

Release #	Release Date	Item Type	Item Number	Functional Area	Programs Impacted	Original Behavior	New Behavior	Ticket Number
23.06.16	16-Jun-23	SCR	CA-262523	Tech Forge Rock		Users logging in to the AWS Administrators through Forgerock were receiving a one-time passcode (OTP) via email for second factor authentication. Project admins were using Email OTP, SMS OTP and Authenticator App at the moment for one-time passcode.	The Tech ForgeRock team has added a functionality where project admins can use FIDO2 tokens which will include Face Authentication, Yubikey, Windows Hello and Android Device. After the release, project admins users will be able to login with multiple options depending on what functionality their device is compatible.	
23.06.16	16-Jun-23	Defect	CA-260517	Conversion		The statuses on wave 1, 2 and 3 CalWIN conversion customer activities were set incorrectly.	The statuses on wave 1, 2 and 3 CalWIN conversion customer activities have been set correctly.	PR80046049
