3.4.2 Root Cause Analysis (RCA)

- ▶ Root Cause Analysis (RCA) – 199 – Shasta County eCCP Access Issue – PRB0045151
 - On January 19, 2023, the CalSAWS Contact Center team implemented a fix for defect in CalSAWS using CA-254429 to update an Identity and Access Management (IAM) role and validated the fix. On January 20, 2023, at approximately 7:00 a.m., while performing daily health checks for Contact Centers, the CalSAWS Contact Center team identified that the Shasta County C45 eCCP was inaccessible. The team identified the root cause as previous night's defect fix that impacted access to the Amazon Relational Database Service (RDS). As a result, login to eCCP was failing. The issue was quickly escalated to the Project team and the Contact Center team rolled back the configuration update for CA-254429 before the Shasta County call center opened at 7:45 a.m. and a broadcast email was sent to Shasta County to inform them of the issue and resolution
- ▶ Root Cause Analysis (RCA) – 202 – UEID Error Linking e-application to Case – PRB0045208
 - On January 27, 2023, incidents were logged by impacted Users that they were receiving a UEID error when linking some e-applications to cases in CalSAWS. The issue was occurring when Users attempted to link an e-application to a new person that does not exist in CalSAWS. E-applications that were pending in Users' queue for linking were increasing in numbers. To avoid large number of pending e-applications, Consortium leadership approved a mid-day release as an immediate solution to the issue. The CalSAWS BenefitsCal team identified that the issue was caused by a defect fix for CA-253096 (Refactor the case linking code to log or throw exception to avoid SonarQube quality gate failure issues), which was deployed the previous night, January 26, 2023, through a priority release deployment. The CalSAWS BenefitsCal Application Development (AppDev) team logged a defect CA- 255782 and reverted the code that caused the UEID. A mid-day release deployment was completed during the lunch hour and at 1:00 p.m. the Counties were able to link all the pending e-applications in their queue
