23.11.07	7-Nov-23	SCR	CA-266210	CalHEERS	Medi-Cal/MSP/CMSP	Individuals who transfer non-exempt countable property within 30 months of application for Long-Term Care results in a period of ineligibility for Medi-Cal. At application, a county worker creates a Non-Compliance record for the transferred property, and the non-compliance should only apply for a maximum of 30 months. CalSAWS does not automatically end date non-compliance records, and individuals who have a non-compliance record for transferred property may be over 30 months, and could be eligible for Medi-Cal.	A one-time list of individuals who have a high dated non-compliance record for 'Transferred Property' is created for counties to review and determine if action is needed to end date the non-compliance.
