#### Introduction:

As part of the migration of CalWIN counties to CalSAWS, the CalSAWS counties start developing Exstream templates using the same Exstream Design Manager application version 16.6.3 used in CalWIN today. The only change will be to create a connection to GA/GR Exstream Design Database.

**NOTE:** These instructions can only be used by CalSAWS Wave 5 counties (Alameda, Fresno and Sonoma) starting on Monday (09/04/2023) with the Go-Live preparations of Project 54589 – GA/GR Notices (Correspondence) Service.

# **Steps to Test Connectivity:**

**Note:** If you are an existing CalWIN county Exstream user, then you can skip step 1 through 10.

- 1. Download **ONE** RDP file per the following allocation:
  - Users from Alameda, Contra Costa, Fresno, Orange, Placer, Sacramento, WCDS will download "AWS-1 Prd Exstream.rdp"
  - Users from Hummble Translations, San Diego, San Francisco, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara will download "AWS-2 Prd Exstream.rdp"
  - Users from Santa Cruz, Solano, Sonoma, Tulare, Ventura, Yolo will download "AWS-3 Prd Exstream.rdp"
- 2. Copy **ONE** assigned RDP file to your desktop. These are the same RDPs as in CalWIN today.

AWS-1 County AV Exstream.rdp E

AWS-2 County Exstream.rdp

AWS-3 County Exstream.rdp

3. Double click on the RDP icon on your desktop to start the login process (as you do today).

10. Wait for the "Starting your app" window to finish.

11. In order to log in to GAGR Exstream Database, click on "cancel".

**NOTE:** This step only needs to be done once when switching from the CalWIN Exstream database (EXST01P) to the CalSAWS Exstream database (EXGAGR01P). There is no need to do this step after you have successfully connected to the CalSAWS Exstream database (EXGAGR01P)

ок		Cancel			

- 13. Log into Exstream Design Manager using your current Exstream application credentials. Note that you are now in:
  - a. Design Manager Version 16.6.3.
  - b. And are now logging into "EXGAGR01P" Designer DB (lower left corner of the image).

14. You will see a splash window with "OpenText Exstream" . . . "Version 16.6.3". This confirms you have logged into the new Exstream application in AWS.

15. At this point, you have successfully logged into GA/GR Exstream Design Manager and you can proceed with your normal Exstream Designer activities.

### **Congratulations!**

You have successfully logged into the new <u>GAGR</u> Exstream design environment.

# For any login support:

Please open an SR, then request that the help desk assign it to Nisma Gurung.
