Current Design: In CalSAWS, the SAR Due Month is calculated by taking the RE Due Month minus 6 months. The date can be prior to the RE Begin Month and does not represent the date the last SAR 7 was due.

Request: This SCR will update the SAR Due Month field to not display on the Case Summary page or Program Detail page (for CalFresh, CalWORKs, or RCA Detail) when the reporting period between the RE Begin Month and the RE Due Month is less than or equal to the report frequency (6 months for SAR and 12 months for SARA).

Recommendation: 1. When the reporting period between the RE Begin Month and the RE Due Month is less than or equal to the report frequency (6 months for SAR and 12 months for SARA), the SAR Due Month field will not be displayed on the Case Summary page and on the Program Detail page (for CalFresh, CalWORKs, or RCA Detail).
