23.10.12	12-Oct-23	SCR	CA-265423	CalHEERS	Medi-Cal/MSP/CMSP	Cases from auto-discontinuance batch job are skipped by batch EDBC with skip reasons "Not all Applicants are in determination" and "Magi Determination Not Received". These skip reasons are for redeterminations and should not apply for cases identified by Auto-Discontinuance for negative action.	An exception has been added to Batch EDBC Skip logic for "Magi Determination Not Received" to not skip the Medi-Cal program when Negative Action is being applied.	
23.10.12	12-Oct-23	Defect	CA-267773	Analytics		Issue 1: CalFresh Transitional CalFresh field is identified blank for records whose RE information is associated to a TCF program. Identified as part of regression testing of SCR CA-251447. Issue 2: Report not filtering data based on county code passed as argument. Issue 3: The report capturing unexpected case numbers. Sample case number : 1808394, 180CB32 (County:30) for run date 08/04/2023	Issue 1: CalFresh Transitional CalFresh field is now populated as Y for the records whose RE information is associated to a TCF program. Issue 2: Data is now generated only for county code passed as argument while submitting the job. Issue 3: Post discussion with BA, these cases were expected to be reported as the report design is based on RE due date and not on the latest status. No fix is done for this issue. Attached email confirmation from BA.	
23.10.12	12-Oct-23	Defect	CA-269106	Analytics		Semi-Annual Dashboards' data for 10/9 is not available	Semi-Annual Dashboards' data 10/9 onward is available	PR80047276
23.10.12	12-Oct-23	Defect	CA-269086	Batch/Interfaces		Automated RE appointment scheduling job missed to schedule November Month RE appointments for some of the participants. Only partial appointments were schedule.	All the appointments were scheduled as expected and the valid skips are available in the skip reports for the workers to act upon.	PR80047531
23.10.12	12-Oct-23	Defect	CA-266983	Conversion		Converted CalWIN customer activities not related to employment were still pointing at employment records when they should have been tied to service activities if the worker had updated the activity post-conversion.	Converted CalWIN customer activities now link to a service activity instead of an employment record even if the worker had updated the activity post-conversion.	PR80047149
23.10.12	12-Oct-23	Defect	CA-268107	Conversion		EBT cards are displaying the head of household name incorrectly when a card has an associated EBT_CARD_ALTERNATE record.	EBT cards are display the correct head of household name when a card have an associated EBT_CARD_ALTERNATE record.	PR80047350
23.10.12	12-Oct-23	Defect	CA-267029	Conversion	CAPI	Rate amount was not being displayed in Rate detail.	Rate amount is now being correctly displayed.	
23.10.12	12-Oct-23	Defect	CA-267426	Reports		Repartition the state reports data lake to use county in addition to the reporting period. Solution should be extendable to other scheduled reports such as Fiscal reports.	We have fixed the issue by adding COUNTY_CODE repartitioning logic for all 7 reports which are mentioned in Jira.
