<p>Description: (Including any step-by-step instructions)</p>	<p>Purpose The purpose of this CIT is to distribute the approved county allocations for the American Recovery Plan Act (ARPA) County Technology Enhancements funding for Federal Fiscal Year (FFY) 2023 (October 2022 – September 2023).</p> <p>Background As discussed during the February 16th Quarterly Fiscal Conference Call, the ARPA allocated one-time 100% federal Supplemental Nutrition Assistance Program (SNAP) administrative funding to California for additional investments in CalFresh. For the current FFY, the California Department of Social Services (CDSS) reserved \$12.3M of these funds for one-time county technology enhancements that benefit CalFresh. Other programs may benefit in addition to CalFresh.</p> <p>The California Welfare Directors Association (CWDA) conducted a survey to identify counties in need of technology enhancements, such as computers, scanners, kiosks, FACT tablets, laptops, webcams, EBT and/or other printers, etc. The CalSAWS Project Management Office prepared a central Advance Planning Document (APD) and corresponding county allocations based on the information gathered by CWDA.</p> <p>The Office of Systems Integration (OSI) approved the county allocations and sent authorization letters to each County Director.</p> <p>Additional Information The individual county authorization letters for the ARPA County Technology Enhancements for FFY 2023 are attached in a zip file. Counties should refer to the attached ARPA County Technology Enhancements Cost Detail file for their specific qualifying items under column C, Scope.</p> <p><u>IMPORTANT POINTS:</u></p> <ul style="list-style-type: none"> • Some counties had scope that did not qualify as a county technology enhancement, which reduced the amounts requested through the survey. Other county responses were increased to align to known lobby management county purchase amounts.
---	--

	<ul style="list-style-type: none"> • This funding is specific to the CalFresh county technology enhancements funding. Counties should follow standard County APD processes to request funding for other ARPA funding categories. • Line-item adjustments within the total allocation are allowed, however counties may only claim costs associated with the approved scope. Counties may not exceed the allocated amount. • Counties do not need to revise/resubmit County APDs that were previously approved for the same or similar scope. • For costs that go beyond the ARPA county technology enhancement allocation, counties will need to follow separate County APD processes. • Counties should prioritize claims to the ARPA county technology enhancements funding to fully utilize the funds. Counties may need to adjust prior County Expenditure Claims (CECs) for items that are associated with separate County APDs. • The claim form and instructions for CalSAWS ARPA County Technology Enhancements will be distributed via a separate CIT as soon as possible and will include instructions for claiming. • Counties will need to follow the standard monthly claim process and provide acceptable receipts, statements, reports, etc. as backup documentation for their claim(s). • While the allocation is labeled as SFY 2022-23/FFY 2023, the funding is available through September 2023. All payments must be made by the end of September. Unused allocations during the current SFY will automatically be shifted to SFY 2023-24. <p>If you have questions on this CIT, please contact PMO.Fiscal@CalSAWS.org or the Primary Project Contact and CC your Regional Manager.</p>
