290	Recently released ROI policy lacks clarity which may create privacy and liability exposure for counties and customers	<p>Recently issued Release of Information (ROI) policy is not detailed enough, nor is it consistent between the two state Departments (CDSS and DHCS). The policy as written may create customer information privacy/security, safeguard and county operations concerns, and liabilities. As the policy was released after the completion of ROI design, development, and testing of the functionality in BenefitsCal and CalSAWS, counties have not had sufficient time to assess the ROI functionality with the high-level policy and to be able to determine impacts to their county operations and the associated alignment with the existing BenefitsCal/CalSAWS design. The policy as written does not give clear direction on County responsibilities associated with the establishment of CBO agreements, provisions of those agreements and monitoring of CBO compliance with the agreements. Counties also have not had sufficient time to be able to determine if their current CBO agreement language is adequate and includes provisions and protections to further protect customer information when being accessed by CBOs via BenefitsCal. BenefitsCal/CalSAWS initial design and implementation has been postponed until final/revised policy is issued by both CDSS and DHCS and there is operational clarity agreed to by all parties.</p> <p>June 16, 2023:</p> <ul style="list-style-type: none"> Responded to SIRFRA 1270/1271 regarding Expanding the Release of Information Feature with set of questions to DHCS from BenefitsCal, CalSAWS, and CWDA on 06/12/23.
