| 23.12.08  | 8-Dec-23     | SCR       | CA-266990   | CalHEERS        | Medi-Cal/MSP/CMSP | CalWIN had logic that prevented a MAGI Renewal from starting the renewal process by sending an RE EDR in the following situations: 1. The worker has setup the case to have a 'Suppress MAGI Flag', or 2. The primary applicant does not have a high-dated Consent for Verification. As a result, no RE DER was received into the case nor converted into CalSAWS. CalSAWS auto-discontinuance logic requires a Renewal DER on the case to determine who to process through the Negative Action since there is individual-level renewal/Discontinuance in MAGI. | A one-time list of Medi-Cal cases that had the 'Suppress BRE' set to Yes for 09/2023 RE Due Dates in CalWIN and the 9/2023 RE Due Date is overdue in CalSAWS has been created. Workers will utilize this list to manually process discontinuances or renewals, as appropriate. |               |
