household count.	PRB0044244
22.10.13	13-Oct-22	Defect	CA-250521	Reports		There was a report job that had failed because of a memory issue. The name of the job that had failed was "AN_CURATION_REPORTS_SUP_BEN_ISS_EBT_REG".	After increasing the memory, the report job is now able to be completed successfully every day.	PRB0044365
22.10.13	13-Oct-22	Defect	CA-251008	Reports		The following reports were missing dependencies in the scheduler: Medi-Cal Renewals Listing Report, Customer Reporting Progress Report, and 'Intake Statistics - Pending Applications, New Approvals, and Denials Report'. The MC1, MC2 and MC3 versions of the Medi-Cal Renewals Listing Report were showing the reference of "MC1", "MC2", and "MC3" in the report title within the template.	The dependencies are added in the scheduler for the following reports: Medi-Cal Renewals Listing Report, Customer Reporting Progress Report, and 'Intake Statistics - Pending Applications, New Approvals and Denials Report'. The MC1, MC2, and MC3 versions of the Medi-Cal Renewals Listing Report no longer show the reference of "MC1", "MC2", and "MC3" in the report title within the template.	PRB0044445
