23.09.03	3-Sep-23	SCR	CA-249820	Online	Welfare-to-Work/Gain	In CalSAWS, the maximum amount of Customer Activity that can be associated to a single Service Activity is 999. CalWIN Wave 5 counties have more than 999 Customer Activity associated to a single Service Activity.	CalSAWS created multiple Service Activity records (matching the same information as the converted Service Activity) so that the maximum amount of converted Customer Activity associated to a Service Activity is maxed at 999 records.. For example, if a converted county had 1,500 records (customer activity) associated to a Service Activity, CalSAWS will create 1 new Service Activity to accommodate the 1,500 converted records (1 new Service Activity and the converted Service Activity).
