Project Risks and Issues

ID	Title	Details	Status	Impact	Risk Level	Date Logged
240	The scaling of CalSAWS Production Operations, including Batch Operations, to provide 40 and 58 County support, without considering the multi-County and multi-vendor CalSAWS ecosystem may impact business operations	As we expand to 58 Counties and with continual activities to support policy, the consequences of a misstep in executing the CalSAWS M&O batch schedule magnifies the potential impact to business operations and benefits to the participants. 262	The CalWIN Counties may not be fully prepared for go-live if they do not have sufficient or timely information	The CalWIN Counties and County Directors have voiced concern that they do not have sufficient information or direction from the CalWIN ISS team to adequately prepare for go-live. In some cases, they have begun creating their own materials based on what they understand. If the Counties do not have a framework within which to prepare, they may not be ready for cutover. This includes clear communication and timelines for what is needed to be completed by when, readiness checklists, early conversations on the transition from the current state to the future state, and clear direction. 269	CalWIN Counties may not have enough development and testing timeline to Refactor their Ad-hoc Reports and Ancillary System before Go-Live	The CalWIN Counties need time in the schedule, leading up to their respective Go-Live, to Refactor Ad-hoc Reports and/or Ancillary Systems. To do so, the Counties need connectivity and access to CalSAWS environments, data model (and definitions), as well as data. The current CalSAWS delivery schedule (of these) is compressing the CalWIN Counties Design, Development, and Testing timelines	Wave 1–2: Closed Wave 3–6: Open	3	Wave 1: Low Wave 2–6: Medium	01/12/22

279	CalWIN Counties may not be prepared to reconcile Fiscal and submit State Reports, timely, as they Migrate to CalSAWS	As CalWIN migrates to CalSAWS, Counties may need assistance (from the project) on how to reconcile Fiscal reports as they prepare to submit State reports to CDSS on a monthly basis (and timely)	Wave 1: Closed Wave 2–6: Open	Wave 1: 3 Wave 2–6: 4	Medium	09/14/22
285	Preparing CalWIN counties to operationalize CalSAWS after their Go-Live	If CalWIN counties are not prepared to operationalize CalSAWS after their Go-Live, timely and effective delivery of services could be impacted. During the 60-calendar day Post Implementation support period, migrating CalWIN counties must have available resources and volunteers appropriately allocated for post implementation support, and plan for a gradual transition to self-sufficiency. Success relies on migrating CalWIN Counties demonstrating self-sufficiency at the end of the support period by self-serving and using tools such as the Go-Live Packet and Fact Sheets. It also depends on a collective effort of staff from Deloitte, the Consortium, Accenture, Gainwell, ClearBest, and Counties who can commit to providing a hybrid of virtual and onsite support during the first 60 days after each Wave's Go-Live. CalSAWS – CalWIN ISS Weekly Status Report

Weekly Status Report, April 12, 2023

Period: April 3, 2023 to April 9, 2023

ID	Title	Details	Status	Impact	Risk Level	Date Logged
		CalSAWS Production Counties have knowledge, experience, and use of CalSAWS. However, it is unknown how many support volunteers will be received for each Wave. Migrating CalWIN counties must have internal processes, escalation procedures, and strong support systems in place to ensure staff adoption and sustainment of CalSAWS and minimize business disruptions.
