

Release #	Release Date	Item Type	Item Number	Functional Area	Programs Impacted	Original Behavior	New Behavior	Ticket Number
23.09.19	19-Sep-23	Defect	CA-267825	Conversion		Cases marked as Overridden for CalWIN Case Data Removal were converted with a "Completed" status, making it appear as a shell case. No data was removed, only the case data removal status was incorrect. This engaged a case lock, and prevented workers from adding new programs to these cases.	Cases marked as Overridden for the CalWIN Case Data Removal now have the correct status in CalSAWS, removing the case-lock that prevented the worker from adding new programs.	PR80047285
