23.06.01	1-Jun-23	Defect	CA-262600	Reports		The Newly Approved Aided Persons for General Relief Dashboard was not refreshed during batch run.	The Newly Approved Aided Persons for General Relief Dashboard is now generating successfully.	
23.06.01	1-Jun-23	Defect	CA-260434	Reports		The Tulare FNS 209 report was failing in production because of 1.6 M records in Line 18c (non cash Adjustment). The report was failing because Line 18's row count exceeds the number that can be placed in an Excel sheet.	By using pagination, the data has been segregated and added it to various Excel pages, which allowed us to resolve this problem. After the fix, the report is being generated without any issues.
