Description:	<p>Purpose</p> <p>The purpose of this CIT is to remind migrating CalWIN counties that Periodic Report (PR) and Recertification/Renewal (RE) Customer Reporting records created by a Data Change Request (DCR) to handle skips as part of the migration process will not have a physical packet.</p> <p>Background</p> <p>As part of migration, the Project has been implementing DCRs to create PR/RE Customer Reporting records to prevent the program from skipping. When a customer reporting record is entered using as DCR to handle skips, there will not be any physical packet sent.</p> <p>In this scenario, the system throws an error when the user tries to open the PR or RE packet from the Distributed Documents Page. The error message says: "Unable to retrieve PDF file. Please contact the system administrator."</p> <div style="border: 1px solid #ccc; padding: 10px; margin-top: 10px; text-align: center;"> <p>Unable to retrieve PDF file. Please contact the system administrator.</p> <p>Please CLICK HERE to continue!</p> </div>
--------------	--

Users can identify if a packet was created by a DCR in the Customer Reporting Detail page. Under the 'Updated By' field, **if there is a '92' then it means it was created by a DCR.**

Customer Reporting Detail
