Justification/Request Summary					
Roll-on/off eCCP Admin Page enhance search feature.					
Issue					
LA County has over 3500 users in CalSAWS eCCP. When users need to be updated, we are only allowed to search by Last Name. In our environment, searching by "CalSAWS User ID" would result in a unique result.					
Proposed Recommendation					
Enhancement to the Roll On/Off user page to include a new option for "CalSAWS User ID" search. This could be a drop down where the admin user selects, "last name" or "CalSAWS User ID". This would allow us to return a specific user every time, versus having to sort thru multiple users when searching by "Last Name".
