23.06.07	7-Jun-23	Defect	CA-260811	Client Correspondence		There was a request to find/create an Active MC case with Individual DOB null and generate the MC 216 form through Template repository. Since the Individual DOB is empty, the system was throwing an error (UEID).	The MC 216 form can now be generated successfully.	PRB0046056
23.06.07	7-Jun-23	Defect	CA-257331	Client Correspondence		Unable to generate SAWS 2 PLUS from template repository	Able to generate SAWS 2 PLUS from template repository	PRB0045422
23.06.07	7-Jun-23	Defect	CA-260926	Fiscal		Monthly Diaper allowance payment request creation job runs on the last day of the month for creating diaper allowance payment requests for the eligible cases for the next month. However, if the last day of the month is a Saturday, the payment requests don't get created. The batch internally checks that the day the job is running is the last business day of the month for the county. This is incorrect since the job is scheduled to run on the last day of the month which might not be the county business day.	Monthly Diaper allowance payment request creation job runs on the last day of month without checking if it's the last business day of the month.	PRB0046074
23.06.07	7-Jun-23	Defect	CA-260903	Fiscal		Submission error when attempting to issuance Mileage Reimbursement for an RCA case.	Mileage Reimbursement for WTW RCA cases has been issued.	PRB0046071
23.06.07	7-Jun-23	Defect	CA-260458	Fiscal		User was not able to generate Valuable Requests from a Service Arrangement.	User is able to generate Valuable Requests from a Service Arrangement. Any Service Arrangements affected by this defect will need to be closed out and recreated in order to generate a Valuable Request.	PRB0045965
23.06.07	7-Jun-23	Defect	CA-260226	Online		An error (UEID) was being thrown when trying to re-assign multiple resources in resource databank reassignment page.	After the fix, the user is able to reassign multiple resources to one worker id.	
23.06.07	7-Jun-23	Defect	CA-260227	Online		Data was getting lost when clicking on the 'Close' button after we click on Generate GEN 2020 & Generate SAWS 30 button due to levsFindingBean populating the default values instead of holding values from context and bean is getting refreshed.	After the fix, the Data is not getting lost when clicking on the 'Close' button as levsFindingBean is holding all the values from context instead of populating default values from helper class. Also, default values such as "created by/updated by" have been stored in the bean with the help of ValueBeanHelper class via populateDefaultValues method (and levsFindingBean now has all the values in place).	

Release #	Release Date	Item Type	Item Number	Functional Area	Programs Impacted	Original Behavior	New Behavior	Ticket Number
23.06.07	7-Jun-23	Defect	CA-261156	Online		Document Routing Rule Task consolidation to prevent the same worker from receiving multiple Tasks per imaged document was not consistently identifying the highest priority program.	Document Routing Rule Task consolidation to prevent the same worker from receiving multiple Tasks per imaged document appropriately identifies the highest priority program.	PRB0046124
23.06.07	7-Jun-23	Defect	CA-258528	Online		Document Routing Rule processing when configured with append in some instances would append into a Task as part of Task creation.	Document Routing Rule processing when configured with append does not append into a Task at the same time it is created.	PRB0046342
23.06.07	7-Jun-23	Defect	CA-259998	Online		Employment Services Workload Inventory page was displaying different information when landing on the page and pressing the 'View' button.	The information when landing on the page and clicking view is the same.	PRB0045487
23.06.07	7-Jun-23	Defect	CA-259486	Online		Offices with the character "&" in their name won't be able to export properly.	Offices with the character "&" in their name will be able to export properly.	PRB0045791
23.06.07	7-Jun-23	Defect	CA-259176	Online		Previously, the Number Assigned field on the Reception Log Search page was not case-sensitive and always displayed the upper-cased form of the number searched for.	The Number Assigned field is case-insensitive and correctly displays the letter-casing that the user inputted.	PRB0045704
23.06.07	7-Jun-23	Defect	CA-260866	Online		The DPSS ePolicy link did not work	After the fix, the DPSS ePolicy link is now working properly.	PRB0046058
23.06.07	7-Jun-23	Defect	CA-261454	Online		When scanning an "FC 2" document for a county with an Active Document Routing Rule that includes the "FC 2" form, Tasks were not processing.	Tasks are now processed for the "FC 2" document for counties with an Active Document Routing Rule that includes the "FC 2" form.	PRB0046167
23.06.07	7-Jun-23	Defect	CA-260545	Performance		Task Search Query was executing with only a county code as the parameter.	Task Search Query is no longer executing with only a county code as the parameter.	
23.06.06	6-Jun-23	Defect	CA-259679	CalHEERS		(Data Change Request): Some Converted Cases with Medi-Cal programs were associated to an older/invalid CalHEERS Case Number than what was current in CalWIN.This led to errors when Requesting MAGI for that program.	Data Change Run Date: 6/6/2023 There should no longer be errors related to Case Linkage as now the CalSAWS Case will be linked to the correct CH Case Number.	PRB0045833
