Project Phase (SCR):	<b>Production</b>	Funding Source ID:			
Other Agency Cross Reference:					

**Current Design:** The System generates the CW 2200 (6/19) for pending verifications.

**Request:** Update the CW 2200 to the most current 5/22 version.

Based around if the Form is generated for Medi-Cal the CW 2200 generates with or without the "Authorization for Release of Information" verbiage. However only one version is available when generating a Blank version. Add an additional Template Repository entry to allow for both versions to be available for the workers to use.

**Recommendation:**

- 1.) Update the CW 2200 to the most current version.
- 2.) Verifications types (CT170) that populate in the CW 2200 need to be translated.  
Verification type:
  - Living Arrangement
  - ID/ Driver's License
- 3.) The CW 2200, Request for Verification Form and related functionality needs to be enhanced to:
  - For Non Assistance CalFresh (NACF) cases, the CW 2200-LA must not be generated when the Customer Appointments Detail page displays a category of "General Appointmen";
  - Verifications List page:
    1. Populate the CW 2200 with the pending verification obtained from the data collection pages to indicate the specific information needed such as:
      - Income: Display the employer name for which income is needed; the timeframe of the check stubs needed; etc.
      - Vital Statistics: Instead of indicating that the Vital Statistics is pending, CalSAWS must indicate that verification of citizenship and identity is needed for Medical purposes, including CalWORKs-based Medi-Cal..
